Steve Waterman, DVBD

ACIP liaisons

Elizabeth Barnett, AAP

Robert Schechter, AIM

Ex Officio

Mark Challberg, NIH

Eric Deussing, DoD

Doran Fink, FDA

Mike Holbrook, NIH

Lewis Markoff, FDA

Pat Repik, NIH

Jeff Roberts, FDA

Technical advisors

Edwin Asturias, Univ Colorado

Alan Barrett, Univ Texas Galveston

Joseph Bocchini, Louisiana State Univ

Lin Chen, Mount Auburn Hosp

Myron Levin, Univ Colorado

Tony Marfin, PATH

Hal Margolis, Public health consultant

Cody Meissner, Tufts Univ

Lorry Rubin, North Shore Univ Hosp

David Shlim, ISTM

Mary Wilson, Harvard Univ

Yellow fever vaccine shortage background

- Intermittent production issues resulted in temporary supply shortages of yellow fever vaccine (YF-VAX) in U.S.
- Starting in November 2015, ordering restrictions in place for YF-VAX due to supply shortages
- ACIP briefed about YF-VAX[®] production and contingency plans to address supply shortages during October and February meetings

Yellow fever vaccines presentations for ACIP

- Update on IND protocol implementation and vaccine distribution
Dr. David Greenberg (Sanofi Pasteur)
- Review of current ACIP recommendations and protocol criteria
Dr. J. Erin Staples (CDC)
