Sika Deer Carrying *Babesia* Parasites Closely Related to *B. divergens*, Japan

**Technical Appendix**

Technical Appendix Figure. Map of Japan showing prefectures where *rDNA* genes of *Babesia divergens*-like parasites were detected by PCR in blood samples from sika deer (black areas). Sample identification numbers are listed under prefecture names; numbers in parentheses indicate the number of positive samples/total number tested samples. A list of prefectures where no positive samples were found is shown at the bottom of the figure; the number of animals tested is shown in parentheses.
