AMSEA is a nonprofit 501(c)(3) whose mission is to:

*Reduce injury and death in the marine and freshwater environment through education and training provided by a network of qualified marine safety instructors.*

These lessons have been written for the layperson and are intended for presentation by a qualified instructor. This information is a compilation of the most current and up-to-date treatment of the subject matter as it pertains to cold environments. It represents a standard approach to the material that will be useful to a broad spectrum of audiences and needs.

This manual was originally developed with support from the Salston-Kennedy Fisheries Development Fund and the Alaska Department of Health and Social Services.

This 9<sup>th</sup> Edition made possible with support from the State of Alaska Department of Commerce, National Institute for Occupational Safety and Health, U.S. Coast Guard and AMSEA members.
