DIRECTORY OF STATE PUBLICATIONS
LISTING CRUSHED STONE AND SAND AND GRAVEL PRODUCERS

Compiled by the U.S. Bureau of Mines
Branch of Industrial Minerals
and
Branch of Data Collection and Coordination

INTRODUCTION

A significant amount of information regarding the crushed stone and sand and gravel industries in each State is available from State agencies and State trade associations. These organizations continuously monitor the State mineral industries and are therefore an important source of detailed information at the local level. This third edition of the directory was prepared to provide a listing of government agencies and trade associations that can assist the users interested in obtaining detailed listings of crushed stone and sand and gravel producers, in addition to the information published by the U.S. Bureau of Mines.

Any comments, suggestions, additions, or updates to this listing that will improve the coverage of the directory should be sent to:

Valentin V. Tepordei
Mineral Commodity Specialist
