Updated Guidance for Yellow Fever Vaccine

To avoid a lapse in yellow fever vaccine availability in the United States, the manufacturer, Sanofi Pasteur, has received approval from FDA to import Stamaril yellow fever vaccine. Stamaril is produced by Sanofi Pasteur in France and has comparable safety and efficacy to YF-Vax. See the MMWR [Addressing a Yellow Fever Vaccine Shortage – United States, 2016–2017](#) for further information for providers regarding yellow fever vaccine.

ACIP Meeting Information

The ACIP holds three meetings each year at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia to review scientific data and vote on vaccine recommendations. Meetings are open to the public and available online via live webcast. During committee meetings, members present findings and discuss vaccine research and scientific data related to vaccine effectiveness and safety, clinical trial results, and manufacturer's labeling or package insert information. Outbreaks of vaccine-preventable disease or changes in vaccine supply also are reviewed during these meetings. Vaccine recommendations include the age(s) when the vaccine should be given, number of doses needed, dosing interval, and precautions and contraindications to administration of vaccines.

Process for Public Comment

- Public comment period is scheduled immediately preceding each ACIP vote and at end of meeting day
- Individuals should limit public comments to 3 minutes in total
- Registration for public comments is solicited in advance of the meeting
- Comments not presented at meeting may be submitted for inclusion in the minutes

Disclosure of Conflicts of Interest

- Members of the ACIP agree to forgo participation in certain activities related to vaccines during their tenure on the committee. CDC has issued limited conflict of interest waivers as follows:
 - Members who conduct vaccine clinical trials or serve on data safety monitoring boards are prohibited from participating in committee votes related to those vaccines.
 - Regarding other vaccines of the concerned company, a member may participate in discussions, with the provision that he/she abstains on all votes related to the vaccines of that company.
- At the beginning of each meeting, ACIP members state any conflicts of interest.

ACIP Recommendations Published Since February 2017

Title	Publication Date	MMWR Reference
Updated Recommendations for Use of MenB-FHbp Serogroup B Meningococcal Vaccine — Advisory Committee on Immunization Practices	May 19, 2017	MMWR. 2017;66(19);509-13
Recommendations of the Advisory Committee on Immunization Practices for Use of Cholera Vaccine —	May 12, 2017	MMWR. 2017;66(18);482-5
