Wastewater samples**					
United States ^{††}	Nov 11, 2025	Nov 20, 2025	9	NWSS/Wastewater SCAN ^{§§}	132

Abbreviations: NWSS = National Wastewater Surveillance System; TGS = Traveler Genomic Surveillance.

* The initial detection is the earliest sample collection date. All U.S. TGS detections are included separately with the country of origin for each specimen. Data were current as of February 11, 2026.

[†] Number of days from respiratory specimen or wastewater sample collection to public report.

[§] Repositories include Global Initiative on Sharing All Influenza Data (GISAID) and the National Center for Biotechnology Information (NCBI) GenBank.

[¶] First clinical detection of BA.3.2 in the United States.

** Wastewater detections of SARS-CoV-2 BA.3.2 are only reported for the United States.

^{††} First wastewater detection of BA.3.2 in the United States (Rhode Island).

^{§§} WastewaterSCAN is a partnership among Stanford University, Emory University, and Verily that monitor infectious diseases through municipal wastewater systems.
