Welcome to the June 2012 edition of TIRES e-news, a periodic newsletter brought to you by the health and safety experts of the TIRES Initiative.

New this month

Cowboy Up?

We all love America's cowboys. If you cowboy up - will you be able to make it for the long haul? [Cowboy \(262 KB\)](#).

Take one for the team?

Nah! The whole point of a team is that one person can't and shouldn't do it alone. Whether you are in a team jersey or a company jacket, you are still on a team that should work together to get it done safely and efficiently. [Team \(255 KB\)](#).

Need ideas?

Check out the TIRES idea bank for solutions to common trucking issues. Got solutions? This is a work in progress so send us your ideas. Click for [TIRES Idea Bank](#). Click to send us your solutions at info@KeepTruckingSafe.org.

Follow TIRES

[TIRES blog](#) Share your comments and suggestions. Get the latest scoop!

[Twitter](#) Don't miss a tweet!

[YouTube](#) Don't Jump! Risky vs. safe trailer exit strategies on [YouTube](#). Be sure to watch both Part 1 and Part 2.

Worth repeating

Featuring previously published training materials that are...worth repeating!

Tight Squeeze?

Don't risk it! Stay out of the way when forklifts are working. The 6-foot area around the forklift is a danger zone. Always get the forklift driver's attention before entering it. Post this safety poster to remind other workers of the dangers of a forklift. [Forklift \(690 KB\)](#).

Safety materials en Español

Bienvenido a nuestra edición en español del sitio web TIRES. [Estamos actualmente traduciendo al español todos los folletos y artículos.](#)

[Si tiene que moverlo manualmente — Organize y coloque objetos pesados a una altura de fácil acceso. \(223 KB\)](#)

Training simulation tools

Safer tarping

Explore strategies for [safer tarping](#).

Prevent slips, trips and falls

Slips, trips and falls cause many injuries in the trucking industry. Test your safety knowledge with the [friction simulation tool](#).

Force simulation tool

Does it really matter if you jump or use 3 points-of-contact when you exit the cab or trailer? Find out with our force-simulator. Use it as a training tool. Click [force simulation tool](#).

Upcoming events

TIRES will be at the Washington Trucking Associations' Truck Driving championships on Saturday. Will you be there? Click the link below for details.

[Click here to check out upcoming events in trucking](#). Let us know if you

have a trucking industry related safety or health event that you'd like to add to the page.

Have questions? We're here to help. Email us at info@KeepTruckingSafe.org.

To learn more about the TIRES initiative, or to find more information about injuries in the trucking industry please visit us at, www.KeepTruckingSafe.org.

The Trucking Injury Reduction Emphasis (TIRES) project was developed by the Safety and Health Assessment and Research for Prevention (SHARP) program of Washington's Department of Labor and Industries.

The Trucking Injury Reduction Emphasis (TIRES) project team and the TIRES steering committee are working with the Washington State trucking industry to identify causes for the most frequent injuries to develop effective strategies for preventing them.

The TIRES steering committee is made up of a diverse group of professionals that includes: drivers, safety people from large and small trucking companies, labor and business associations, insurers and a representative from a publicly funded truck driving school.

Funded in part by a grant from CDC NIOSH 5 U60 OH 008487. The contents are solely the responsibility of the authors and do not necessarily represent the official views of CDC/NIOSH.
