

Appendix A

Code	Description
781.0	Abnormal involuntary movements
781.1	Disturbances of sensation of smell and taste
781.2	Abnormality of gait
781.3	Lack of coordination
781.4	Transient paralysis of limb
781.8	Neurologic neglect syndrome
800.0	Fracture of vault of skull- Closed without mention of intracranial injury
801	Fracture of base of skull- closed without mention of intracranial injury
803	Other and unqualified skull fractures- closed without mention of intracranial injury
804.1	Multiple fractures involving skull or face with other bones- closed with cerebral laceration and contusion
804.2	Multiple fractures involving skull or face with other bones- closed with subarachnoid, subdural, and extradural hemorrhage
804.3	Multiple fractures involving skull or face with other bones- closed with other and unspecified intracranial hemorrhage
804.4	Multiple fractures involving skull or face with other bones- closed with intracranial injury of other and unspecified nature
804.6	Multiple fractures involving skull or face with other bones- Open with cerebral laceration and contusion
804.7	Multiple fractures involving skull or face with other bones- open with subarachnoid, subdural, and extradural hemorrhage
804.8	Multiple fractures involving skull or face with other bones- open with other and unspecified intracranial hemorrhage
804.9	Multiple fractures involving skull or face with other bones- open with intracranial injury of other and unspecified nature
850	Concussion
851	Cerebral laceration and contusion- cortex (cerebral) contusion without mention of open intracranial wound
852.0	Subarachnoid, subdural, and extradural hemorrhage, following injury- Subarachnoid hemorrhage following injury without mention of open intracranial wound
852.1	Subarachnoid, subdural, and extradural hemorrhage, following injury- Subarachnoid hemorrhage following injury with open intracranial wound
852.2	Subarachnoid, subdural, and extradural hemorrhage, following injury- Subdural hemorrhage following injury without mention of open intracranial wound
852.3	Subarachnoid, subdural, and extradural hemorrhage, following injury- Subdural hemorrhage following injury with open intracranial wound
852.4	Subarachnoid, subdural, and extradural hemorrhage, following injury- Extradural hemorrhage following injury without mention of open intracranial wound
852.5	Subarachnoid, subdural, and extradural hemorrhage, following injury- extradural hemorrhage following injury with open intracranial wound
853.0	Other and unspecified intracranial hemorrhage following injury- without mention of open intracranial wound

853.1	Other and unspecified intracranial hemorrhage following injury- with open intracranial wound
854.0	Intracranial injury of other and unspecified nature- without mention of open intracranial wound
854.1	Intracranial injury of other and unspecified nature- with open intracranial wound
925.1	Crushing injury of face and scalp
950.0	Optic nerve injury
950.1	Injury to optic chiasm
950.2	Injury to optic pathways
950.3	Injury to visual cortex
959.01	Head injury, unspecified
995.50	Head injury, unspecified
995.54	Child physical abuse
995.55	Shaken baby syndrome
995.59	Other child abuse and neglect
E960.0	Unarmed fight or brawl
E967	Perpetrator of child and adult abuse
E968.1	Pushing from a high place
E968.2	Striking by blunt or thrown object
E968.8	Other specified means
E968.9	Unspecified means
E987	Falling from high place, undetermined whether accidentally or purposely inflicted
E988.8	Injury by other and unspecified means, undetermined whether accidentally or purposely inflicted- other specified means
E988.9	Injury by other and unspecified means, undetermined whether accidentally or purposely inflicted- unspecified means
