

ARE YOU READY FOR PrEP?

PrEP Access

How Can I Start PrEP?

Talk with your doctor or health care provider to determine if PrEP is right for you

If you and your health care provider agree that PrEP might reduce your risk of getting HIV, he or she will conduct a general physical and test you for HIV and other sexually transmitted diseases

Your health care provider will also do tests to see if your kidneys and liver are working well

If PrEP is a good option for you, your health care provider will give you a **prescription**

How Do I Pay for PrEP?

PrEP is covered by most insurance programs

If you do not have insurance, your health care provider can direct you to medication assistance programs that may help pay for PrEP

You can also contact your local health department and HIV/AIDS service organizations for more information
