

# Novel Influenza Vaccines Work Group

# Rationale

- Two FDA-licensed H5N1 vaccines
  - Need for recommendations for use during non-pandemic period
  - Need to review evidence for use in certain high-risk groups
- ACIP was seen as the most appropriate body to develop recommendations for these vaccines
- Seasonal influenza work group focuses on seasonal influenza vaccines (full plate)

# Status of Work Group

- Work group formed
- First call completed
- Meet every two weeks initially then monthly as needed
- Anticipate reporting in October 2014 with possible vote in February 2015
- Future of work group to be determined after initial task completed

# Work Group
