

PUBLIC SERVICE ANNOUNCEMENT

Preventing Chain Saw Injuries After a Disaster

This podcast is presented by the Centers for Disease Control and Prevention. CDC – safer, healthier people.

This is an important message from the U.S. Department of Health and Human Services.

If you must use a chain saw, follow the instructions to be safe. Wear a hard hat, safety glasses, ear plugs, thick work gloves, chaps, and boots. Always hold the saw at waist level or below, and make sure that others remain far away. If you are cut, put direct pressure on the wound to stop bleeding and get medical help as soon as possible. To learn more, call the CDC at 800-CDC-INFO.
