

# Preventing Ebola by Screening Travelers

## West Africa

### EXIT screening

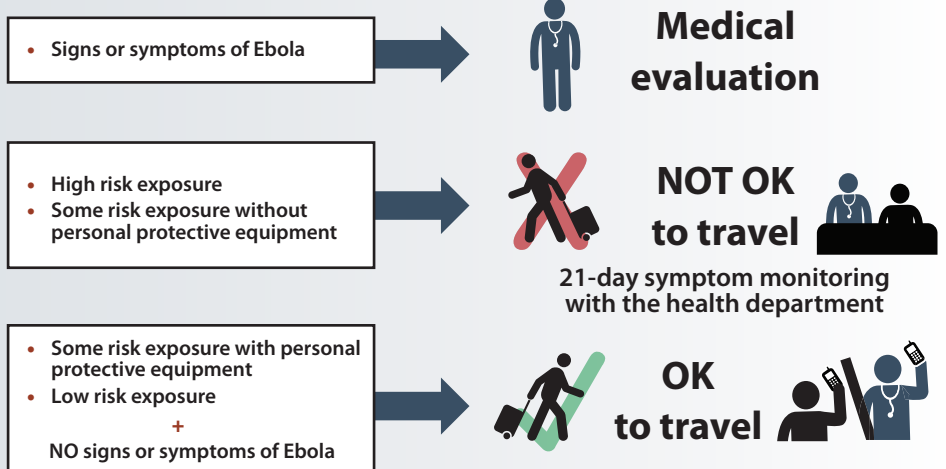

All travelers leaving Guinea, Liberia, and Sierra Leone will be screened before getting on their flight.

## United States

### ENTRY screening

Travelers coming to the US from Guinea will be screened upon arrival.

21-day symptom monitoring with the health department

Travelers from Sierra Leone, Liberia, or Guinea watch themselves for symptoms for 21 days and call the health department if they get sick.

More information about screening and monitoring travelers can be found at: [www.cdc.gov/vhf/ebola/travelers/ebola-screening-factsheet.html](http://www.cdc.gov/vhf/ebola/travelers/ebola-screening-factsheet.html).

Definitions of high, some, and low risk exposure can be found at: <http://www.cdc.gov/vhf/ebola/exposure/risk-factors-when-evaluating-person-for-exposure.html>.
