

Annual Influenza Recommendations

Lisa Grohskopf

**Advisory Committee on Immunization Practices
February 26, 2014**

Annual Influenza Vaccination Recommendation

- ❑ **No changes to the recommendations or groups recommended for annual influenza vaccination are proposed at this time.**
- ❑ **Annual influenza vaccination is recommended for all persons aged 6 months and older.**
- ❑ **Any proposed changes to be discussed at the June, 2014 ACIP meeting.**
- ❑ **No new influenza vaccine products are licensed as of this time.**
 - Currently licensed vaccines are summarized in the draft Table.
 - Any new licensures will be discussed next meeting.

Vaccine Strain Selection for 2014-15

- ❑ **WHO recommends the same composition for the Northern Hemisphere 2014-15 influenza vaccines as for 2013-14:**
 - an A/California/7/2009 (H1N1)pdm09-like virus;
 - an A/Texas/50/2012 (H3N2)-like virus;
 - a B/Massachusetts/2/2012-like virus.
 - for quadrivalent vaccines, these viruses and a B/Brisbane/60/2008-like virus

- ❑ **FDA Vaccine and Related Biologic Products Advisory Committee (VRBPAC) to make a final decision regarding U.S. vaccine composition.**
