

Supplemental Figure 1. Percentage of Pregnancies with Any Documented MOUD According to Year of Pregnancy Outcome and MOUD

Type – Seven Clinical Sites, MATernaL and Infant clinical Network (MAT-LINK)¹

¹Two-sided p values were calculated with the Cochran-Armitage Trend Test

Supplemental Figure 2. Number of Days Between First Documented MOUD During Pregnancy and Prenatal Care Initiation ($N=3,202$) – Seven Clinical Sites, MATernaL and Infant clinical Network (MAT-LINK)¹

“Number of Days Between First Documented MOUD during Pregnancy and Prenatal Care Initiation” was calculated as date of first MOUD documented during pregnancy minus the date of prenatal care initiation.

¹ Only includes pregnancies where both the date of prenatal care initiation and the date of first MOUD were provided.
