AR Solutions in Action

FISCAL YEAR

CDC's Investments to Combat Antibiotic Resistance Threats Nationwide

PUERTO RICO \$393,711

Funding for AR Activities Fiscal Year 2017

FUNDING TO STATE HEALTH DEPARTMENTS

RAPID DETECTION & RESPONSE to emerging drug-resistant germs is critical to contain the spread of these infections. With 2016 funding, Puerto Rico's HAI/AR program improved the efficiency of case reporting in 92% of hospitals by assessing needs and providing strategies that strengthened their ability to identify and control HAI/AR threats. An agreement was also reached with 40% of acute care hospitals to participate in "nightmare bacteria" CRE surveillance.

Page 1 of 1 This data represents CDC's largest funding categories for AR. It shows domestic, extramural funding that supports AR activities from multiple funding lines. AR: antibiotic resistance HAI: healthcare-associated infection
