**Notice of Missing Digital File from Stacks NIOSH Collection**  
2025-09-24

The resource described in this record is not available to Stacks as a digital file at this time. The resource described:

- may only exist in print format;
- may be behind a paywall and protected by copyright that prevents sharing through a Stacks record; or,
- may no longer exist at all.

The National Institute for Occupational Safety and Health had created in the past a record for this item in their NIOSHTIC-2 database < <https://www2a.cdc.gov/nioshtic-2/default.asp>>. This record was created because federal employees contributed to the creation of the resource, or a NIOSH office felt the content was important to share with researchers interested in occupational safety and health content. Such a record may point to a publisher’s landing page for the resource, without guarantee of access by NIOSHTIC-2 users.

The Stacks NIOSH Collection serves in part an official backup of the NIOSHTIC-2 database records. While Stacks staff has tried to locate files that NIOSH was not able to share, we have not had success in all cases, for the reasons stated. This record serves as an “index record” to make Stacks users aware of the content and point them to the external site where the item is accessible, when applicable. If the item is only available in print, Stacks staff encourages users to make an Inter-Library Loan (ILL) or Document Delivery Services (DDS) request via their local research, academic, or public library.

For CDC employees, such an ILL/DDS request can be made through the CDC Stephen B. Thacker Library, accessible via the CDC intranet. The service is known as **DocExpress**.

If, at a later date, Stacks staff is able to procure a digital version of a resource, we will add it to this record, replacing this notice.

We apologize for any inconvenience. Questions may be emailed to [publishinghd@cdc.gov](mailto:publishinghd@cdc.gov). Use “Missing digital file” in the subject line. Please also include the specific Stacks URL to which you are referring. Thank you.
