I. INTRODUCTION

This document is a cumulative catalog of all National Institute for Occupational Safety and Health (NIOSH) numbered publications since the Institute's establishment in 1970. Additional publications cooperatively developed by NIOSH are included in Section VIII.

Each NIOSH document is listed by its publication number and indicates the title and availability status, whether from NIOSH, the Government Printing Office (GPO), and/or the National Technical Information Service (NTIS). Ordering procedures for each source are given below. Also, there are cross-listings to the NIOSH publication number from either the GPO stock number, NTIS stock number, NIOSH contract number, or title. Titles are listed alphabetically under Criteria Documents, Health and Safety Guides, or other NIOSH Publications. An additional section - subject index guide - has been added. This subject index only lists currently available NIOSH publications according to their major area of interest. It is anticipated that a subject cross reference file will be available in future editions. Semiannual supplements will update this catalog.

ORDERING PROCEDURES

NIOSH documents are listed by their publication number in Section II. Each entry shows the publication title, where it is available, and necessary ordering information.

Example:

NIOSH PUB. NO.	TITLE	AVAILABILITY
76-199	Women's Safety-Toe Footwear. GPO: 017-033-00154-5 NTIS: PB266443	32pp. Price: \$.75 Price: \$4.00 NIOSH/GPO/NTIS

In this example, the notation "NIOSH/GPO/NTIS" indicates that this publication is available from all three sources. Single copies only are available from NIOSH, until our stock is depleted. Multiple copies may be obtained from GPO and/or NTIS. Numbers below the title indicate the appropriate stock number by which the publication should be ordered and the price at each source.

When searching for a particular publication by title and the NIOSH publication number is unknown, turn to Section III. This alphabetical list by title shows the corresponding NIOSH publication number. After locating the NIOSH publication number, return to Section II to determine its availability. Additional cross-listings include NIOSH publication numbers by GPO stock number (Section V), NTIS stock number (Section VI), and NIOSH contract number (Section VII).

The entry "NOT USED" indicates that a NIOSH publication number was not assigned. "OUT OF PRINT" indicates the publication is not presently available from any source. However, it is hoped that all past and present NIOSH publications eventually will be available from NTIS.

To order from NIOSH:

A NIOSH notation in the availability column indicates that a single, complimentary copy may be requested from NIOSH while the supply lasts. Requests for single copies should be sent to:

Publications Dissemination, DTS
National Institute for Occupational Safety and Health
4676 Columbia Parkway
Cincinnati, Ohio 45226

Order documents by NIOSH publication number and title. Please limit your selections to 10 titles or less.

(Note: Availability of NIOSH publications is subject to change without notice.)

PLEASE ENCLOSE SEVERAL SELF-ADDRESSED RETURN MAILING LABELS TO EXPEDITE YOUR REQUEST. DO NOT SEND CHECKS, MONEY ORDERS, OR CASH TO NIOSH.

To order from GPO:

Publications listed as being available from GPO may be obtained from:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Order documents by the GPO stock number and include your check or money order. Allow 6-8 weeks for delivery.

(Note: GPO stock may become exhausted and therefore unavailable without notice.)

To order from NTIS:

Publications with an NTIS notation are available in both microfiche and paper copy form. The price for each microfiche copy is \$3.00. Paper copy price is variable and is found next to the NTIS stock number in the list of NIOSH publications. When ordering from NTIS, state the stock number of the publication and enclose your check or money order. Allow 4-6 weeks for delivery. The address is:
