- Learn more about the National Influenza Vaccination Disparities Partnership (NIVDP) by visiting the CDC's flu partner web page at <http://www.cdc.gov/flu/partners>
- For more information, please contact: fluinbox@cdc.gov

MATTE ARTICLES AND FACT SHEETS

Download fact sheets which explain what the flu is, who should get a flu vaccine and why, and how individuals can take preventive actions to protect themselves, their families and their communities.

What You Need to Know

1 Why get vaccinated?

Influenza ("flu") is a contagious disease that spreads around the United States every winter, usually between October and May.

viruses, and is spread mainly through close contact. The risk of getting flu is higher if you come in contact with someone who has the flu.

SIGNS AND SYMPTOMS OF THE FLU

- People sick with influenza feel some or all of these symptoms:
- Fever* or feeling feverish/chills
 - Cough
 - Sore throat
 - Runny or stuffy nose
 - Muscle or body aches
 - Headaches
 - Fatigue (very tired)
- *Some people may have vomiting and diarrhea, though this is more common in children.
