HAN Coordinators' Daily Report

September 20, 2001

To All HAN Coordinators:

On behalf of the CDC Health Alert Network Command Center, we again thank each of the HAN Coordinators for your continued assistance.

To ensure that we stay in touch electronically each day, we will continue to inform you of activity at the HAN Command Center approximately every 24 hours.

While there have been no more health alerts/advisories/updates to report, the CDC Health Alert Network Command Center has heard from many State HAN Coordinators. We continue to solicit your feedback, comments, and suggestions for preparedness and communications. If you have initiated your own health alerts/advisories/updates within your state to your local health agencies/jurisdictions and other partners, please share your successes with us. To date, 25 states have shared their stories.

The Command Center can be reached by E-mail at healthalert@cdc.gov or by phone at **770-488-8251**.

CDC's 24/7 Emergency Hotline is **770-488-7100** and access to CDC via the Web can be gained at www.hhs.gov.

Categories of Health Alert messages:

Health Alert- conveys the highest level of importance; warrants immediate action or attention.

Health Advisory- provides important information for a specific incident or situation; may not require immediate action.

Health Update- provides updated information regarding an incident or situation; unlikely to require immediate action.

=====

You have received this message based upon the information contained within our emergency notification data base. If you have a different or additional e-mail or fax address that you would like us to use please notify us as soon as possible by e-mail at healthalert@cdc.gov.
