

OCCUPATIONAL HEALTH BRANCH

Occupational Health Watch: November 2017

New Website Offers More Content

The California Department of Public Health's Occupational Health Branch (OHB) has launched a redesigned website as part of CDPH's web modernization effort.

Please update your bookmarks to our new home page at www.cdph.ca.gov/OHB. If you are sharing our content on your website, please update your links as the new site does not automatically redirect old URLs.

The redesign includes a more user-friendly interface with new ways to find occupational health content. OHB will continue to roll out new content in the coming year. In the meantime, you can watch embedded videos and find updated links to OHB resources.

The following programs now have landing pages with expanded content offerings:

- Fatality Prevention
- Hazard Evaluation
- Lead Poisoning Prevention
- Pesticide Illness Prevention
- Safe Cosmetics
- Asthma Prevention

Email Occupational Health Watch (OHW@cdph.ca.gov) with feedback or change of address.
