Do you see any barriers to outreach in this Neighborhood/Town?

☐ Yes ☒ No

What do you see as strengths or opportunities for outreach and services in this Neighborhood/Town?

The businesses are very open and aware of whats going on in the community. Plenty of houses for us to outreach with door hangers, many people from the community outside and on the main st.

Is there anything else you would like to share about the availability of services in this Neighborhood/Town?

there are services close by, right down the street, but not in this exact block group. There is a Methadone clinic/provider a couple of minutes down the road walking. There also is in this block group that provides medical services at low cost and for people with state medical insurance.

Goal**What do you plan on doing in this neighborhood?**

Attempting to make contact with [REDACTED] to see if they will take Naloxone and possibly put out door hangers.

What progress have you made towards this goal?

Successfully made contact with motel owner.

Task**Plan**

Relationship building

Description

Make contact with motel owner/manager to hopefully have them take naloxone for emergencies as well as allow us to place door hangers for guests to be able to order themselves as well.

What is the current status of this task?

Completed

What progress have you made towards this task?

Motel owner gladly accepted 4 boxes (8 doses) of naloxone and 16 door hangers to distribute to her tenants.

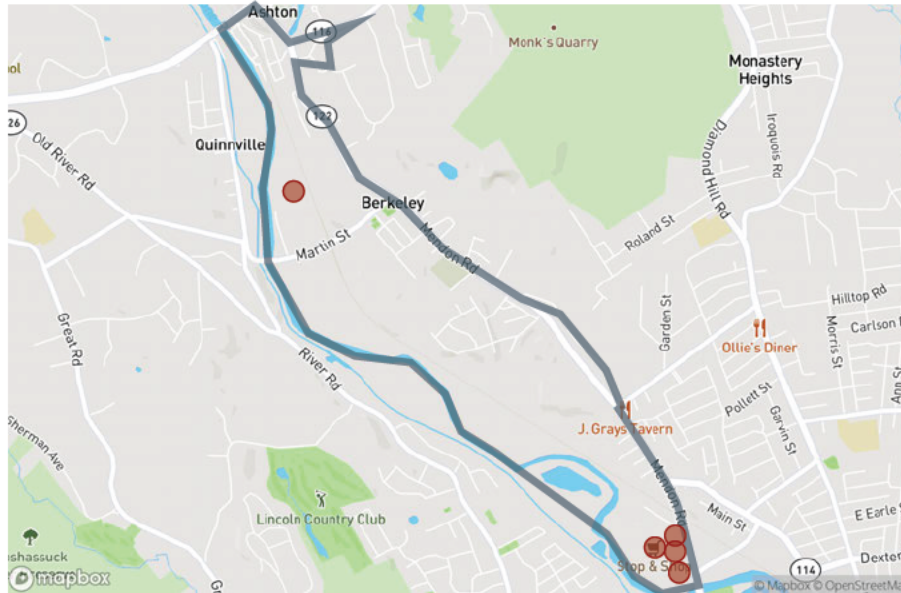

What were your outcomes?

Great outcomes! We not only made contact and networked with the owner of the motel but we also helped one of her tenants as well. The motel now has a good amount of naloxone to possibly save a life one day and is also helping spread the word to her tenants with our door hangers. The additional contact we made with her tenant was them being willing to take 4 boxes (8 doses) themselves as well. They mentioned they know people that use opioids in the motel and took 2 for their car and two for their room.

Goal**What do you plan on doing in this neighborhood?**

- Catalogue all encampment locations and hangouts.
- Create a running list of people who are in need of assistance in these and other locales in Cumberland. Build and maintain relationships with these folks.
- Keep an ongoing relationship with the Cumberland Town Hall (maintain contact and help when needed. Keep this up until new Outreach addition to town hall is built, and then continue).
- Distribute Narcan to local businesses.

Plan

Increasing an existing service

Plan Description

(Optional)

Codify all known info as well as information we are already privy to. Create sheets for easy access to people and places. This will be done by going into the community and engaging with the population as well as computer (map and other wise) research.
