

CDC and CDC Sponsored Resources on HIV and AIDS

November 2014

Web Sites

CDC

Collaborating to create the expertise, information and tools that people and communities need to protect their health—through health promotion, prevention of disease, injury and disease, and preparedness for new health threats.

www.cdc.gov

CDC Domestic HIV/AIDS

Providing leadership in helping control the HIV/AIDS epidemic by working with community, state, national and international partners in surveillance, research, and prevention and evaluation activities.

www.cdc.gov/hiv

CDC Global HIV/AIDS

Working with Ministries of Health in partner countries to build strong, sustainable programs that respond effectively to the HIV/AIDS epidemic as a key implementing partner for the US President's Emergency Plan for AIDS Relief (PEPFAR).

www.cdc.gov/globalaids

Act Against AIDS

Launched in 2009, this social marketing campaign focuses on raising awareness among all Americans and reducing risk of infection among the hardest hit populations—gay and bisexual men, African Americans, Hispanics/Latinos, and other communities at increased risk.

www.cdc.gov/actagainstaids

CDC National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention

Maximizing public health and safety nationally and internationally through the elimination, prevention, and control of disease, disability, and death caused by HIV/AIDS, viral hepatitis, STDs and TB.

www.cdc.gov/nchhstp

Get Tested

Providing information on HIV testing site locations and services across the United States.

gettested.cdc.gov

CDC Sexually Transmitted Diseases

Providing national leadership, research, policy development, and scientific information to help people live safer, healthier lives by prevention of STDs and their complications.

www.cdc.gov/std

CDC Tuberculosis (TB)

Promoting health and quality of life by preventing, controlling, and eventually eliminating tuberculosis from the United States, and by collaborating with other countries and international partners in controlling global tuberculosis.

www.cdc.gov/tb

CDC Viral Hepatitis

Providing the scientific and programmatic foundation for the prevention and control of viral hepatitis in the US, and assisting the international public health community in these activities.

www.cdc.gov/hepatitis

CDC Adolescent and School Health

Working through schools and other settings central to children and adolescents to help prevent HIV, other STDs, and teen pregnancy, and promote lifelong health.

www.cdc.gov/HealthyYouth

Hotlines and Referral Services

CDC-INFO

CDC's national health information hotline, providing answers to your questions regarding HIV, how to protect yourself, and where to get an HIV test.

1-800-CDC-INFO (232-4636)

1-888-232-6348 TTY

In English, en Español, 8 am to 8 pm EST, Monday through Friday

www.cdc.gov/info

CDC National Prevention Information Network (NPIN)

The United States reference and referral service for information on HIV/AIDS, viral hepatitis, sexually transmitted diseases (STDs), and tuberculosis (TB). NPIN collects and disseminates data and materials to support the work of HIV/AIDS, viral hepatitis, STD, and TB prevention organizations and workers in international, national, state and local settings.

In English, en Español

npin.info@cdc.gov

npin.cdc.gov

AIDSinfo

A service of the US Department of Health and Human Services (HHS), offers access to the latest, federally approved HIV/AIDS medical practice guidelines, HIV treatment and prevention clinical trials, and other research information for health care providers, researchers, people affected by HIV/AIDS, and the general public.

1-800-HIV-0440 (448-0440)

1-888-480-3739 TTY

In English, en Español, 1 pm to 4 pm EST, Monday through Friday

contactus@aidsinfo.nih.gov

aidsinfo.nih.gov

The National HIV Clinicians Consultation Center

nccc.ucsf.edu

Clinicians' Warmline

Providing expert clinical advice on HIV/AIDS management for health care providers, from those with limited access to expert consultation to those with complex antiretroviral resistance dilemmas.

1-800-933-3413

Monday through Friday, 9 am to 8 pm EST

Perinatal HIV Hotline

Provides around-the-clock advice on indications and interpretations of standard and rapid HIV testing in pregnancy as well as consultation on antiretroviral use in pregnancy, labor and deliver, and the postpartum period. The Perinatal HIV Consultation and Referral Service also links HIV-infected pregnant women with appropriate health care.

1-888-448-8765

24 Hours/Day and Voicemail

PEpline

Provides expert guidance in managing healthcare worker exposures to HIV and hepatitis B and C. Callers receive immediate post-exposure prophylaxis recommendations.

1-888-448-4911

9 am to 2 am, seven days a week

PrEpline

Provides expert guidance on considerations of providing PrEP to HIV-uninfected (HIV negative) persons as part of an HIV prevention program

1-855-448-7737

Monday through Friday, 11 am to 6 pm EST
