How the CDC is Cultivating Bloggers for its Public Awareness Campaign About Flu

CDC.gov, Interactive Media & CDC-INFO

Social Media for Health Marketing

Our Mission

CDC Mission:

...to promote health and quality of life by preventing and controlling disease, injury and disability

eHealth and CDC 2.0 Goal:

...to make CDC content, tools and services available when, where and how users want them

Why Social Media

CDC should be **must be** where people are

- Increases the dissemination and potential impact of CDC's science
- Leverages unique characteristics of emerging channels
- Reaches diverse audiences
- Allows for tailored health messages
- Facilitates interactive communication and community
- Empowers people to make healthier and safer decisions

CDC 2.0 eHealth Efforts

Engaging Users on CDC.gov:

- Bookmark/Share
- Widgets
- eCards
- Viral Video
- Blogs
- Podcasts
- eMail Updates

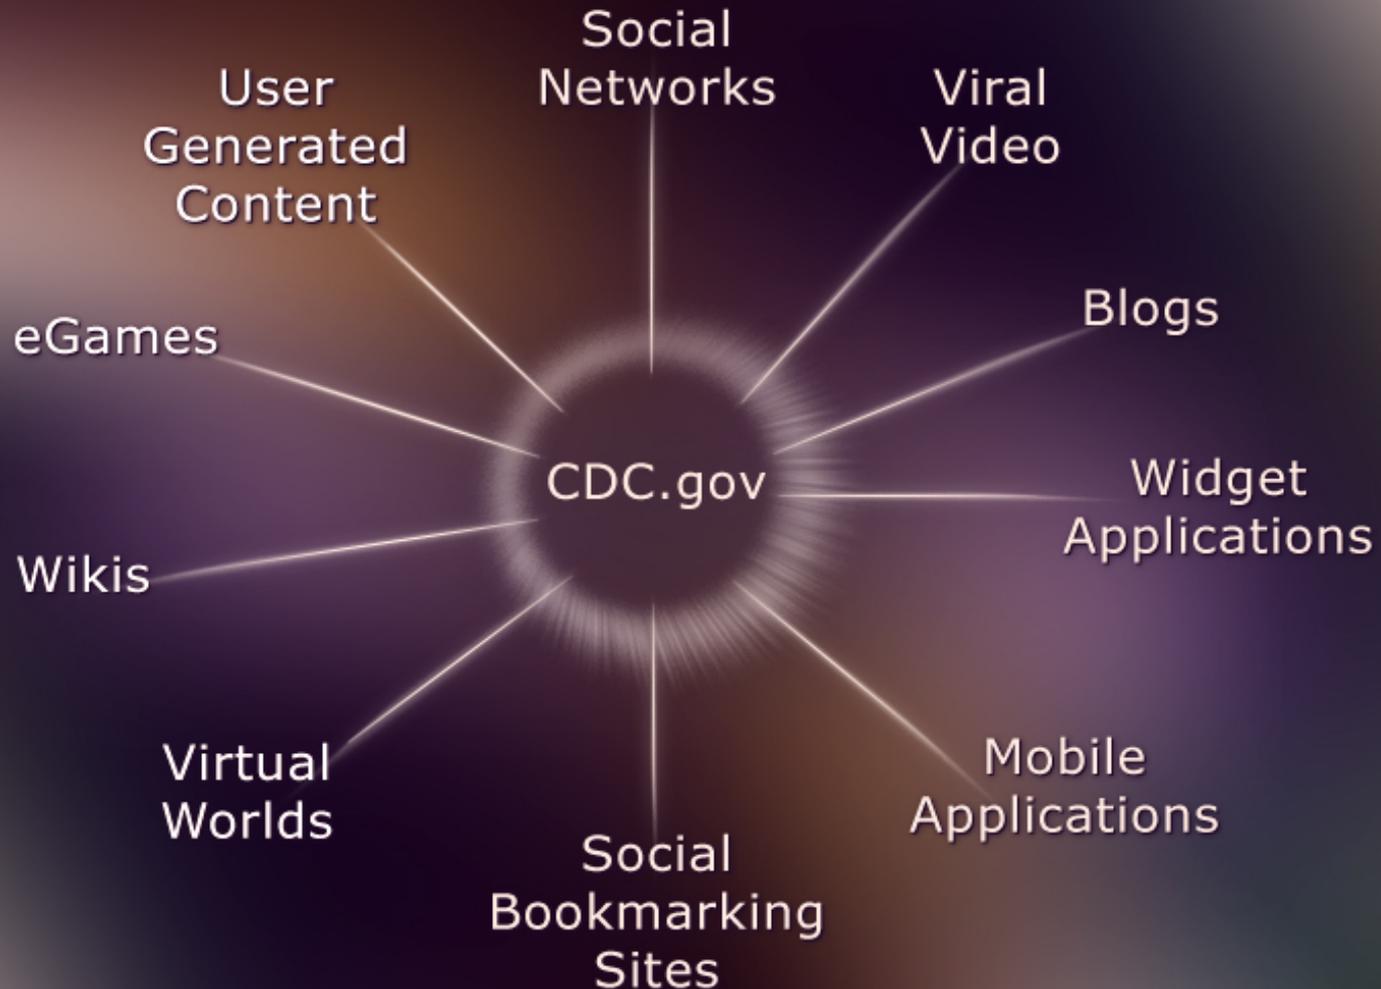

Meeting Users Where They Are:

- Widgets
- Viral Video
- Virtual Worlds
- Social Networks
- Mobile Applications
- Photo-Sharing Sites
- User-Generated Content
- Content Syndication
- Text Messages
- Bloginars

Webinar for Bloggers

On February 3rd, 35 blog writers spoke with FDA and CDC subject matter experts about the *Salmonella* Typhimurium outbreak and peanut-containing products recall efforts, including current and future resources for bloggers during food safety incidents.

Bloggers were provided with Web graphics to share with their readers.

Metrics: 35 bloggers attended the webinar; 8 posts written by blog writers resulting in 1000+ views

Rema Venu at 9:36pm May 2
Need to add a message about when/how to dispose of the used tissues.

AC Carlisle at 2:58pm May 3
These pictures show sneezing into a tissue in your hands. We all know to do that if we have a tissue. Sneezing into your elbow when you don't have one is NEW advice. There should be a button for that.

Yixing Chen at 1:49am May 4
There isn't a button but I wonder if iPhones will have an app for that.

Susan Hay Hales at 2:35pm May 4
I agree -- I have taught my 5-yaer-old to sneeze into her elbow, not her hand!
