

PUBLIC HEALTH REPORTS.

UNITED STATES.

Relative to the transfer of the quarantine system of Cuba to the new Government of that island.

WASHINGTON, D. C., *April 16, 1902.*

SIR: I have the honor to transmit herewith a letter received from the Surgeon-General of the U. S. Marine-Hospital Service relative to the transfer of the quarantine system of the island of Cuba to the new Government of that island and narrating in detail the measures which will be necessary at the ports of Havana, Matanzas, Nuevitas, Santiago and Cienfuegos, to insure the protection of ports in the United States from the introduction of yellow fever from said ports in Cuba. This is to be effected by the detail of medical officers of the U. S. Marine-Hospital Service in the offices of the United States consuls at the ports named.

I have to request that, both in the preliminary agreements which are now being made in the arrangement of the transfer of the authority of the United States to the island of Cuba and also in the treaty which it is understood will be subsequently entered into between the two Governments, the provisions as outlined in the letter of the Surgeon-General be embodied.

Respectfully,

O. L. SPAULDING,
Acting Secretary.

HON. SECRETARY OF WAR.

TREASURY DEPARTMENT,
OFFICE OF SURGEON-GENERAL, U. S. M. H. S.,
Washington, D. C., April 16, 1902.

SIR: The matter of the transfer of authority of the United States to the new Government of the island of Cuba is one of great moment at the present time with regard to quarantine matters.

Under Executive order, the quarantine stations in the island of Cuba have been conducted through a chief quarantine officer for the whole island, located at Havana, who has had direct control over the officers detailed at the other stations.

There are, at present, 5 fully equipped quarantine stations, namely, Havana, Matanzas, Nuevitas, Santiago and Cienfuegos. At each of these stations, there has been supplied a disinfecting barge, fully equipped with the best disinfecting machinery, and, in addition, a good launch or boarding vessel and the necessary offices on shore.

In addition to these 5 regular stations there are 14 inspecting stations in charge of acting assistant surgeons of the U. S. Marine-Hospital

Service, who have been instructed to inspect vessels and, in case of need, to remand the same to a fully equipped station. In addition to the work of inspecting incoming vessels, all of these officers of the U. S. Marine-Hospital Service have also inspected vessels departing for the United States, performing such disinfection thereon as might be necessary and, furthermore, have given to all vessels leaving Cuba bills of health which, in the case of vessels leaving for ports other than those of the United States, have been of a special character, simply narrating thereon the sanitary condition of the port.

The property connected with these quarantine stations has been purchased or paid for from the revenues of the island and is to be transferred to Cuban officers, with the exception of the disinfecting steamer *Sanator*, in Havana harbor, which is the property of the Treasury Department.

After consultation with Governor-General Wood and Surg. A. H. Glennan, U. S. M. H. S., chief quarantine officer of Cuba, who is also upon General Wood's staff, it has been determined that all property of the quarantine stations purchased from the Cuban funds should be transferred to Cuban officers, who have already been designated for the purpose, and that the quarantine functions shall also be transferred to these officers.

While thus the quarantine of incoming vessels at Cuban ports is to be transferred to Cuban officials, it is deemed essential that the inspection and certification of vessels leaving these ports for ports in the United States shall still be under accredited officers of the U. S. Marine-Hospital Service, as provided by the law of 1893, and as was previously done before the Spanish war, and as is customary in European ports, and it is proposed, therefore, to have, under this law of 1893, these officers detailed by order of the President in the respective consular offices.

In the performance of this duty, however, it will be necessary that the disinfecting apparatus belonging to the quarantine stations must be occasionally utilized for assuring the safety of vessels leaving for the United States, and it is necessary that some arrangement should be effected with the Cuban authorities providing for such use.

At the port of Havana it is proposed to maintain the *Sanator*, the property of the Treasury Department, equipped and ready for use for the disinfection of vessels for the United States and as there is no other disinfecting apparatus to be used by the Cuban authorities in their administration of incoming quarantine, it is suggested that, when desired, such vessels shall be disinfected by the officers of this Service with the use of the *Sanator*, and that a reasonable fee be charged for this protection to the city of Havana and the island of Cuba.

I have, therefore, to suggest that this letter be forwarded to the Secretary of War with the request that, either by preliminary agreement with the island authorities or as a part of the treaty to be entered into between the United States and the Government of Cuba, or in both manners this understanding be had, embracing the arrangements above detailed, namely :

1. That in Havana harbor the U. S. Marine-Hospital Service will disinfect such incoming vessels as may be turned over to them by the quarantine authorities, for which a reasonable fee shall be charged ; and that all vessels leaving for the United States before their bills of health are signed by the Marine-Hospital officer shall be subject to such disinfection as may be required by him, making use therefor of the Service-disinfecting steamer *Sanator*.

2. That, at the four remaining ports of the island equipped with disinfecting barges, the use of this apparatus, the property of the island of Cuba, will be made available for use by the officers detailed in the offices of the consulates in such disinfection of vessels bound for the United States as may be necessary; and that these barges, with their disinfecting apparatus, shall be maintained by said Cuban Government in a state of efficiency for use at any time. It will be understood that the cost of disinfectants used in disinfecting vessels bound for the United States is not a charge against the United States Government, but should be borne, either by the Cuban Government or by the vessels themselves.

3. That the U. S. Marine-Hospital officers stationed at the several Cuban ports will, on request, give such assistance in the matter of maritime quarantine as may be desired.

In accordance with this understanding, it is proposed to detail medical officers of the U. S. Marine-Hospital Service in the United States consulates at Havana, Matanzas, Nuevitas, Santiago, and Cienfuegos.

Respectfully,

WALTER WYMAN,
Surgeon-General U. S. M. H. S.

Hon. SECRETARY OF THE TREASURY.

WAR DEPARTMENT,
Washington, D. C., May 14, 1902.

SIR: I have the honor to acknowledge the receipt of your letter of the 16th ultimo, inclosing a communication from the Surgeon-General of the U. S. Marine-Hospital Service and recommending that the provisions suggested by him regarding the U. S. Marine-Hospital Service in Cuba be embodied in the preliminary arrangements pending the inauguration of the new Cuban Government and also in the treaty to be negotiated between the United States and said Government.

These communications were referred to the military governor of Cuba, and a copy of his indorsement returning the same is herewith inclosed.

There are also transmitted herewith copies of a cablegram this day sent to the military governor of Cuba and of a letter to the honorable the Secretary of State forwarding copies of the correspondence mentioned.

Respectfully,

ELIHU ROOT,
Secretary of War.

Hon. SECRETARY OF THE TREASURY.

WAR DEPARTMENT,
Washington, D. C., May 14, 1902.

SIR: I have the honor to transmit herewith a copy of a letter from the honorable the Secretary of the Treasury, dated the 16th ultimo, inclosing the recommendations of the Surgeon-General of the U. S. Marine-Hospital Service relative to the U. S. Marine-Hospital Service in Cuba, and to invite attention to the indorsement of the military governor of Cuba thereon stating that he concurs in said recommendations.

There are also inclosed a copy of a cablegram this day sent to the military governor of Cuba and a copy of a letter to the honorable the Secretary of the Treasury.

Attention is likewise invited to the recommendation of the Secretary of the Treasury that the provisions suggested by the Surgeon-General be embodied in the treaty to be negotiated between the United States and the new Government of Cuba.

Respectfully,

ELIHU ROOT,
Secretary of War.

Hon. SECRETARY OF STATE.

[Copy of first indorsement on letter of the Secretary of Treasury, dated April 16, 1902, forwarding recommendations of Surgeon-General U. S. Marine-Hospital Service of same date.]

[First indorsement.]

HEADQUARTERS DEPARTMENT OF CUBA,
Havana, Cuba, April 28, 1902.

Respectfully forwarded to the Adjutant-General of the Army, Washington, D. C., to Capt. C. R. Edwards, chief of the Division of Insular Affairs, requesting reference to the Hon. Secretary of War.

The within letters were left in my hands by the Hon. Secretary of War, during his recent visit in Havana, and are returned.

I fully concur in the recommendations of the Surgeon-General U. S. Marine-Hospital Service, and urge that they be accepted and put into effect in such manner as the Government of the United States may deem advisable.

LEONARD WOOD,
Military Governor of Cuba.

[Copy of cablegram sent May 14, 1902.]

To WOOD, *Havana*:

Take such steps as may be practicable on the part of the military government to give effect to the recommendations of the Treasury Department relative to the U. S. Marine-Hospital Service in Cuba, pending negotiations of treaty with the new Government.

ROOT,
Secretary of War.

[Copy of telegram received at War Department, May 15, 1902.]

HAVANA, CUBA, *May 15, 1902.*

SECRETARY OF WAR, *Washington, D. C.*

Will do all possible to give effect to the recommendations of the Treasury Department relative to the U. S. Marine-Hospital Service in Cuba.

WOOD,
Military Governor.

[Reports to the Surgeon-General United States Marine-Hospital Service.]

Steamship City of Para at San Francisco from Panama—Yellow fever en route.

[Copy of telegram received at Bureau.]

ANGEL ISLAND, CAL., *May 20, 1902.*

WYMAN, *U. S. Marine-Hospital Service, Washington, D. C.:*

Steamship City of Para arrived from Panama two days. Has had deaths from yellow fever en voyage. Will be disinfected and held.

CUMMING.

Meeting of the Texas State medical association.

GALVESTON, TEX., *May 12, 1902.*

SIR: In accordance with Bureau letter of the 21st ultimo, detailing me to represent the Service at the meeting of the State medical association of Texas at Dallas, May 6 to May 9, and to report on proceedings of interest to the Service. I have the honor to report that I attended said meeting and returned to duty at Galveston on May 10.

I have the honor to state that 2 resolutions of interest to the Service were adopted by the State association.

1. Advocating State control of tuberculosis and appropriating \$200 to publish literature on the subject to be distributed throughout the State. 2. Advocating formation of State board of health in place of State health officer.

I would state in reference to the second resolution that Governor

Sayers of Texas, was present and spoke in favor of a State health board.

Respectfully,

C. E. D. LORD,
Assistant Surgeon, U. S. M. H. S.

Smallpox in the State of Washington.

TACOMA, WASH., May 5, 1902.

SIR: I would respectfully report that there are now 14 cases of smallpox in the city quarantine station. There has been a total of 130 cases in this city from January 1 to May 1, 1902.

At the Western Washington Hospital for Insane, which is located at Steilacom, Pierce County, there have been 60 cases.

I notice by the last PUBLIC HEALTH REPORTS that there is no report from Seattle, Wash., later than December 31, 1901. Would say that Health Officer Carroll's reports show in January, 108 cases; February, 102 cases; March, 93 cases; April, 30 cases, or a total of 333 cases for the four months.

The principal source of infection is from the mining camps; also logging camps. The cities could soon stamp the disease out if it was not for the source of infection.

Respectfully,

F. J. SCHUG,
Acting Assistant Surgeon, U. S. M. H. S.

Inspection service at Eastport, Me.

EASTPORT, ME., May 15, 1902.

Statistical reports of States and cities of the United States—Yearly and monthly.

CALIFORNIA—Oakland.—Month of April, 1902. Estimated population, 75,000. Total number of deaths, 84, including diphtheria, 2; enteric fever, 2; measles, 1, and 11 from phthisis pulmonalis.

CONNECTICUT.—Reports to the State board of health for the month of April, 1902, from 166 towns having an aggregate census population of 906,795, show a total of 1,191 deaths, including diphtheria, 15; enteric fever, 14; measles, 4; scarlet fever, 23; whooping cough, 8, and 126 from phthisis pulmonalis.

ILLINOIS—Peoria.—Month of April, 1902. Census population, 56,100. Total number of deaths, 52, including diphtheria, 1, and 6 from tuberculosis.

IOWA—Davenport.—Month of April, 1902. Census population, 35,254. Total number of deaths, 35, including enteric fever, 1, and 5 from phthisis pulmonalis.

Dubuque.—Month of March, 1902. Census population, 36,297. Total number of deaths, 45, including enteric fever, 1; smallpox, 1, and 7 from tuberculosis.

MARYLAND—Baltimore.—Month of April, 1902. Estimated population, 525,000—white, 445,000; colored, 80,000. Total number of deaths, 839—white, 614; colored, 225—including diphtheria, 8; enteric fever, 13; measles, 3; whooping cough, 11; smallpox, 2, and 122 from tuberculosis.

Cumberland.—Month of April, 1902. Estimated population, 17,128. Total number of deaths, 24, including enteric fever, 1; smallpox, 1, and 6 from tuberculosis.

MICHIGAN.—Reports to the State board of health, Lansing, for the week ended May 10, 1902, from 89 observers, indicate that whooping cough and meningitis were more prevalent and bronchitis, pleuritis, scarlet fever, phthisis pulmonalis, intermittent fever, erysipelas, remittent fever, and dysentery were less prevalent than in the preceding week. Meningitis was reported present at 9, whooping cough at 15, diphtheria at 30, enteric fever at 38, measles at 82, scarlet fever at 87, smallpox at 100, and phthisis pulmonalis at 228 places.

The Monthly Bulletin of Vital Statistics says:

According to returns to the department of State, there were 2,850 deaths in Michigan during the month of April, 1902, a decrease of 109 from the preceding month. The death rate, however, 14.1 per 1,000 estimated population, was the same as that for March. There were 492 deaths of infants under 1 year of age, 219 deaths of children aged 1 to 4 years, inclusive, and 865 deaths of persons aged 65 years and over. Important causes of deaths were as follows: Pulmonary tuberculosis, 206; other forms of tuberculosis, 37; typhoid fever, 37; diphtheria and croup, 31; scarlet fever, 30; measles, 35; whooping cough, 25; pneumonia, 354; influenza, 45; cancer, 134; accidents and violence, 153. There were 5 deaths from smallpox during the month in the following localities: Benton Township, Cheboygan County; Belding

City, Ionia County; Fairplain Township, Montcalm County; Croton Township, Newaygo County, and Buena Vista Township, Saginaw County. One death from mumps occurred in Muskegon County, and 2 deaths from lightning were reported during the month, 1 from Flint Township, Genesee County, and 1 from Union Township, Isabella County.

NEW HAMPSHIRE—*Franklin*.—Month of April, 1902. Census population, 5,843. Total number of deaths, 10, including 1 from tuberculosis.

Manchester.—Month of April, 1902. Census population, 56,987. Total number of deaths, 86, including diphtheria, 3; enteric fever, 1, and 8 from phthisis pulmonalis.

NEW JERSEY—*Passaic*.—Two weeks ended May 10, 1902. Census population, 27,777. Total number of deaths, 19, including diphtheria, 1; measles, 2; scarlet fever, 2, and 2 from tuberculosis.

NEW YORK—*Buffalo*.—Month of April, 1902. Census population, 352,387. Total number of deaths, 436, including diphtheria, 9; enteric fever, 8; measles, 11; whooping cough, 2; smallpox, 1, and 38 from tuberculosis.

OHIO—*Zanesville*.—Month of April, 1902. Estimated population, 28,000. Total number of deaths, 26, including diphtheria, 4; enteric fever, 2, and 3 from tuberculosis.

PENNSYLVANIA—*Scranton*.—Month of April, 1902. Estimated population, 102,026. Total number of deaths, 160, including diphtheria, 2; enteric fever, 1, and 12 from tuberculosis.

York.—Month of April, 1902. Estimated population, 37,000. Total number of deaths, 32, including enteric fever, 1; smallpox, 1, and 3 from tuberculosis.

TEXAS—*San Antonio*.—Month of April, 1902. Estimated population, 63,000. Total number of deaths, 131, including enteric fever, 3, and 38 from tuberculosis, of which 16 were of nonresidents.

UTAH—*Ogden*.—Month of April, 1902. Estimated population, 20,000. Total number of deaths, 21, including diphtheria, 1; scarlet fever, 3, and 2 from tuberculosis.

Smallpox in the United States as reported to the Surgeon-General United States Marine-Hospital Service, December 28, 1901, to May 23, 1902.

[For reports received from June 29, 1901, to December 27, 1901, see PUBLIC HEALTH REPORTS for December 27, 1901.]

FOREIGN AND INSULAR.

BRAZIL.

Report of plague at Pernambuco.

PERNAMBUCO, BRAZIL, *April 19, 1902.*

SIR: I beg to inform the Department of the appearance in this city of sporadic cases of what has been declared by the medical faculty here bubonic plague. The disease has not assumed an epidemic form, the cases occurring being isolated from each other. During the month of March, 11 deaths and many cases occurred which the doctors diagnosed as pernicious lymphatitis, but on March 29 a Dr. Albuquerque Salles died in the Portuguese hospital of what the officiating doctor claimed to be bubonic pest. Since then there have been daily cases, some declared to be bubonic plague and some "suspected," with a few deaths.

The plague is supposed by one doctor to have been introduced here by the Austrian steamship *Gundulic*, which came to this port from Trieste November 5, last year, and after leaving Pernambuco 1 of the crew died of bubonic pest and was buried at Bahia. Another member of the crew fell sick of the same disease during the voyage from Bahia to Rio de Janeiro, and was sent to the quarantine station at Ilha Grande, with what result I have not learned.

* * * * *

The Government has bought a large building to send suspected cases to. Those that have died of pest are sent to the Pina Island for burial.

The following is as complete a list of deaths from bubonic pest as I have been able to obtain from the beginning of the outbreak up to yesterday. The official report has not yet been published:

March 29, 1; March 30, 2; March 31, 1; April 1, 2; April 2, 3; April 3, 3; April 4, 6; April 5, 2; April 6, 2; April 7, 3; April 8, 3; April 9, 3; April 10, 2; April 11 (suspected), 1; April 12 (2 suspected), 4; April 13, 1; April 14, 1; April 15, 4; April 16, —; April 17, 5; April 18, 3. Total, 52.

Respectfully,

W. L. SEWELL,
United States Consul.

HON. ASSISTANT SECRETARY OF STATE.

BRITISH HONDURAS.

Weekly report of conditions and transactions at Belize—Fruit port.

BELIZE, BRITISH HONDURAS, *May 3, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 3, 1902:

Population according to census of 1901, 9,113; present officially estimated population, about 7,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague

during the week, none; number of deaths from other causes during the week, 5. Causes of death, malarial fever, 1; phthisis, 1; senile debility, 1; obstruction of bowels, 1; laceration of brain, 1. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following vessels: May 2, steamship *Anselm*; crew, 40; number of passengers from this port, 2; number of passengers in transit, 16; baggage disinfected, 8 pieces; steamship *Geo. Dumois*; crew 19.

Respectfully,

R. H. PETERS,

Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

CANADA.

Inspection of immigrants at Quebec.

QUEBEC, CANADA, *May 11, 1902.*

SIR: I have the honor to report that for the week ended May 10, there were inspected 928 immigrants; passed, 900; detained, 28. * * *

Respectfully,

VICTOR G. HEISER,

Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

CANARY ISLANDS.

Teneriffe quarantines against certain ports on account of plague.

TENERIFFE, CANARY ISLANDS, *April 22, 1902.*

SIR: I have the honor to report that vessels from the following ports, Buenos Ayres, La Plata, and Rosario, are under strict quarantine in the Canary Islands, on account of the bubonic plague being declared at the above ports; no connections whatsoever with the shore will be allowed. Vessels coming from Cape Town are also under quarantine, but officers and cabin passengers are permitted to land.

Respectfully,

SOLOMON BERLINER,

United States Consul.

Hon. ASSISTANT SECRETARY OF STATE.

CHINA.

Report from Hongkong—Plague, cholera, and smallpox.

HONGKONG, CHINA, *April 8, 1902.*

SIR: I have the honor to transmit herewith the abstract of bills of health issued at this station during the week ended April 5, 1902.

Eight vessels were inspected, 2 being given supplemental bills of health. Seven hundred and thirty-three individuals were bathed at the disinfecting station, and 939 bundles of clothing and bedding were disinfected.

The sanitary report for the week ended April 5, 1902, shows that the following diseases occurred in the colony, viz, 2 cases of plague and 2 deaths; 34 cases of Asiatic cholera and 29 deaths; 6 cases of smallpox and 6 deaths; 1 case of diphtheria, and 2 cases of enteric fever.

Thirteen of the reported cases of cholera occurred aboard the steamship *Hong Moh*, in the harbor. This steamship had but recently arrived from Singapore with several hundred coolies aboard destined for Amoy, China.

Information from Hon. R. W. McWade, United States consul at Canton, dated April 8, 1902, states that cholera is now epidemic in Honam; that the disease has about disappeared from the city of Canton, and that no cases of plague have as yet appeared. The local press of this city states that towns and country surrounding Canton are infected, and because of the absence of rain the prospect is unhelpful.

A cablegram, dated April 8, from the United States consul at Foochow, states, "No cholera or infectious disease Foochow."

Respectfully,

JOHN W. KERR,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

COLOMBIA.

Weekly report of conditions and transactions at Bocas del Toro—Fruit port.

BOCAS DEL TORO, COLOMBIA, *May 6, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 5, 1902:

Population according to census, not obtainable. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, none. Prevailing diseases, malarial. Owing to the revolution in this section it is not possible to gather statistics. The town is virtually depopulated. General sanitary condition of this port and the surrounding country during the week, good. No evidence of any infectious or contagious diseases. Communication with Port Limon virtually suspended. About 400 soldiers located here now; they came from various parts of the Republic. They are healthy so far as I can find out.

Bills of health were issued to the following vessels: April 30, steamship *Harald*, crew, 17; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none. May 2, steamship *Mount Vernon*, crew, 20; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none. May 3, steamship *Hispania*, crew, 22; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

PAUL OSTERHOUT,
Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

COSTA RICA.

*Weekly report of conditions and transactions at Port Limon—Fruit port.*PORT LIMON, COSTA RICA, *May 8, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 7, 1902:

Present officially estimated population, 4,000. Number of cases and deaths from yellow fever during the week, cases, 2; deaths none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 3. Prevailing diseases are yellow and malarial fevers. General sanitary condition of this port and the surrounding country during the week was not good. The 3 deaths hereinabove noted were all colored Jamaicans, and, respectively, due to valvular disease of the heart, paralysis, and anæmia. Two cases of yellow fever were brought to Port Limon on the 6th instant, and placed in hospitals here. One of these cases, an adult, white, Jamaican, was brought from Siquirres, 37 miles, and the other, an adult, male, native, from Guarimo, 51 miles, by railway from here.

Bills of health were issued to the following vessels: May 1, steamship *Beverly*, number crew, 39; number of passengers from this port none; number of passengers in transit, none; pieces of baggage disinfected, none. May 3, steamship *Algiers*, number crew, 31; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none. May 5, steamship *Altai*, number crew, 44; number of passengers from this port, 9; number of passengers in transit, 3; pieces of baggage disinfected, none. May 7, steamship *Foxhall*, number crew, 26; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

WM. H. CARSON,

*Acting Assistant Surgeon, U. S. M. H. S.*The SURGEON-GENERAL, *U. S. Marine-Hospital Service.*

CUBA.

*Reports from Nuevitas, Puerto Padre, Gibara, and Baracoa.*NUEVITAS, CUBA, *May 5, 1902.*

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to submit the following report for the quarantine district under my command, for the week ended May 3, 1902: During said period 12 vessels arrived at this port and 10 bills of health were issued. The mortuary report shows no death for the week and the sanitary condition is good.

Puerto Padre.—Report shows the arrival of 7 vessels, 4 bills of health issued, no deaths, and good sanitary condition.

Gibara.—Report shows 12 arrivals, 12 bills of health issued, 2 deaths—tuberculosis, 1; la grippe, 1—and good sanitary condition.

Baracoa.—Report shows 6 arrivals, 8 bills of health issued, 4 deaths—malarial, 1; enteritis, 1; affection of the heart, 1; ill-defined disease, 1—and good sanitary condition.

No quarantinable disease reported at any point in the district.

Respectfully,

OWEN W. STONE,

*Acting Assistant Surgeon, U. S. M. H. S.*The SURGEON-GENERAL, *U. S. Marine-Hospital Service.*

*Reports from Santiago, Manzanillo, Guantanamo, and Daiquiri.*SANTIAGO DE CUBA, *May 3, 1902.*

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to submit herewith the following report for the week ended April 26, 1902:

Santiago.—There was a total of 15 deaths reported during this period, making the annual rate of mortality for the week 18.1 per 1,000. The causes of death were as follows: Typhoid fever, 1; fever, intermittent malarial, 2; tubercle of lungs, 1; diabetes, 1; organic diseases of the heart, 2; broncho-pneumonia, 1; pneumonia, 2; pulmonary congestion, 1; diarrhea and enteritis (under 2 years), 1; congenital debility, 2; ill-defined causes of death, 1. During the week 9 vessels were inspected and passed on arrival, 8 vessels were passed without inspection, and 10 vessels received bills of health prior to leaving port. One immune and 20 nonimmune certificates were issued; 49 pieces of baggage were inspected and passed and 5 pieces were disinfected. On April 26, the provisional flag steamship *Maria Herrera*, was disinfected prior to departure for Porto Rico.

Manzanillo.—Acting Asst. Surg. R. de Socarras reports a total of 8 deaths, due to the following causes: Fever, intermittent malarial, 2; tubercle of lungs, 1; meningitis, simple, 1; broncho-pneumonia, 1; diarrhea and enteritis (under 2 years), 1; Bright's disease, 1; senile debility, 1. Annual rate of mortality for the week 28.07 per 1,000. During the week 9 vessels were inspected and passed on arrival, 1 vessel passed without inspection and 1 vessel was boarded and passed. Eleven vessels received bills of health prior to leaving port.

Guantanamo.—Acting Asst. Surg. H. S. Caminero reports a total of 11 deaths, due to the following causes: Fever, intermittent malarial, 3; anæmia, pernicious, 1; tetanus, infantile, 3; organic diseases of the heart, 2; pneumonia, 1; gastro-enteritis, 1. Annual rate of mortality for the week 31.77 per 1,000. Four vessels entered port during the week, 3 of which were passed without inspection and 1 was inspected and passed. Three bills of health were issued to vessels leaving port.

Daiquiri.—No deaths reported. Two vessels were inspected and passed on arrival and 3 vessels received bills of health prior to departure.

Respectfully,

R. H. VON EZDORF,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

SANTIAGO DE CUBA, *May 8, 1902.*

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to submit herewith the following report for the week ended May 3, 1902:

Santiago.—During this period there was a total of 15 deaths reported, making the annual rate of mortality for the week 18.1 per 1,000. The following were the causes of death: Fever, intermittent malarial, 1; tubercle of lungs, 4; meningitis, simple, 1; epilepsy, 1; organic diseases of the heart, 3; pneumonia, 1; diarrhea and enteritis (under 2 years), 1; ill-defined or unspecified causes of death, 3. During the week 7 vessels were inspected and passed on arrival, 4 vessels passed without inspection, and 10 vessels received bills of health. Two vessels were disinfected, the American schooner *Lizzie B. Willey*, bound for Pensacola, Fla., and the American schooner *Henry Sutton*, bound for Brunswick, Ga.

Manzanillo.—Acting Asst. Surg. R. de Socarras reports 2 deaths—due to abdominal tubercle, 1; simple meningitis, 1—showing a mortality of 7.18 per 1,000. Seven vessels were inspected and passed on arrival, 2 vessels were passed without inspection, and 7 vessels received bills of health prior to leaving port.

Guantanamo.—Acting Asst. Surg. H. S. Caminero reports 4 deaths, due to the following causes: Tubercle of lungs, 1; tetanus, infantile, 1; endocarditis, acute, 1; diarrhea and enteritis, chronic, 1; annual rate mortality for the week, 11.55 per 1,000. Four vessels entered port, 2 were inspected and passed and 2 were passed without inspection. Three bills of health were issued to outgoing vessels.

Daiquiri.—No deaths reported. Two vessels were inspected and passed on arrival and 1 vessel received bill of health prior to leaving port.

Respectfully,

R. H. VON EZDORF,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Inspection of immigrants at Santiago de Cuba during the week ended April 26, 1902.

SANTIAGO DE CUBA, *April 26, 1902.*

SIR: I herewith submit report of alien steerage passengers arriving at this port during the week ended April 26, 1902: April 27, provisional flag steamship *Julia*, from San Juan, P. R., with 21 immigrants.

Respectfully,

R. H. VON EZDORF,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Inspection of immigrants at Santiago de Cuba during the week ended May 3, 1902.

SANTIAGO DE CUBA, *May 3, 1902.*

SIR: I herewith submit report of alien steerage passengers arriving at this port during the week ended May 3, 1902: April 27, provisional flag steamship *Julia*, from San Juan, P. R., with 21 immigrants. April 29, provisional flag steamship *Tomas Brooks*, from Kingston, Jamaica, with 28 immigrants. Total, 49.

Respectfully,

R. H. VON EZDORF,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

ENGLAND.

Report from Liverpool.

LIVERPOOL, ENGLAND, *May 5, 1902.*

SIR: I have the honor to state that for the week ended May 3, 1902, there were reported to the Liverpool health authorities the following cases: Smallpox, 5; enteric fever, 20; scarlet fever, 118; diphtheria, 24, and measles, 45. This is an increase of 2 cases of smallpox over last week, but as I believe they have a good control over the disease, I do not anticipate any further increase in the future. However, as small-

pox is reported from a number of places in the United Kingdom, it is hard to prevent the introduction of a few stray cases into this city.

In February, when there seemed to be a threatened epidemic of small-pox here, I was requested by the Johnstons Line Steamship Company and the Warren Line to vaccinate the officers, crews, and cattlemen of their vessels sailing to ports in the United States. Inasmuch as the smallpox has decreased instead of increased and that the cases now being reported are not associated with the shipping of this port, I have discontinued the vaccination. I think by this time all of the cattlemen employed on these vessels have been subjected to the operation, and I have advised that all new cattlemen employed be vaccinated before they are permitted to sign the articles. The officers and most of the crew of these vessels are regularly employed, and so they are all pretty thoroughly vaccinated.

For the week ended May 3, 1902, there were reported to the medical officer of health for Birkenhead the following cases: Scarlet fever, 10; diphtheria, 1; membranous croup, 1; enteric fever, 8, and measles, 24.

Respectfully,

CARROLL FOX,

Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

Report from London.

LONDON, ENGLAND, *May 2, 1902.*

SIR: I have the honor to make the following report for the week ended April 26, 1902: Six vessels were inspected and received bills of health, and 81 members of the crew and cattlemen were vaccinated. Two vessels had the vaccination performed by their own surgeons.

The number of deaths from smallpox in London for this week was 42, as against 54, 73, and 42 in the preceding three weeks. There were 11 fatal cases outside the metropolis, and 1 death in Glasgow.

Respectfully,

A. R. THOMAS,

Passed Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

GERMANY.

Report from Berlin—Plague and cholera in various countries.

BERLIN, GERMANY, *May 5, 1902.*

SIR: I have the honor to transmit herewith the latest information obtained from the imperial health office at Berlin, regarding plague and cholera:

Plague.

EGYPT.—From April 11 to April 17, inclusive, the following plague cases and deaths were registered in Egypt, viz, Decheneh, 12 fresh cases, 7 deaths; Tantah, 1 case, — death; district Tala of the province Menusieh, 9 cases, 4 deaths; district Mit Sammand of the province Dakalieh, 4 cases, 1 death; district Mit Gamr, 2 cases, 1 death; district Mina-el-Gamr, Scheblanga, 1 case, 1 death.

BRITISH INDIA.—In the Bombay Presidency, between March 22 and March 28, there were recorded 5,173 plague cases and 3,933 deaths. In the city of Bombay, during the week ended April 1, there occurred 1,076 new cases and 909 deaths.

JAPAN.—According to a telegraphic report dated April 24, there occurred 1 death from plague at Kobe on April 22.

BRITISH EAST AFRICA.—According to a telegraphic report of April 21, the total number of cases registered in the protectorate has reached 57 cases, with 19 deaths.

ARGENTINE REPUBLIC.—According to a telegraphic report dated April 15, there have been registered several cases of sickness suspected to be plague.

BRAZIL.—According to a communication of April 6, it has been officially confirmed that several cases of plague have occurred in Pernambuco.

QUEENSLAND.—From March 9 to March 22, there occurred in Brisbane 13 new plague cases and 2 deaths. According to the official bulletins, there were 8 plague patients under medical treatment on March 1.

Plague and cholera.

BRITISH INDIA.—In Calcutta during the week from March 16 to March 22 there occurred 445 new cases of plague, with 420 deaths. There were, furthermore, 86 deaths from cholera.

Cholera.

EGYPT.—The director of the quarantine station at El Tor, reported on April 18 that at that point 32 cholera patients out of 45 had died, and 13 were still under medical treatment.

Respectfully,

FRANK H. MASON,
United States Consul-General.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

GUATEMALA.

Report from Puerto Barrios.

PUERTO BARRIOS, GUATEMALA, *May 5, 1902.*

SIR: The following steamships have cleared for ports in the United States during the week ended May 3, 1902: April 29, steamship *Anselm*, with passengers for New Orleans, La.; steamship *George Dumois*, with cargo of fruit and coffee, for New Orleans, La.

Respectfully,

D. P. ALBERS, M. D.,
Resident Medical Inspector,
Louisiana State Board of Health, at Puerto Barrios.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

HAWAII.

COFER.

HONDURAS.

Weekly report of conditions and transactions at Puerto Cortez—Fruit port.

LA CEIBA, HONDURAS, *May 3, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 3, 1902:

Population according to census—no official census. Present estimated population, about 4,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 3. Prevailing diseases, malarial. General sanitary condition of the port and surrounding country during the week, good.

Bills of health were issued to the following vessels: April 28, American steamship *David*, number of crew, 23; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none. May 2, British steamship *Usk*, number of crew, 20; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected none.

Respectfully,

W. B. ROBERTSON,
Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

Weekly report of conditions and transactions at Puerto Cortez—Fruit port.

PUERTO CORTES, *May 7, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 7, 1902:

Population according to census of 1898, 1,800; present officially estimated population, 2,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, none. Prevailing disease, malarial fever. General sanitary condition of this port and the surrounding country during the week, good. Indirect information from physician of Sacapa, Guatemala, of 3 deaths from yellow fever (2 black vomit). Sacapa is in direct railroad communication with Puerto Barrios, five hours north of this port. So far constant communication between these latter places.

Bills of health were issued to the following vessels: May 1, steamship

Anselm; crew, 40; passengers from this port, 3; passengers in transit, 13; pieces baggage disinfected, 4. May 2, steamship *Espana*; crew, 14; passengers from this port, 5; passengers in transit, none; pieces baggage disinfected, 9. May 6, steamship *Bratten*; crew, 15; passengers from this port, none; passengers in transit, none; pieces baggage disinfected, none.

Respectfully,

S. H. BACKUS,

Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

JAPAN.

Report from Yokohama—Plague in Formosa.

YOKOHAMA, JAPAN, *April 22, 1902.*

SIR: I have the honor to transmit herewith abstract of bills of health issued at this port during the week ended April 19, 1902.

The port of Yokohama continues free from quarantinable disease. During the past week there were reported 1 case of enteric fever with 1 death, 5 cases of diphtheria with no deaths, and 1 case of dysentery with no deaths, in this city.

In Japan proper, no quarantinable disease has been reported since the 3d instant, when a death from plague occurred at Nagasaki. In Formosa, plague still prevails to a considerable extent. On that island, from the beginning of the year to April 15, the number of cases totaled 623, and the deaths, 454.

Respectfully,

D. MOORE,

Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

NICARAGUA.

Weekly report of conditions and transactions at Bluefields—Fruit port.

BLUEFIELDS, NICARAGUA, *May 11, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 11, 1902:

Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 1. Prevailing diseases, none. General sanitary condition of this port and the surrounding country during the week, very good.

Bills of health were issued to the following vessels: May 6, steamship *Banan*, crew, 21; number of passengers from this port, none; number of passengers in transit, none; baggage disinfected, none. May 8, steamship *Utstein*, crew, 16; number of passengers from this port, none; number of passengers in transit, none; baggage disinfected, none. May 11, steamship *Jno. Wilson*, crew, 18; number of

passengers from this port, 7; number of passengers in transit, none; pieces baggage disinfected, 8.

Respectfully,

D. W. GOODMAN,
Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

NEW BRUNSWICK.

Inspection service at St. John.

ST. JOHN, NEW BRUNSWICK, *May 5, 1902.*

SIR: I have the honor to report that during the week ended May 3 the following vessels and their crews were inspected by me at this port: Steamers, 3; schooners, 9; seamen, 227.

Respectfully,

T. DYSON WALKER,
United States Medical Inspector.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

ST. JOHN, NEW BRUNSWICK, *May 12, 1902.*

SIR: I have the honor to report that during the week ended May 10, the following vessels and their crews were inspected at this port by me: Steamers, 3; schooners, 10; seamen, 230. Notice has been received that medical inspection will be discontinued at this port after May 10.

Respectfully,

T. DYSON WALKER,
United States Medical Inspector.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

PORTO RICO.

Reports from San Juan and subports for April, 1902.

SAN JUAN, P. R., *May 6, 1902.*

SIR: I have the honor to submit herewith a report of the quarantine transactions at this and the several subports of the island for the month of April, 1902, as follows:

San Juan.—Number of vessels inspected, 20; number of bills of health issued, 32; number of vessels held in quarantine, 3; number of vessels disinfected, 1; number of persons detained in quarantine, 1; number of pieces of baggage disinfected, 86; number of packages of mail disinfected, 4; persons vaccinated, 109.

The steamship *Mae*, of the New York and Porto Rico steamship line, arrived at this station upon the night of the 12th instant. She had been remanded here for disinfection, as smallpox was discovered among her crew when a bill of health was applied for at Arecibo, P. R. Disinfection of the vessel was done on the 13th instant as follows: Forecastle, galley-way, cabins, decks, etc., washed down with bichloride of mercury solution; all dunnage and personal effects of crew subjected to steam or formaldehyd, crew bathed and the case of varioloid removed to the quarantine station for treatment. The holds of the vessel which contained a full cargo of sugar and were battened down were not considered infected and were not disinfected. After vaccination of the crew the vessel was released from quarantine, and given a bill of health, with the facts as above noted thereon. She sailed for New York on the 14th

instant. The smallpox occurring on this vessel is considered to have been contracted at Boston, Mass.

On the 17th, the French steamship *Saint Simon* arrived from St. Marc, Gonaives, Petit Goave, Port au Prince, Cape Haitien, and Sanchez. All bills of health presented by this vessel were clean. She was placed in quarantine under guard while she remained at this port. Seventy-one pieces of baggage taken on at Puerto Plata were removed to the island and disinfected.

The Spanish steamer *Montevideo* entered upon the 18th instant from Havana, Port Limon, Colon, Barranquilla, Porto Cabella, La Guayra, and Ponce. Bills of health clean. Six pieces of baggage and 2 packages of mail were taken to the island and disinfected. The ship was held in quarantine under guard while she remained here.

The provisional flag steamship *Julia* entered from Cuban and Dominican ports on the 19th. She was on her regular schedule and had undergone disinfection prior to clearing from Santiago de Cuba. All bills of health clean. The vessel was, after the removal of 9 pieces of baggage and 1 sack of mail for disinfection, granted free pratique.

The provisional flag steamship *Maria Herrera* arrived on the 29th instant from Cuban and Dominican ports. She had, as usual, been disinfected at Santiago de Cuba prior to sailing from that port, and as all bills of health carried by the vessel were clean, she was given free pratique. The vessel carried no baggage requiring disinfection, but 1 sack of mail taken on at Puerto Plata was removed and disinfected.

I inclose herein vital statistics for San Juan.

The following embraces a summary of vessels inspected at the several subports of the island during the month: Mayaguez, 10; Arecibo, 4; Aguadilla, 2; Humacao, 6; Fajardo, 3; Arroyo, 1.

The following is a report of the mortality at the subports: Mayaguez, 82; Arecibo, 89; Humacao, 40; Aguadilla, 31; Fajardo, 39; Arroyo, 9.

Respectfully,

H. S. MATHEWSON,
*Passed Assistant Surgeon, U. S. M. H. S.,
 Chief Quarantine Officer for Porto Rico.*

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

SAN JUAN, P. R., *May 10, 1902.*

SIR: Referring to a letter from this office dated the 6th instant, making report relative to the number of smallpox cases in Porto Rico occurring during the two weeks ended May 3, 1902, I have the honor to say that I am in receipt of a note from the secretary of the superior board of health of Porto Rico, under date of the 9th instant, in which he informs me that all cases mentioned in his last report to me—that is, for the two weeks ended May 3, 1902—were of a mild type of varioloid, and that no case of smallpox of a serious type has existed in San Juan for many weeks.

Respectfully,

H. S. MATHEWSON,
*Passed Assistant Surgeon, U. S. M. H. S.,
Chief Quarantine Officer for Porto Rico.*

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Smallpox in Porto Rico.

SAN JUAN, P. R., *May 6, 1902.*

SIR: With reference to the smallpox situation in Porto Rico, I have the honor to report that during the two weeks ended May 3, 1902, cases have occurred in the following localities: San Juan, 40; Arecibo, 75; Camuy, 56; Ponce, 30; Utuado, 48; Hatillos, 7; Caguas, 36. A total of 292 cases. No deaths from the disease, except 1, an engineer of the steamship *Mae*, who contracted smallpox in Boston and was landed at Arecibo for treatment.

The above report is based upon statistics furnished this office by the superior board of health of Porto Rico.

Respectfully,

H. S. MATHEWSON,
*Passed Assistant Surgeon, U. S. M. H. S.,
Chief Quarantine Officer for Porto Rico.*

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Reports from Ponce.

PONCE, P. R., *May 5, 1902.*

SIR: Through the chief quarantine officer for Porto Rico, I have the honor to transmit herewith the quarantine and abstract of bills of health reports for the week ended May 3, and the report of immigrants inspected at this port during the month of April, 1902. Four vessels were inspected and passed and 8 bills of health were issued. During the past week the board of health reports 7 new cases of smallpox and 8 cases discharged. A circular has been circulated calling attention to the necessity of vaccination and the laws regarding it, and announcing that free vaccinations will be performed by a physician of the board of health. The schools have all been vaccinated. I have heard unofficially of several cases of diphtheria.

Respectfully,

W. W. KING,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

PONCE, P. R., *May 12, 1902.*

SIR: Through the chief quarantine officer for Porto Rico, I have the honor to transmit herewith the quarantine and abstract of bill of health

reports for the week ended May 10, 1902, also the summary of transactions of this station for the month of April, 1902. During the week 4 vessels were inspected and passed and 6 bills of health were issued to outgoing vessels. The local board of health reports 10 new cases of varicella for the past week ; discharged, 6, and 28 still under treatment.

Respectfully,
W. W. KING,
Assistant Surgeon, U. S. M. H. S.
 The SURGEON-GENERAL, *U. S. Marine-Hospital Service.*

Report of immigrants inspected at the port of Ponce, P. R., during the month of April, 1902.

Total number of immigrants inspected, 48; number passed, 48.

W. W. KING,
Assistant Surgeon, U. S. M. H. S.

Foreign and insular statistical reports of countries and cities—Yearly and monthly.

BRAZIL—Pernambuco.—Two weeks ended March 31, 1902. Estimated population, 200,000. Total number of deaths, 272, including enteric fever, 1; whooping cough, 1; smallpox, 29; yellow fever, 1; plague, 1, and 43 from phthisis pulmonalis.

CANADA—Province of Ontario.—Reports to the provincial board of health for the month of March, 1902, from 735 municipalities having an aggregate estimated population of 2,040,428, show a total of 2,479 deaths, including diphtheria, 47; enteric fever, 14; measles, 18; scarlet fever, 42; whooping cough, 12, and 232 from phthisis pulmonalis.

GREAT BRITAIN—England and Wales.—The deaths registered in 76 great towns in England and Wales during the week ended April 26, 1902, correspond to an annual rate of 17.0 per 1,000 of the aggregate population, which is estimated at 14,862,909.

London.—One thousand five hundred and twenty-nine deaths were registered during the week, including measles, 56; scarlet fever, 10; diphtheria, 23; whooping cough, 50; enteric fever, 5; smallpox, 42, and diarrhea and dysentery, 12. The deaths from all causes correspond to an annual rate of 17.4 per 1,000. In Greater London 2,037 deaths were registered. In the "outer ring" the deaths included 5 from diphtheria, 5 from measles, 2 from scarlet fever, 18 from smallpox, and 5 from whooping cough.

Ireland.—The average annual death rate represented by the deaths registered during the week ended April 26, 1902, in the 21 principal town districts of Ireland was 24.5 per 1,000 of the population, which is estimated at 1,092,322. The lowest rate was recorded in Wexford, viz, 4.7, and the highest in Tralee, viz, 58.5 per 1,000. In Dublin and

suburbs 199 deaths were registered, including measles, 2; enteric fever, 4; whooping cough, 3, and 28 from tuberculosis.

Scotland.—The deaths registered in 8 principal towns during the week ended April 26, 1902, correspond to an annual rate of 21.1 per 1,000 of the population, which is estimated at 1,679,923. The lowest mortality was recorded in Perth, viz, 17.2, and the highest in Greenock, viz, 23.4 per 1,000. The aggregate number of deaths registered from all causes was 682, including diphtheria, 4; measles, 13; scarlet fever, 5; smallpox, 1, and 29 from whooping cough.

ITALY—Milan.—Month of March, 1902. Estimated population, 504,550. Total number of deaths, 977, including diphtheria, 11; enteric fever, 6; measles, 12; smallpox, 1, and 102 from tuberculosis.

JAPAN—Yokohama.—Two weeks ended April 12, 1902. Estimated population, 189,455. Total number of deaths not reported. Two deaths from diphtheria and 1 death from enteric fever reported.

SPAIN—Barcelona.—Two weeks ended March 30, 1902. Estimated population, 672,000. Total number of deaths not reported. Six deaths from enteric fever reported.

Corunna.—Month of April, 1902. Estimated population, 44,000. Total number of deaths, 99, including enteric fever, 3; smallpox, 2, and 25 from tuberculosis.

Valencia.—Two weeks ended April 30, 1902. Estimated population, 204,000. Total number of deaths, 191, including enteric fever, 3, and 6 from smallpox.

Vigo.—Month of April, 1902. Estimated population, 22,000. Total number of deaths, 27. No contagious diseases reported.

Cholera, yellow fever, plague, and smallpox, December 27, 1901, to May 23, 1902.

Reports received by the Surgeon-General United States Marine-Hospital Service from United States consuls through the Department of State and other sources.]
