Abbreviations: NR = not reported (if <50 respondents), CI = confidence interval

* Current cigarette smoking was defined as self-reported smoking 100 or more cigarettes in a lifetime and currently smoking cigarettes every day or some days at the time of the interview

[†] Percentages and their associated confidence intervals are weighted to adjust for complex survey design and non response

[§] White = non-Hispanic white; Black = non-Hispanic black; Other = non-Hispanic other

[¶] Defined as having any kind of health care coverage, including prepaid plans such as health maintenance organizations, government plans such as Medicare, or Indian Health Service (IHS)

** Represents 50-59 respondents; might not be reliable
