DHHS (NIOSH) PUBLICATION NUMBER 2018-165B

JULY 2018

Identifying hazards at work is an important life skill. How is it done? This video covers Lesson 2, Finding Hazards. It guides instructors on how to teach what a job hazard is, the different categories of job hazards, and how to find information using a Safety Data Sheet (SDS). It also covers the activities in Lesson 2: *Find the Hazards worksheets and Hazard Mapping*.

The video also covers the activities in Lesson 1: job safety quiz, *Mallory's Story* video, and real life stories of teens injured on the job.
