GPO/NTIS PRICE CHANGES

Due to recent price increases announced after this catalog was prepared, all U.S. Government Printing Office (GPO) and National Technical Information Service (NTIS) prices listed herein are no longer valid. Effective May 10, 1982, all GPO prices increased by at least 10%. Please verify all GPO prices by calling 202/783-3238 before ordering any NIOSH publications from GPO.

Effective January 1, 1982, all NTIS prices increased. Refer to the number of pages listed in the document citation to determine the new NTIS price. See table below for current NTIS price information.

INTRODUCTION

This publication is a cumulative catalog of all National Institute for Occupational Safety and Health (NIOSH) numbered publications, health hazard evaluations (HHE) and technical assistance (TA) reports, contract reports, industry-wide studies (IW), and other educational and training materials. The catalog is arranged in six sections.

Section I - contains all NIOSH numbered publications arranged by number and includes the complete citation for each publication (see explanation and sample citation at the bottom of this page).

Section II - contains Health Hazard Evaluations and Technical Assistance Reports arranged by number and includes the complete citation for each publication. Note that the number list is sequenced by the last segment of the HHE or TA number and includes the complete citation for each HHE and TA.

Section III - contains NIOSH contract reports arranged by number and includes the complete citation for each of these contract reports.

Section IV - contains Industry-Wide Study (IW) reports arranged by number and includes the complete citation for each IW report.

Section V - contains NIOSH unnumbered publications arranged alphabetically by title and includes the complete citation for each.

Section VI - contains an extensive subject index guide to all NIOSH documents. Each NIOSH document has been indexed by industry, process, hazards, chemicals, evaluation techniques, or other useful concepts as applicable. A list of the index terms appears in Section VI-A and the subject index guide appears in Section VI-B. Each document may be listed several times, once under each index term assigned to it.

The reader should note that an individual document may appear in more than one of the first five sections. For example, a numbered publication that was developed under contract will be listed in both Sections I and III.

To determine the availability of a document, refer to the appropriate numerical list of publications in Sections I, II, III, IV and the alphabetical list in Section V. These sections contain complete citations for NIOSH documents. A complete citation (see example below) consists of the following information: full title, number of pages, contract number (where applicable), and an indication of whether the document is available from NIOSH, GPO, or NTIS. The GPO or NTIS stock number and price are listed to facilitate ordering.

SAMPLE CITATION

NO: PB-80-176-993/\$9.50 CONTRACT NO: 99-74-0031

NOTE: HHE's, TA's and IW's reports are *NOT* available from NIOSH. They must be ordered from NTIS as indicated in Sections II, IV and VI. Please do not delay your requests by writing to NIOSH for these documents.

ORDERING INFORMATION

NIOSH documents are available from one or more of the following sources: NIOSH, GPO, or NTIS. The availability of each document is defined in the complete citation that appears in Sections I, II, III, IV, and V. Those documents with the notation "AVAILABLE FROM NIOSH" may be requested from NIOSH at the address given below. However, only a single, complimentary copy will be provided by NIOSH while the supply lasts. Multiple copies must be ordered from GPO or NTIS as described below. Documents marked "UNAVAILABLE FROM NIOSH" are no longer available from NIOSH and must be obtained from GPO or NTIS. If a document is available from GPO, its GPO stock number and price are listed. Similarly, if a document is available from NTIS, its NTIS stock number and price are listed. For example, the sample document shown on the preceding page is available only from GPO and NTIS.

To Order from NIOSH

An "AVAILABLE FROM NIOSH" notation in the citation indicates that a single, complimentary copy of the publication may be requested from NIOSH while the supply lasts. Any document with the notation "UNAVAILABLE FROM NIOSH," which includes all HHE's and TA reports, is *NOT* available from NIOSH. Availability of publications from NIOSH is subject to change without notice. Requests for single copies should be sent to:

Publications Dissemination, DSDTT
NIOSH
4676 Columbia Parkway
Cincinnati, Ohio 45226

For your convenience, a NIOSH order blank is provided on page ix. Include both NIOSH publication number and title. Please limit your selections to not more than 10 titles.

- **Please Enclose Several Self-addressed Return Mailing Labels to Expedite Your Request**
- **Do Not Send Checks, Money Orders, or Cash to NIOSH**
- **Do Not Send the NIOSH Order Blank on Page ix to GPO or NTIS**

To Order from GPO

NIOSH publications listed as being available from GPO may be ordered from:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

NOTE: Due to reprinting costs, GPO prices may increase. Also, GPO stock may become exhausted and therefore unavailable without notice.

Publications may be ordered directly from GPO by using the facsimile order form on page xi. **READ ALL INSTRUCTIONS BEFORE ORDERING** (disregard instruction 2 on the back of the form regarding multiple copies). Enter the GPO stock number shown in this catalog in the space marked "Stock No." Note that GPO requires prepayment (check or money order), Master Card, or VISA credit card number with your order. Customers with GPO deposit accounts may order using existing deposit account procedures.

Foreign GPO Orders - For customers outside the U.S., note that GPO charges an additional 25% and requires remittance in advance. Payment must be made by international postal money order, by draft on a U.S. or Canadian bank, by UNESCO coupons, or by deposit account.

- **Do Not Send GPO Order Forms to NIOSH or NTIS.**

To Order from NTIS

NIOSH publications listed as being available from NTIS may be obtained from:

National Technical Information Service
Port Royal Road
Springfield, Virginia 22161
(Order Desk Telephone is (703) 487-4650)

Publications may be ordered directly from NTIS by using the facsimile order form on page xiii. **READ ALL INSTRUCTIONS BEFORE ORDERING.** Enter the NTIS stock number shown in this catalog in the space marked "ITEM NUMBER." Note that an extra \$5.00 "ship and bill" charge is added to all non-prepaid NTIS orders.

NTIS provides NIOSH publications in both paper copy and microfiche. The paper copy price is listed in this catalog following the NTIS stock number. All microfiche prices should be checked with NTIS before ordering. All NTIS prices are subject to change without notice.

FOREIGN NTIS ORDERS

NTIS has established a worldwide network of agents from whom NTIS documents may be obtained. If you are ordering from one of the eleven countries specified above, you must order from the applicable NTIS agent; orders sent directly to NTIS will be returned. Because prices of NTIS publications may vary with each agent, it is recommended that you first contact your agent before ordering. If you are ordering from countries other than the eleven specified, you may send your order to NTIS in the United States. NTIS prices for those foreign orders are *double* those shown in this catalog. Payment is required in U.S. currency.

DO NOT SEND NTIS ORDER FORMS TO NIOSH OR GPO.

INFORMATION CONCERNING YOUR ORDER OR INQUIRY

Thank you for your interest in U.S. Government publications. If you have made a written inquiry, it is returned herewith for your reference. We have indicated the prices of publications currently available, or have provided the information requested to the best of our ability. Unless otherwise noted, prices are for single copies.

There is no free distribution by this Office. Regulations require remittance in advance of shipment of publications, either by check or money order payable to the Superintendent of Documents. Do not send currency (bills or coins) or postage stamps.

With the exception of specially priced publications, a discount of 25 percent is allowed on quantity purchases (100 or more copies of a single publication). The same discount applies to orders from a bookdealer (any quantity) when the publications are mailed to the dealer's normal place of business. No discount will be allowed when publications are mailed to a third party (unless in quantities of 100 or more per title).

NON U.S. CUSTOMERS - International mailing regulations require special handling for which we charge an additional 25 percent of the total cost of your order. Remittance is required in advance of shipping by draft on a United States or Canadian Bank, by UNESCO coupons or by International Postal Money Order made payable to the Superintendent of Documents. These orders are mailed via surface mail unless funds are sent to cover airmail postage. Foreign currency or checks will not be accepted. All orders must be in English.

TO ORDER, USE FORM ON REVERSE SIDE. FOLLOW INSTRUCTIONS BELOW.

1. Enter your complete name and address, your order number (if any) and date in the proper places at the top of this form. Enter stock number, unit of issue*, quantity, title and price of desired publication(s) and total enclosed. There is a \$1.00 minimum for mail orders; this is not a surcharge. Enter destination name and address and your order number on mailing label at bottom of form.
2. Mail yellow copy to Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Retain customer's copy (green) for your records.
3. If a shipment is incorrect, return the shipping document with your request for adjustment. **DO NOT RETURN PUBLICATIONS UNTIL NOTIFIED TO DO SO.** All claims must be submitted within one year from date of your order.

SECTION I

NUMBERED PUBLICATIONS - NUMERICAL LIST WITH FULL CITATION

NIOSH-numbered Publications are generated internally, by contract, or by an interagency agreement. Publications in this category include symposium or conference proceedings, NIOSH administrative and management reports, reports of scientific investigations, compilation of data, and employee-related booklets.

Criteria Documents establish recommended occupational health standards. Further, NIOSH classifies *Special Hazard Reviews* as *Criteria Documents*. NIOSH publishes these documents after critically evaluating all known and available medical, biological, engineering, chemical, and trade data and other information that may be relevant to recommending a standard. Usually included as part of the standard is a permissible exposure level; i.e., the concentration of a substance in the occupational environment that will not cause adverse effects in exposed persons or recommendations for medical surveillance. Personal protective equipment, work practices and sanitation, informing worker of hazards, labeling and posting monitoring and surveillance, and recordkeeping are included in these documents. Criteria Documents on specific processes or operations may not have permissible exposure levels but may recommend work practices, control limits, and control measures. Occasionally, NIOSH may revise earlier recommendations or update a document without making a new recommendation.

Current Intelligence Bulletins (CIB) are a product of the NIOSH Current Intelligence System which promptly reviews, evaluates, and supplements new information received by NIOSH on occupational hazards that were either unrecognized or were greater than generally known. Further, this system advises appropriate labor, academia, industry and public interest groups of recently acquired specific knowledge which may have an impact on their program or perception of the hazard.

Health and Safety Guides assist small businesses in providing a safe and healthful work environment for their employees.

This section contains a list of all NIOSH numbered publications in numerical order. For ordering information, see page vi.

SECTION II

HEALTH HAZARD EVALUATIONS - NUMERICAL LIST WITH FULL CITATION

Health Hazard Evaluations (HHE)—The Hazard Evaluations and Technical Assistance Program of NIOSH provides, upon request, medical, nursing, and industrial hygiene technical and consultative assistance to Federal, state, and local agencies, labor, industry, and other groups or individuals to control occupational health hazards and to prevent related trauma and disease.

This section contains a list of health hazard evaluations (HHE) and technical assistance (TA) reports in numerical order according to the last segment of the HHE or TA number. The HHE and TA report numbers are listed on the left-hand side of the page. Also included is an indication of each report's availability from NTIS. **NOTE:** None of these reports are available from NIOSH. For ordering information, see page vii. Those reports not currently available from NTIS will be made so in the future.

SECTION III

CONTRACT REPORTS - NUMERICAL LIST WITH FULL CITATION

Contract Reports are generated from an agreement between NIOSH and usually a nongovernmental or noneducational organization and typically involve scientific research. These reports can also result in a NIOSH-numbered publication.

This section contains a list of NIOSH contract reports in numerical order. Also included is an indication of each report's availability. For ordering information, see page vi. Note that some citations in this section also appear in Sections I or II since some NIOSH publications and reports were produced by the contract mechanism.

INDUSTRY WIDE STUDIES - NUMERICAL LIST WITH FULL CITATION

Industry Wide Study Reports assess whether specific occupational exposures of certain worker groups are associated with adverse health consequences. Further, study designs vary (cohort, case control, proportionate mortality, non-sectional incidence, reproductive questionnaire) depending on the question to be addressed and availability of data.

This section contains a list of Industry Wide Study Reports in numerical order. Also included is an indication of each publication's availability. For ordering information, see page vi.

INDEX TERMS

This section contains a list of the index terms by which all NIOSH publications included in the first five sections of this catalog are indexed. The complete Subject Index appears in Section VI-B, page 107. This list of index terms is provided to facilitate the user's efforts in determining which topics have been treated by NIOSH publications.

The terms are selected based on the major concepts covered by NIOSH publications and reports and are not designed to be exhaustive of a particular publication's content. An effort was made to group similar concepts under headings common to the field of occupational safety and health rather than to select unique terms for each publication.

Chemical substances are selected as index terms where significant mention is made of specific substances. Compendia of information on chemical substances are not indexed under the contained substances, but are indexed under the heading "CHEMICAL SUBSTANCES." Hazards encountered, industries surveyed, and processes evaluated are selected where applicable.

SECTION VI-B
SUBJECT INDEX

This section contains the documents associated with each subject index term listed in Section VI-A. The documents are listed in alphabetical order by title within each index term. Identifying codes and numbers appear to the right of each title. The code "NIOSH" identifies NIOSH numbered publications which are listed in numerical order in Section I. The code "HHE" identifies Health Hazard Evaluations or Technical Assistance Reports which are listed in numerical order in Section II. The code "CONTR" identifies contract reports which are listed in numerical order in Section III. The code "IW" identifies Industry Wide Studies which are listed in numerical order in Section IV. If no code appears, the document is an unnumbered publications which are listed alphabetical order by title in Section V.

Do not order NIOSH documents from this list! Return to the appropriate section for an indication of the availability of each report.
