About the Data

Data Included

- The grants and cooperative agreements data in this report include actions awarded (i.e., obligated funds) domestically in fiscal year 2015 (FY15; 10/1/14 to 9/30/15) from CDC's annual appropriation, which now integrates appropriations through the Prevention and Public Health Fund (PPHF) and for FY15, includes funding for Ebola Response and Preparedness.
- Because the data includes funds obligated in FY15, it may include funding authorized through legislation passed in previous years, but only the amount actually obligated in FY15.
- The funding data is categorized by CDC budget line (i.e., by which CDC appropriation account was used to make the investment), as shown in the FY15 CDC Operating Plan at <http://www.cdc.gov/budget/documents/fy2015/fy-2015-cdc-operating-plan.pdf>.

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The value of vaccines purchased and provided to states, cities, and territories by CDC through the Vaccines for Children Program are excluded. Information on the value of vaccine purchases by jurisdiction is available in a separate report available at <http://www.cdc.gov/fundingprofiles/>, starting with FY14.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (fund transfers to CDC from DHHS, including the HHS Public Health and Social Services Emergency Fund), PEPFAR (President's Emergency Plan for AIDS Relief), Gifts and Donations, Global Health funds, Business Services Support funds and Buildings and Facilities funds.
Therefore, this data does not reflect CDC's total appropriations in any given area.
