

PUBLIC HEALTH REPORTS.

UNITED STATES.

[Reports to the Surgeon-General, Public Health and Marine-Hospital Service.]

Supervision of plague prevention work at Oakland, Alameda, and Berkeley, Cal.

September 26. The following telegram was received from Frank K. Mott, mayor of Oakland, Cal.:

At joint conference health authorities Oakland, Alameda, and Berkeley it was decided to ask you to detail medical officer to remain on this side of bay to supervise work of officials in preventing spread of plague.

September 27, reply was sent:

Plague suppressive measures San Francisco and vicinity are in charge of Passed Assistant Surgeon Rupert Blue, who has been directed to detail an officer under his direction in accordance with your request. Please confer with him. Understood this for supervision only; expenses, labor, material, and other assistance to be furnished by authorities Oakland, Alameda, and Berkeley, as indicated in your dispatch.

Passed Assistant Surgeon Long was assigned to duty at Oakland and vicinity September 28.

Report from San Francisco, Cal.—Status of plague.

Passed Assistant Surgeon Blue reports:

September 26. Have 12 medical and 36 sanitary inspectors and 240 laborers at work; will add more. Sanitary survey, general cleaning, disinfection of infected houses, and rat destruction under way.

September 27. Total cases to date, 46; deaths, 27.

September 30. Cases to date, 49; deaths, 27.

Report from San Francisco quarantine, Angel Island, Cal.—Outgoing quarantine transactions.

Passed Assistant Surgeon Hobdy reports, September 23:

Week ended September 21.

FOREIGN AND INSULAR.

CURRENT QUARANTINE MEASURES.

[From the Veröffentlichungen des Kaiserlichen Gesundheitsamtes, Berlin, September 18, 1907.]

Cholera.

PERSIA.—September 14: Five days' quarantine against arrivals from Russia ordered at Astara.

ROUMANIA.—September 10: The frontier closed to travelers arriving from the cholera-infected cities of Samara and Kief, and the governments of Samara, Astrachan, Saratov, Simbirsk, Ufa, Kasan, Nizhnee Novgorod, Baku, Stavropol, and the districts of the Don and Daghestan. Entry into Roumanian territory may take place only by Ungheni and the ports of Constantza, Sulina, and Galatz. Travelers are subject at those places to medical inspection and five days' supervision in their homes. Used clothing is disinfected. For travelers from other parts of Russia not cholera infected the border towns of Stefanesci, Falcin, Dancea, and Gura Prutuli remain open. Arrivals from Batoum destined for the ports of Kilia, St. Georg, Isaccea, Tulcea, Galatz, Braila, will be fumigated with sulphur and change their water supply at the ports of Constantza or Sulina. Importation of fish from the Caspian Sea, the Volga, and the Don is permitted only after bacteriological examination.

TURKEY.—September 3: Arrivals from the coast between Sebastopol and Sulina, inclusive, if they carry no passengers, are subject to medical inspection of the crew at the first Turkish port provided with sanitary authorities, and also on arrival at Kavak. If they carry passengers they may repair to the lazaretto at Sinope, or proceed to Kavak, where the passengers shall be subject to medical inspection and disinfection of baggage and used clothing, the process of disinfection not lasting longer than twenty-four hours.

Plague.

EGYPT.—September 3: Plague regulations ordered at Egyptian ports against arrivals from Tellicherry, in Malabar, British Indies.

TURKEY.—September 3: Measures against arrivals from Port Said replaced by medical inspection at the first Turkish port provided with sanitary authorities. Five days' quarantine against arrivals from Alexandria replaced by forty-eight hours' observation with careful fumigation to destroy rats and mice on board.

September 4: Arrivals from Mytilene subject to medical inspection at the first Turkish port provided with sanitary authorities.

AFRICA.

Report from Cape Colony—Plague at King Williams Town—Examination of rats, and cats for plague infection.

The following is received from the medical officer of the Colony under date of August 19:

The following report on the outbreak of plague at King Williams Town for the week ended August 17, 1907, is published for general information.

During the week no cases of plague were discovered in King Williams Town or district. One case still remains under isolation and treatment in the plague hospital.

One hundred and nine rats (including 27 found dead) and 67 mice (including 16 found dead) and 2 cats (found dead) were examined, of which 2 rats and 5 mice were found to be plague infected, and 22 rats, 9 mice, and 2 cats to be probably plague infected.

ALGERIA.

Report from Algiers—Plague at Oran.

Information is received from the Consular Bureau of the Department of State, under date of September 30, that the American consul, Algiers, reports the presence of plague at Oran.

BRAZIL.

Reports from Rio de Janeiro—Inspection of vessels—Plague, small-pox, and yellow fever.

Acting Assistant Surgeon Stewart reports, August 23 and 31:

Week ended August 18. Vessels inspected (with exception noted) and bills of health issued: August 12, the British steamship *Black Prince*, for New York, with a cargo of coffee, 2 cabin passengers, and no change in the crew; August 14, the Portuguese bark *Amazona*, for New Orleans, in stone and sand ballast (sand from River Plate), no passengers, and 2 new members of the crew signed on here; August 15, the British steamship *Virgil*, for New York, with cargo of coffee, no passengers, and no change in the crew; August 14, the German bark *Bonn*, for New Orleans, in stone ballast, no passengers, and 3 new crew signed on at this port; August 15, the British steamship *Auchenarden*, for New York, with cargo of coffee, no passengers, and 1 new member of the crew signed on here; August 17, the British steamship *Milton*, for New Orleans, with cargo of coffee, no passengers for New York, and with 1 new member of the crew signed on in this port; the German steamship *Getrune*, for New York, with a cargo of coffee, 2 cabin and 11 steerage passengers for New York, and with no change in the personnel of the crew, and the British steamship *Abaris*, for Galveston, with water ballast, no passengers, and no change in the crew personnel while in this port.

The only one of these vessels not inspected by me was the British steamship *Auchenarden*, which not only left this port without inspection, but also without her bills of health. At the suggestion of the

deputy consul-general, her bills of health were sent to Bahia, via a Royal Mail steamship leaving here the next day, and on them I made the indorsement that the vessel left here without inspection.

Mortality report, Rio de Janeiro, Brazil.—Week ended August 18: Total deaths, 229. Yellow fever caused no deaths, but 1 new case was reported; smallpox caused 1 death, with 4 new reported cases, and plague caused no deaths, but had 2 new cases reported. At the close of the week there were in the hospital São Sebastião 2 cases of yellow fever under treatment, 6 cases of variola, and 5 cases of bubonic plague.

Mortality reports from certain cities in São Paulo.—Reports from 168 cities, and including 253 districts, show a total for the three months of January, February, and March, 1907, of 14,016 deaths. During this period there were no cases reported and no deaths in these localities due either to yellow fever, bubonic plague, or smallpox. There were 30 deaths from leprosy, chiefly in interior towns of the State. The 30 deaths from leprosy occurred in 25 towns, so that only 3 towns had more than 1 death. This disease is distributed throughout the interior.

Week ended August 25. Vessels inspected and received bills of health, except in the one case stated: August 19 the Belgian steamship *Camoens*, for New York, in cargo of coffee, with 8 cabin, 6 steerage passengers, and no change in the crew while in this port; the Portuguese bark *Gratia*, for Pensacola, Fla., in stone and sand ballast, with no passengers, and with 1 new member of the crew signed on in this port; the British steamship *Castillian Prince*, for New Orleans, La., in cargo of coffee, no passengers, and no change in the crew personnel in this port. August 20, the British steamship *Huttonwood*, for Norfolk, Va., in water ballast, no passengers, and no change in the crew; August 22, the German bark *Heimdal*, for Mobile, Ala., in stone and sand ballast, with no passengers, and with 6 new members of the crew taken on in this port; August 23, the British steamship *Industry*, for Sand Key, Fla., for orders, in water ballast, no passengers, and with no change in the crew at this port; August 24, the German steamship *Corrientes*, for New York, in cargo of coffee, no passengers, and no change in the crew personnel; August 25, the American ship *Atlas*, for San Francisco, Cal., with a cargo of coal from Norfolk or Baltimore for the navy-yard, Mare Island, Cal., with no passengers and with 20 new members of the crew shipped in this port. This last-named vessel was not inspected by me, as the greater portion of the crew were shipped here. The ship lay during her whole stay 5 miles from here, in a perfectly healthy location.

The city of Rio de Janeiro has never been in as excellent a sanitary condition and as free from quarantinable diseases as at present.

Mortality report, Rio de Janeiro, Brazil.—Week ended August 25. Total deaths, 198. There was 1 case of yellow fever reported during the week, with no deaths; no cases nor deaths of bubonic plague, and 11 cases of smallpox, with 1 death from this cause. At the close of the week there were under treatment in the Hospital São Sebastião 1 case of yellow fever, 10 cases of smallpox, and 4 cases of plague.

BRITISH HONDURAS.

Report from Belize, fruit port.

Acting Assistant Surgeon Mengis reports as follows: Week ended September 19, 1907. Present officially estimated population, 10,500. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Sept. 13	Origen.....	New Orleans	28	12	0
16	Oscar G.....	Mobile	6	0	0
18	Britannic	New York	25	0	0

Aliens sailing for United States, 4.

CHINA.

Report from Hongkong—Quarantine restrictions—Plague and smallpox.

Acting Assistant Surgeon Hough reports, July 18, 20, 27, and 31:

Week ended July 13. Restrictions enforced by Hongkong remain as reported on July 6, 1907. To the restrictions enforced against Hongkong, as reported on July 6, the following have been added:

Place or port.	Nature of measure.
Singapore	Hongkong declared an infected port.

Return of quarantinable diseases: Plague, 27 cases, 27 deaths; smallpox, 4 cases, 3 deaths.

Week ended July 20. Quarantinable diseases: Plague, 14 cases, 13 deaths; smallpox, 1 case, 0 death.

Week ended July 27. Quarantinable diseases: Plague, 7 cases, 6 deaths; smallpox, 2 cases, 1 death.

Precautions taken at Hongkong during the month of July, 1907, for the protection of the public health of the United States, the insular territory, and the Republic of Panama.

Vessels inspected and granted bills of health.....	37
Vessels fumigated to kill vermin.....	2
Examined for diseases contemplated in paragraphs 29 and 67 of the Quarantine Regulations:	
(a) Personnel	3, 025
(b) Passengers	806
Required to bathe and undergo special examination:	
(a) Personnel	2, 275
(b) Passengers	770
Examined for diseases contemplated by the laws controlling immigration:	
Aliens	664
Rejected	85
Baggage disinfected and labeled.....	3, 065

Return of communicable diseases: Plague, 73 cases, 71 deaths; smallpox, 10 cases, 6 deaths.

COLOMBIA.

Report from Cartagena—Inspection of vessels—Sanitary conditions—Smallpox—Case of smallpox on steamship Atrato, from Spain via West Indian ports.

Acting Assistant Surgeon Jacobs reports, September 11:

Week ended September 10. Bills of health issued, United States 3, Panama 3; passengers from this port, 66; passengers in transit, 383; members of crews, 365; passengers inspected, 96.

Smallpox is present.

The sanitary condition of Cartagena and surrounding country continues good.

During inspection of steamship *Atrato*, from Southampton to Colon and New York via French and Spanish ports, September 8, a case of smallpox was reported to me by the ship's surgeon. The case had been discovered two days previously and was immediately isolated in one of the boats on the hurricane deck and all sanitary precautions were taken, all passengers and crew being vaccinated at once. The passenger was a Spaniard from Vigo and a "decker" in transit. When I saw the case the eruption was in the beginning of the vesicular stage.

COSTA RICA.

Report from Limon, fruit port.

Acting Assistant Surgeon Goodman reports as follows:

Week ended September 14, 1907. Estimated population, 6,000. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Sept. 8	San José	Boston	44	6	0
8	Imperator	New Orleans	20	1	0
9	Sarnia	New York	107	11	8
11	Mobile	New Orleans	48	2	17
12	Bertha	Mobile	24	2	0
13	Alps	New Orleans	25	0	0
14	Dictator	do	19	1	0
14	Matina	do	48	4	0

Two bills of health for Panaman ports viséed.

CUBA.

*Report from Cienfuegos—Inspection and fumigation of vessels—
Leprosy and yellow fever—Yellow fever at Santa Clara.*

Acting Assistant Surgeon Marsillan reports, September 23:

Week ended September 21.

Vessel inspected.....	1
Vessels inspected and fumigated.....	3
Bills of health issued.....	4
Members of crews inspected.....	152

The British steamship *Min*, from Manzanillo, bound for Mobile, the German steamship *Mainz*, from Manzanillo, cleared for Galveston, and the Spanish steamship *Gracia*, from Manzanillo and destined to Pensacola, were fumigated during the week, and on inspection all temperatures of their crews were found normal. The steamship *Gracia* sailed with remainder of a cargo of lumber in transit. All others sailed in ballast.

Prevailing quarantinable diseases at port and surrounding country, yellow fever and leprosy.

September 25. Two new cases reported to-day; no deaths. Total cases to date, 56; recoveries, 36; deaths to date, 15; under treatment, 5.

September 27. One new case reported to-day; no deaths in this city. Total cases to date, 57; recoveries, 37; deaths to date, 15; under treatment, 5.

September 30. One new case confirmed in this city to-day; 3 more cases in the surrounding country, with origin of disease traceable to this city, making total of 4 cases. One of these died at Rodas. Total cases to date, 61; recoveries, 38; deaths, 16; under treatment, 7.

October 2. One case of yellow fever confirmed to-day; no deaths. Total cases to date, 62; recoveries, 40; deaths to date, 16; under treatment, 6.

*Reports from Habana—Inspection and fumigation of vessels—Yellow
fever case at Santa Clara infected at Habana—Yellow fever at
Habana and in the Provinces.*

Passed Assistant Surgeon Amesse reports, September 24:

Week ending September 21.

Vessels inspected and bills of health issued.....	13
Vessels not inspected and bills of health issued.....	4
Members of crews of outgoing vessels inspected.....	655
Members of crews of outgoing vessels not inspected.....	138
Passengers of outgoing vessels inspected.....	353
Passengers of outgoing vessels not inspected.....	21
Certificates of immunity to yellow fever issued.....	49
Persons entering Triscornia for observation prior to sailing.....	62
Persons transferred from Triscornia to vessels.....	53
Vessels fumigated prior to sailing.....	5

September 18 the Bureau was advised by wire of a case of yellow fever at Santa Clara, Santa Clara Province, the history of which strongly pointed to infection in Habana. Investigation by the board of experts proved this to be correct, the patient, an adult Spaniard living in Animas street, Habana, having left his home for Santa Clara within the incubation period. A second case was reported from Habana on September 19, in the person of a Spaniard living in Galiano street. This patient is under treatment at Covadonga Hospital and progressing favorably.

There are no further developments at Palos, the third week having been reached without secondary cases.

October 1. One death from yellow fever at Palos; another at Alacranes. One new case at Dependientes Hospital, Habana, from Cienfuegos.

*Report from Matanzas—Inspection and fumigation of vessels—
Leprosy—Fatal yellow fever case at Union de Reyes.*

Acting Assistant Surgeon Nuñez reports, September 24 and 29:

Week ended September 21. Five bills of health were issued to vessels leaving for the United States; 1 health and acclimation certificate granted to a passenger destined to the United States via Habana, and the following vessels fumigated: The Spanish steamship *Conde Wifredo*, with 56 crew and 3 passengers in transit, bound for New Orleans, and the British steamship *Tugela*, having a crew of 27, no passengers, destined for Wilmington, N. C.

One case of leprosy was detected during the week in a centrally located section of town. The patient has been sent to Habana to be segregated at the San Lazaro Hospital.

September 29. One yellow fever, ending in death September 27, reported to-day at Union de Reyes.

*Report from Santiago—Inspection of vessels—Fumigation of vessels
to destroy mosquitoes.*

Acting Assistant Surgeon Wilson reports, September 18:

Week ended September 14, 1907. Bills of health issued to 6 vessels bound for the United States and its dependencies. Two vessels fumigated to kill mosquitoes, namely, the steamship *Kirkstall*, bound for Mobile, in ballast, and the steamship *Maria Herrera*, bound for San Juan, P. R., with passengers and a general cargo.

GERMANY.

Report from Berlin—Cholera in Russia.

The following is received from Consul-General Thackara, under date of September 16:

According to the official bulletin issued by the imperial health office, Berlin, there were registered in the Government district of Astrachan (Russia) to September 4 a total number of 1,231 cases of cholera and 574 deaths; in the Government district of Saratov to September 3, 157 cases and 60 deaths; in the Government district of Nizhni Novgorod to September 3, 60 cases and 26 deaths; in the Government

district of Samara to September 3, 344 cases and 237 deaths. In Perm there occurred between August 24 and 29, 6 cases of cholera. Several cases of cholera were reported to September 1 in the city of Simbirsk, the districts of Sysran, Zarizyn, Stavropol, Nikolajewsk, Novusensk, Busulusk, Balachna, and in two cities in the district of Kostroma.

August 31 an engine driver who had arrived at Moscow from Saratov was found to be suffering with cholera.

Report from Bremen—Quarantine and disinfection measures applied to emigrants from Russia.

Consul Fee reports, September 13:

Every emigrant coming from any part of Russia at the German frontier is subjected to a thorough medical examination and given a thorough bath, and all suspicious cases are detained. All of his clothing, wearing apparel, and baggage is taken, disinfected, and then returned to him. After this procedure the emigrants are put into special trains, under quarantine, to be shipped off to the ports of embarkation.

Upon arrival at Bremen they are first medically inspected, the temperature of each is carefully taken, and note is made of the time when disinfection on the frontier has taken place, this being taken as the time when quarantine began. The emigrants are then put into lodging houses, where every morning their temperature is measured. Even the slightest case of irregularity is reported to the physician in charge. When 5 days of quarantine have thus elapsed, the emigrant is subjected to the consular inspection, at which occasion he is also vaccinated. Here the inspection cards of the emigrants are stamped accordingly, and the emigrants are allowed to embark. Baggage which has been disinfected at the frontier is not redisinfectd.

Very few Russians coming from the cholera-infected districts pass through Bremen.

GUATEMALA.

Report from Livingston—Inspection of vessels.

Acting Assistant Surgeon Wailes reports as follows:

Week ended September 17, 1907. Present officially estimated population, 3,500. General sanitary condition of this port and the surrounding country during the week, fairly good. No quarantinable disease.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Sept. 10	Anselm.....	New Orleans.....	41	1	0	0
18	Belize.....	Mobile.....	0	0	0	0

HAWAII.

Report from Honolulu—Outgoing quarantine transactions.

Acting Chief Quarantine Officer Ramus reports, September 8:

Week ended September 7, 1907.

Vessels inspected and bills of health issued.....	5
Vessels disinfected and bills of health issued.....	2
Cabin passengers inspected.....	231
Steerage passengers inspected.....	108
Crew inspected.....	162
Steerage baggage disinfected.....	90
Baggage for crew disinfected.....	133
Hides disinfected.....	888

Examination of rats for plague infection at Honolulu.

Passed Assistant Surgeon Currie reports that during the week ended September 7, 217 rats were examined bacteriologically at the plague laboratory of the Service at Honolulu. Plague infection was proven in the case of 2 rats from Olaa Plantation, near Hilo.

HONDURAS.

Report from Ceiba, fruit port.

Acting Assistant Surgeon Reynolds reports as follows: Week ended September 15, 1907. Present officially estimated population, 6,500. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.

Report from Tela—Inspection of vessels.

Acting Assistant Surgeon Roe reports as follows: Week ended September 14, 1907. Present officially estimated population, about 1,250. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Sept. 10	Katy	Mobile	23	0	0
10	Harald	New Orleans	18	0	0
12	Joseph Vaccaro	do	31	0	0
13	Banan	Mobile	17	0	0

INDIA.

Report from Bombay—Epidemic cholera.

Consul Dennison reports, August 23:

The Bombay board of health reports that during the week ended August 20 cholera was epidemic in this city, 64 cases having been reported during the week, of which number 52 proved fatal. No cases were reported from the harbor.

The disease shows a tendency to increase. It is not confined to any particular part of the city, and does not show a general epidemic tendency to attack all classes alike.

Report from Calcutta—Transactions of Service—Cholera, plague, and smallpox.

Acting Assistant Surgeon Eakins reports, August 29:

Week ended August 24. A bill of health was issued to the steamship *Argenfels*, bound to Boston and New York with a total crew of 63. The usual precautions were taken, holds fumigated, rat guards placed on wharf lines, and lascars' effects disinfected.

Week ended August 17. There were 27 deaths from cholera, 4 from plague, and 2 from smallpox in Calcutta.

In Bengal and India during the week ended August 10 there were, respectively, 104 cases and 72 deaths and 3,479 cases and 2,545 deaths from plague.

JAPAN.

Report from Yokohama—Inspection of vessels—Increase of cholera in the Empire—Cholera on vessels—Plague at Osaka and Saseho.

Passed Assistant Surgeon Cumming reports, September 6:

Week ended August 31. Bills of health issued to 10 steamships having an aggregate personnel of 1,541 passengers and 957 crew.

The steamship *Ghazee*, for New York via Suez and oriental ports, and the steamship *Kumano Maru* were fumigated by local authorities. Twenty-five rats were found on the latter, despite the fact that she is fumigated each trip.

Since my report of last week the cholera situation in the Empire has been growing rapidly worse. Official reports from Moji show 360 cases to September 4 and 35 yesterday. Shimoneseki shows thirty-odd case. Having crossed the strait, the disease has spread through Yamaguchi prefecture, and in all there are about twenty villages infected.

The governors of the southern kens (prefectures) have instituted what amounts to local quarantines for smaller craft.

September 1 the steamship *Tagalago Maru* arrived here from Newchwang via Moji, and after passing quarantine discharged about 135 steerage, 12 intermediate, and 9 saloon passengers, who landed and scattered. The following night the freight clerk was attacked by cholera and the vessel was remanded to Nagahama. So far no cases have been found here as the result. Two vessels arrived at Osaka and Kobe with cholera, and a case has been found in Nara.

In Shanghai a severe epidemic of cholera is raging, and the shipping in particular seems to suffer. Four liners, one after the other, have been infected, in some instances saloon passengers being the victims.

The Imperial Government has ordered (put into effect August 28) a 5-day quarantine against Shanghai.

Plague is again announced in Osaka, and in the closed naval station town Saseho plague has been so persistent that 160 houses have been ordered burned.

Emigrants recommended for rejection.

Number of emigrants per steamship *Amiral Olry* recommended, August 29, 1907, for rejection: For Honolulu, 4.

Per steamship *Shinano Maru*, September 4: For Seattle, 14.

Per steamship *America Maru*, for San Francisco via Honolulu, 10.

Report from Kobé—Inspection of vessels—Smallpox—Cholera at Moji and other localities.

Acting Assistant Surgeon Ransom reports, September 3:

Week ended August 31. Supplemental bills of health granted to 8 steamers; 8 vessels, 574 members of crews, 2 cabin and 629 steerage passengers inspected, and manifests viséed for 76,311 pieces of freight; 40 crew and 663 steerage passengers bathed and disinfected. Immigration examinations made as follows:

Name of ship.	Destination.	Steerage passengers passed.	Rejections recommended.
<i>Amiral Olry</i>	Honolulu and San Francisco.....	205	56
<i>Korea</i>do.....	196	83
<i>Shawmut</i>	Seattle.....	2	16
<i>Shinano Maru</i>do.....	43	59

According to the sanitary reports published at this port, there occurred during the week 2 cases and 1 death from smallpox and 1 case of cholera (on board a local boat).

Cholera is still prevalent at Moji, where 209 cases with 114 deaths are said to have occurred since the outbreak of the disease, a little more than 2 weeks ago. The disease has spread to Shimonoseki, Asa, and Toyoro, towns near Moji, where there have been 86 cases and 48 deaths. It is supposed that the original cases were from Shanghai, as was the case in the outbreak at Nagasaki.

Cholera is also prevalent at Nagatsu-mura, where 14 cases a day are reported, and dysentery is particularly prevalent in Fukin prefecture, where 200 cases and 44 deaths have occurred, and in Hiroshima prefecture, where 566 cases and 143 deaths have been reported.

The Pacific Mail, Occidental and Oriental, and Toyo Kishen Kaisha steamships will not call at Shanghai during the continuance of the cholera epidemic at that port, which is reported to be causing more than a hundred deaths per day.

Report from Nagasaki—Quarantine against arrivals from Shanghai on account of cholera—Cholera at Moji and in vicinity.

Sanitary Inspector Bowie reports, August 30:

Owing to the presence of cholera at Shanghai, all vessels coming from that port arriving at Japanese ports are held in quarantine until five days have elapsed from the sailing from Shanghai. In the district around Moji the disease has assumed an epidemic form, and is rapidly spreading to the surrounding villages and towns. Up to date only 2 cases, both fatal, have occurred at Nagasaki.

Emigrants recommended for rejection.

August 30, 1907. Number of emigrants per steamship *America Maru* recommended for rejection, 7.

MANCHURIA.

Report from Dalny—Plague at Kaiping, Province of Kwantung, China—Quarantine and disinfection station established.

Consul Greene reported, August 13:

A case of plague has been discovered at Kaiping. A quarantine and disinfection station was opened there August 8, a surgeon having been sent from Dalny for that purpose. All passengers coming through from that station are subjected to inspection.

It was proposed to suspend the accepting of freight and passengers at Kaiping for a time, but no such action has yet been taken.

MEXICO.

Report from Salina Cruz—Inspection and fumigation of vessel.

Acting Assistant Surgeon McPherson reports, September 16:

Period September 1 to 15. The steamship *Arizonan*, of the American-Hawaiian Steamship Company, cleared from this port September 14, bound for Santiago, Cal., and was fumigated throughout while in the roadstead outside this harbor.

Reports from Veracruz—Inspection and fumigation of vessels.

Acting Assistant Surgeon Frick reports, September 2 and 17:

Week ended August 31: August 25. Fumigated the Norwegian steamship *City of Mexico*, bound for New Orleans via Tampico, with 23 in the crew and 2 passengers; vessel sails in the remainder of an American cargo, with time of last exposure at 7.40 a. m.

August 26. Inspected the Spanish steamship *Buenos Aires*, bound for New York via Habana, with 133 in the crew, 47 cabin and 43 steerage passengers; vessel sails in general cargo. Inspected the British steamship *Antillian*, bound for New Orleans via Coatzacoalcas, with 53 in the crew and 5 passengers; vessel sails in the remainder of a European cargo.

August 29. Inspected the American steamship *Merida*, bound for New York via Progreso and Habana, with 129 in the crew, 92 cabin and 18 steerage passengers; vessel sails in general cargo. Fumigated the Mexican steamship *El Comodoro*, bound for Mobile, with 18 in the crew; vessel sails in ballast, with time of last exposure at 2.35 p. m. Fumigated the British steamship *Orion*, bound for Galveston, with 35 in the crew; vessel sails in a small general cargo, with time of last exposure at 2.05 p. m.

August 31. Fumigated the American schooner *Susie B. Dantzer*, bound for Pascagoula, with 7 in the crew, with time of last exposure at 8.15 a. m. Fumigated the British steamship *Northwaite*, bound for Mobile, with 27 in the crew; vessel sails in ballast, with time of last exposure at 9.20 a. m. Fumigated the German steamship *Oden-*

wall, bound for Fernandina, with 52 in the crew; vessel sails in ballast, with time of last exposure at 3.25 p. m.

No quarantinable disease was reported during the week.

Week ended September 16, 1907: September 8. Fumigated the British steamship *Katherine* bound for Pensacola, with 24 in the crew; vessel sails in ballast, with time of last exposure 7.20 a. m. Inspected the British steamship *Cayo Largo*, bound for Galveston, via Coatzacoalcos, with 40 in the crew; vessel sails in the remainder of a European general cargo.

September 11. Fumigated the British steamship *Westland*, bound for Gulfport, with 25 in the crew; vessel sails in ballast, with time of last exposure 2.35 p. m.

September 12. Inspected the American steamship *Mexico*, bound for New York via Progreso and Habana, with 129 in the crew, 77 cabin and 9 steerage passengers; vessel sails in a general cargo. Fumigated the Norwegian steamship *City of Tampico* bound for New Orleans, with 19 in the crew and 8 cabin passengers; vessel sails in ballast, with time of last exposure 2.30 p. m.

September 13. Fumigated the British steamship *Civilian*, bound for Galveston, with 16 European and 67 lascars in the crew; vessel sails in a partial cargo of cotton-seed oil cake, from Mexico to Liverpool, with time of last exposure at 4 p. m. Fumigated the Danish steamship *Nordfarer*, bound for Savannah, Ga., calling at Key West, with 26 in the crew; vessel sails in ballast, with time of last exposure at 4.56 p. m.

September 14. Fumigated the British steamship *Miramichi* bound for Galveston, with 27 in the crew; vessel sails in ballast, with time of last exposure at 4.30 p. m. Inspected the British steamship *Glan-ton*, from Colon and Laguna, Mexico, calling here for fuel, water, and provisions, bound for Norfolk via Mexican ports to the north of here for the purpose of completing her cargo of hard-wood logs; there were 26 men in crew. Inspected the British steamship *Cedar Groove*, bound for New Orleans via Coatzacoalcos and Progreso, with 24 in the crew; vessel sails in the remainder of an American cargo.

No quarantinable disease reported during the week.

NICARAGUA.

Reports from Bluefields, fruit port.

Acting Assistant Surgeon Layton reports as follows:

Week ended September 14, 1907. Present officially estimated population, 2,800. General sanitary condition of this port and the surrounding country during the week, good. Rains continue excessive. Mosquitoes are very numerous and constantly present.

Bill of health issued to the following-named vessel:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Sept. 8	Corinto.....	New Orleans	26	2	0

PANAMA.

Report from Colon—Smallpox on steamship Atrato.

Acting Assistant Surgeon Scales reports, September 11:

On September 9 the Royal Mail steamship *Atrato* from Vigo, Spain, arrived with one case of smallpox on board. The steamship *Atrato* left Vigo on August 23 with 232 contract laborers for Colon and stopped en route at Barbados, Trinidad, La Guaira, Savanilla, and Cartagena. On September 5 H. L., aged 43, a laborer, complained to the ship's surgeon, and on the 6th a papular rash, most marked on forehead and around the vaccination on arm, developed. He was immediately isolated. He had been successfully vaccinated on August 26.

On arrival here the patient was removed to quarantine and isolated; the personnel and all passengers, not previously vaccinated, were vaccinated; the contract laborers and steerage passengers detained in quarantine; and the third-class accommodations fumigated with 5 per cent sulphur dioxide gas, the bedding burned, and compartment washed with bichloride of mercury, 1:500.

Report from Bocas del Toro, fruit port.

Acting Assistant Surgeon Osterhout reports as follows:

Week ended September 15, 1907. Present officially estimated population, 4,954. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Sept. 9	Imperator	New Orleans via Colon.	20	5	0	0
11	Helen	Mobile	22	0	0	0
11	Fort Gaines	do	22	0	0	0
12	Imperator	New Orleans	20	0	0	0

PERU.

Reports from Callao—Inspection of vessels—Smallpox at Lima—Plague in Peru—Reappearance of plague at Viru.

Assistant Surgeon Wightman reports, August 24 and September 4: Week ended August 24. Vessels dispatched as follows:

August 19. The British steamship *Chipana* for New York, with general cargo and a crew of 68, none from this port.

August 20. The American schooner *Marconi* for Sydney, New South Wales, and possibly for San Francisco, Cal., in ballast, with a crew of 11.

August 21. The British steamship *Panama* for Ancon, Canal Zone, with general cargo and a total personnel of 223, of whom 1 member of crew and 57 cabin and 22 steerage passengers were from this port.

August 24. The British steamship *Peru* for Ancon, Canal Zone, with general cargo and a total personnel of 141, of whom 12 members of crew and 21 cabin and 11 steerage passengers were from this port.

Bills of health from Chile report smallpox as still present in Iquique.

Week ended August 31. Vessels were dispatched as follows:

August 31. The Chilean steamship *Palena* for Ancon, Canal Zone, with a general cargo and a total personnel of 178, of whom 4 members of crew and 50 cabin and 39 steerage passengers were from this port; the British steamship *Fitz Clarence* for San Francisco, Cal., with general cargo and a total personnel of 38, of whom 2 members of crew and 1 cabin passenger were from this port.

Smallpox has become serious in Lima recently, but the actual number of cases can not be obtained. The disease has spread to neighboring towns to a certain extent. One death from that cause occurred in this port August 23. The Direccion de Salubridad is attempting to enforce general vaccination.

The following is the latest report on plague in Peru received from the director de salubridad:

Locality.	Cases August 16.	New.	Recovered.	Died.	Remaining August 21.
Lima	1				1
Chosica	1				1
Callao	3		1		2
Trujillo	14		1		13
Chiclayo	2				2
Piura	2	1		1	2
Viru		9		7	2

A new case occurred in Callao September 2.

The following is extracted from a letter from Consular Agent Caldicott at Salaverry, dated August 29:

"* * * There has been a reappearance of plague in Viru, a village about 25 miles south of Salaverry, and from information received it is in a serious form, 'pneumonia pestoso.' There have been several deaths, and some of the people have tried to enter Salaverry; one case being brought in last week died the same day. * * * Every precaution is being taken to prevent infection here, and all doubtful localities are being disinfected. * * * There has been a revival of plague in Huanchaco, 12 miles north of Trujillo, there being to-day 31 cases in the lazaretto, mostly from districts outside Trujillo."

Bills of health from Chile only report smallpox as still present in Iquique.

PHILIPPINE ISLANDS.

Reports from Manila—Cholera—Inspection of vessels.

Chief Quarantine Officer Heiser reports, August 16 and 20:

Week ended August 10, 1907. Quarantinable disease reported for the city of Manila: Cholera, 3 cases, 2 deaths.

Cholera.—August 5, 1907, 2 cases of cholera were reported. One was found dead in the district of Malate, and the other was a Japanese fisherman, who was found in the district of Tondo. These

2 districts are at opposite sides of the city, and the places where the cases were found are at least 3 miles apart. So far as could be ascertained no connection was shown between these cases. August 9 a case was found dead in another section of Tondo about a mile from the preceding case. The source of the infection is not known. Two of the cases occurred in the same houses in which a number of cases occurred last year.

The entire lack of any tendency of the disease to spread, and the fact that the death rate for the city during the past few weeks has been below normal, fully justified the policy which was adopted about a month ago in not placing any outgoing quarantine detention upon vessels.

During the week consular bills of health were issued as follows:

August 5, the American steamship *Shawmut*, with 142 crew and 44 passengers, was granted a bill of health for Tacoma, after inspection of personnel and cargo.

August 7, the British steamship *Drumcliffe*, with 31 crew, coal laden, en route from New Castle to Zamboanga, was granted a supplemental bill of health.

August 8, the British steamship *Chingtu*, with 69 crew and 43 passengers, en route from Yokohama to Zamboanga, was granted a supplemental bill of health.

August 10, the British steamship *Wray Castle*, with 47 crew, en route to Boston and New York via Cebu, was granted a supplemental bill of health. Personnel inspected at the hour of sailing. Cargo inspected while loading and manifests viséed.

Week ended August 17, 1907. No quarantinable diseases were reported for the city of Manila. The last case of cholera was reported 8 days ago.

During the week consular bills of health were issued as follows:

August 15, 1907, the United States army transport *Sherman*, with 193 crew and 1,186 passengers, was granted a consular bill of health for San Francisco via Nagasaki and Honolulu. Crew and steerage passengers were bathed and their effects and baggage disinfected. Cargo and baggage inspected and labeled or certified. All persons on board inspected on board at the hour of sailing.

Quarantine transactions of the Service in the Philippine Islands during the month of July, 1907.

RUSSIA.

Report from St. Petersburg—Summary of cholera.

The following is received from Minister Riddle, under date of September 7:

Notice.

The first department of the imperial ministry for foreign affairs has the honor to state that according to a communication from the commission instituted by royal order for action against the spread of plague, 282 cases of cholera have been reported in Russia from July 14 to August 20, 1907, distributed as follows:

	Cases.	Deaths.
City of Samara.....	178	71
Government of Samara.....	15	12
Government of Astrakhan.....	80	32
Government of Simbirsk.....	7	3
Government of Iaroslavl.....	2	2

WEST INDIES.

Reports from Bridgetown, Barbados—Inspection of vessels—Sanitary conditions.

Acting Assistant Surgeon Urquhart reports, September 7 and 14:

Bills of health issued week ended September 7.

Name of ship.	Port of departure.	Destination.
Foston	Campana	Gulfport.
Huttonwood	Rio de Janeiro	Norfolk.
Atrato	Southampton	New York.
Castillian Prince	Santos	New Orleans.
Corrientes	do	New York.
Elakoon	Para	Pensacola.
Cearense	Manaos	New York.
Director	Liverpool	Galveston.
Virgil	Rio de Janeiro	New York.
Industry	do	Galveston.
Hyades	Rosario	New York.

Sanitary condition of vessels, cargoes, crews, and passengers, good. The *Foston*, *Huttonwood*, *Castillian Prince*, and *Industry* were fumigated. Total members of crews, 476; passengers, 183. One hundred and thirty-five passengers were for intermediate ports, via the "Spanish Main"—Trinidad and Panama.

No quarantinable diseases reported this week for this port or island.

Bills of health issued week ended September 14.

Name of ship.	Port of departure.	Destination.
Kirnwood	Buenos Aires	Pensacola.
Crown of Aragon	Glasgow	New Orleans.
Parima	Guadaloupe	New York.
Texan	Liverpool	Galveston.
Siegmund	Rio de Janeiro	New York.
Canning	Santos, via Bahia	Do.

Sanitary condition of vessels, cargoes, crews, and passengers, good. The steamship *Kirnwood* was fumigated here. Total members of crews, 253; passengers, 63.

No quarantinable diseases were reported for the week. No cases of yellow fever or other quarantinable disease being reported from Trinidad for twenty-one days, quarantine is no longer in force against that place.

Report from Castries, St. Lucia Island—Sanitary conditions.

Acting Assistant Surgeon Maylie reports, September 16:

Week ended September 14, 1907. Sanitary condition of this port and vicinity, good; no quarantinable diseases exist.

FOREIGN AND INSULAR STATISTICAL REPORTS OF COUNTRIES AND CITIES—
UNTABULATED.

ALGERIA—*Algiers*.—Month of August, 1907. Estimated population, 155,000. Total number of deaths, 312, including 4 from typhus fever, 10 from measles, 6 from smallpox, 2 from cholera, and 54 from tuberculosis.

ARGENTINA—*Rosario de Santa Fe*.—Month of July, 1907. Estimated population, 151,727. Total number of deaths, 271, including diphtheria 2, enteric fever 6, measles 1, smallpox 6, and 36 from tuberculosis.

BRAZIL—*São Paulo, Santos, and Campinas*.—Week ended August 11, 1907. Estimated population, 300,000. Total number of deaths, 151, including whooping cough 1, measles 1, and 11 from tuberculosis.

CUBA—*Habana*.—Month of August, 1907. Estimated population, 280,000. Total number of deaths 534, including diphtheria 5, enteric fever 19, measles 1, whooping cough 6, leprosy 3, and 92 from tuberculosis.

FRANCE—*Cherbourg*.—Month of August, 1907. Estimated population, 43,948. Total number of deaths, 54, including enteric fever 2, and 8 from tuberculosis.

Marseille.—Month of August, 1907. Estimated population, 517,498. Total number of deaths, 896, including diphtheria 1, enteric fever 61, measles 11, scarlet fever 3, smallpox 35, whooping cough 2, and 119 from tuberculosis.

GERMANY—*Weimar*.—Month of August, 1907. Estimated population, 31,127. Total number of deaths, 35, including diphtheria 1, and 1 from enteric fever.

GREAT BRITAIN—*England and Wales*.—The deaths registered in 76 great towns in England and Wales during the week ended September 7, 1907, correspond to an annual rate of 12.3 per 1,000 of population, which is estimated at 16,024,458.

London.—One thousand and eighty deaths were registered during the week, including measles 25, scarlet fever 13, diphtheria 13, enteric fever 3, whooping cough 20, tuberculosis 168, and 61 from diarrhea. The deaths from all causes correspond to an annual rate of 11.8 per 1,000. In Greater London 1,492 deaths were registered. In the "outer ring" the deaths included 5 from measles, 2 from diphtheria, 1 from scarlet fever, and 9 from whooping cough.

Ireland.—The average annual death rate represented by the deaths registered during the week ended September 7, 1907, in the 21 principal town districts of Ireland was 16.8 per 1,000 of the population, which is estimated at 1,117,547. The lowest rate was recorded in Waterford, viz, 3.9, and the highest in Galway, viz, 35 per 1,000. In Dublin and suburbs 159 deaths were registered, including scarlet

fever 1, typhus fever 1, measles 3, whooping cough 2, and 35 from tuberculosis.

Scotland.—The deaths registered in 8 principal towns during the week ended September 7, 1907, correspond to an annual rate of 13.6 per 1,000 of the population, which is estimated at 1,812,171. The highest rate of mortality was recorded in Glasgow, viz, 14.8, and the lowest in Perth, viz, 10.5 per 1,000. The aggregate number of deaths registered from all causes was 471, including diphtheria 1, enteric fever 2, measles 1, scarlet fever 1, and 22 from whooping cough.

JAPAN—Formosa.—Four weeks ended August 24, 1907. Estimated population, 3,050,004. Total number of deaths not reported. One death from diphtheria, 9 from enteric fever, and 27 from plague.

MALTA—Two weeks ended September 7, 1907. Estimated population, 206,689. Total number of deaths, 186, including diphtheria 1, enteric fever 1, smallpox 1, and 14 from tuberculosis.

SPAIN—Barcelona.—Ten days ended September 10, 1907. Estimated population, 600,000. Total number of deaths, 311, including diphtheria 3, enteric fever 23, measles 2, smallpox 2, and 21 from tuberculosis.

Cadiz.—Month of August, 1907. Estimated population, 69,382. Total number of deaths, 130, including enteric fever 3, whooping cough 1, smallpox 5, and 19 from tuberculosis.

Serille.—Month of August, 1907. Estimated population, 148,315. Total number of deaths, 380, including diphtheria 2, enteric fever 3, scarlet fever 5, whooping cough 3, smallpox 3, and 77 from tuberculosis.

WEST INDIES—Curaçao.—Two weeks ended September 13, 1907. Estimated population, 31,600. Total number of deaths, 7. No deaths from contagious diseases reported.

Cholera, yellow fever, plague, and smallpox from June 28 to October 4, 1907.

[Reports received by the Surgeon-General, Public Health and Marine-Hospital Service, from American consuls, through the Department of State and from other sources.]

[For reports received from December 28, 1906, to June 28, 1907, see PUBLIC HEALTH REPORTS for June 28, 1907.]

[NOTE.—In accordance with custom, the tables of epidemic diseases are terminated semiannually and new tables begun.]
