Subject: **Authorization to use image in publication**

Dear Sara,

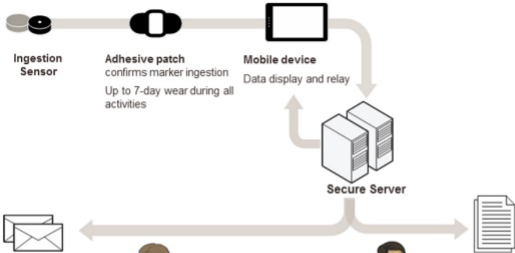

This email is in reference to allowing a Proteus image to be used within your manuscript, "Digitizing Medicines for precision remote capture of oral medication adherence," that was submitted to Clinical Pharmacology and Therapeutics. As you know we are fully supportive of the journal publishing Figure 1B, "Overview of the DHFS showing the information flow of ingestion and physiological data associated with DHFS use to both the patient and provider (figure courtesy of Proteus Digital Health, Redwood City, CA)."

We will grant permission to use the image in the final publication and will request the journal sign our, "**MEDIA ASSETS LICENSE & RELEASE**" form prior to publication.

Kind Regards,

Naunihal S. Virdi, MD, MBA, FACP
