Daily Body Symptoms and Temperature Check

Week #1

Date you arrived in United States:

____ / ____ / ____

Use this log for 21 days to record your temperature and any symptoms listed on the Symptom Card. Do this each morning and night.

If you do not have any symptoms, write "none."

You will need to report what you record on this log to a public health worker each day for 21 days.

If your temperature is 100.4°F/38°C or above **OR** you have any other Ebola symptoms:

- Do what your public health worker told you to do if you get sick.
- If you are not able to speak with someone right away, call:
 - » Your state or local health department (use the list in your CARE Kit),
 - » CDC (1-800-232-4636), or
 - » **911 if it is a medical emergency** and let them know you are in the CDC Ebola CARE Program.
- Do not go out in public until you talk to a public health worker.
