Dear Professor ter Kuile,

**Research Protocol (14-034) Malaria chemoprevention with monthly treatment with dihydroartemisinin-piperaquine for the post-discharge management of severe anaemia in children aged less than 5 years in Uganda and Kenya: a 3-year, multi-centre, parallel-group, two-arm, randomized placebo controlled trial (PMC study)**

| Protocol Number | Date             | Date Received    |
|-----------------|------------------|------------------|
| v4.0            | 06 February 2018 | 07 February 2018 |

Thank you for your correspondence of 7 February 2018 providing the LSTM Research Ethics Committee and LSTM Research Governance Manager with details of an amendment to protocol.

This amendment has now been reviewed, noted and accepted on the behalf of the Committee and the LSTM, as study Sponsor. Please continue to adhere to the conditions of approval and to update us of any further changes to the study that may arise.

Please continue to adhere to the original conditions of approval following notification of study conclusion with specific regard to confidentiality and data management.

Yours sincerely,
