

FY2016

**Centers for Disease Control and Prevention
Fiscal Year 2016 Grants Summary Profile Report for**

Micronesia (Federated States Of Micronesia)

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in Micronesia (Federated States Of Micronesia). Refer to the "About the Data" section below for important qualifying statements about the data.

2016 Population Estimate: 104,719

Timeframe: 10/01/15 - 09/30/16

CATEGORY	OBLIGATED AMOUNT	PERCENTAGE
Birth Defects, Developmental Disabilities, Disability and Health	\$91,540	2.1%
CDC-Wide Activities and Program Support	\$311,788	7.3%
Chronic Disease Prevention and Health Promotion	\$925,786	21.5%
Emerging and Zoonotic Infectious Diseases	\$165,683	3.9%
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$811,675	18.9%
Immunization and Respiratory Diseases	\$1,309,739	30.5%
Injury Prevention and Control	\$386	0.0%
Public Health Preparedness and Response	\$661,975	15.4%
Public Health Scientific Services (PHSS)	\$19,220	0.4%
Grand Total	\$4,297,792	100.0%

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Birth Defects, Developmental Disabilities, Disability and Health	\$91,540
Health and Development with Disabilities	\$91,540
CDC-Wide Activities and Program Support	\$311,788
Ebola Response and Preparedness	\$212,303
Preventive Health and Health Services Block Grant - PPHF	\$99,485
Chronic Disease Prevention and Health Promotion	\$925,786
Cancer Prevention and Control	\$511,015
Diabetes	\$192,858
Safe Motherhood/Infant Health	\$20,000
Tobacco	\$201,913
Emerging and Zoonotic Infectious Diseases	\$165,683
Emerging Infectious Diseases	\$15,626
Epi and Lab Capacity Program - PPHF	\$150,057

FY2016

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$811,675
Domestic HIV/AIDS Prevention and Research	\$254,028
Sexually Transmitted Infections (STIs)	\$56,571
Tuberculosis (TB)	\$501,076
Immunization and Respiratory Diseases	\$1,309,739
Immunization Program	\$1,073,088
Immunization Program - PPHF	\$194,651
Influenza/Influenza Planning and Response	\$42,000
Injury Prevention and Control	\$386
Injury Prevention Activities	\$386
Public Health Preparedness and Response	\$661,975
Immediate Zika Virus Response - OPHPR	\$252,080
Public Health Emergency Preparedness Cooperative Agreement	\$409,895
Public Health Scientific Services (PHSS)	\$19,220
Surveillance, Epidemiology, and PH Informatics	\$19,220
Grand Total	\$4,297,792

About the Data

Data Included

- The grants and cooperative agreements data in this report include actions awarded (i.e., obligated funds) domestically in fiscal year 2016 (FY16; 10/1/15 to 9/30/16) from CDC’s annual appropriation.
- Because the data includes funds obligated in FY16, it may include funding authorized through legislation passed in previous years, but only the amount actually obligated in FY16.
- The funding data is categorized by CDC budget line (i.e., by which CDC appropriation account was used to make the investment), as shown in the FY16 CDC Operating Plan at <https://www.cdc.gov/budget/fy2016/operating-plans.html>.

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The value of vaccines purchased and provided to states, cities, and territories by CDC through the Vaccines for Children Program are excluded. Information on the value of vaccine purchases by jurisdiction is available in a separate report each year on the CDC Grant Funding Profiles site at <https://www.cdc.gov/FundingProfiles/>, starting with FY14.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (e.g., fund transfers to CDC from DHHS, including the HHS Public Health and Social Services Emergency Fund and the Hospital Preparedness Program), Gifts and Donations, Global Health funds, and Buildings and Facilities funds.

Therefore, this data does not reflect CDC’s total appropriations in any given area.

Data Sources

- Funding Data - CDC Office of Financial Resources (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines For Children data)
- United States, the District of Columbia, and Puerto Rico - the 2010 U.S. Census, updated with 2016 estimates at <https://www.census.gov/programs-surveys/popest.html>
- For all other geographies - 2016 estimates for population are from *The World Factbook* at <https://www.cia.gov/library/publications/resources/the-world-factbook/index.html>

FY2016

Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to grantees within states and territories by CDC budget line. However, caution should be used in interpreting variations across years or jurisdictions. Several of the reasons for variations are (1) the amounts, purpose, and focus of funding provided by Congress each year can vary, and (2) changes in national and/or CDC/ATSDR priorities and strategies due to factors such as urgent and emerging health threats and changes in population health status and needs. In terms of funding opportunities, (1) not all eligible entities apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all eligible entities that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:
 - o CDC has many different grant types with differing application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
 - o Awards made to an entity will typically reflect the geographic location of the entity’s official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
 - o CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association’s main office.
 - o In addition, there may be variation across years for where a program/activity resides in CDC’s organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. In addition, funding categories may be added or deleted as CDC’s budget changes year to year (e.g., funding categories are deleted because their shorter-term funding sources expire). This makes 1:1 comparisons of one year’s set of projects to another year’s set of projects under each category or sub-category a challenge.
