Rats found dead .....	123
Rats trapped .....	2, 447
Bounty rats .....	2, 600
Poisons placed .....	18, 806
Contacts inspected .....	22
Ships inspected .....	44

*Report from Los Angeles—Service officers to fumigate vessels and perform other sanitary duties.*

Surgeon Brooks reports, October 26:

At a recent visit of Dr. N. K. Foster, secretary of the State board of health of California, to this city, the officers at this station, myself, and the acting assistant surgeons at Santa Barbara, Santa Monica, and San Pedro were appointed by Doctor Foster "agents of the California State board of health for the purpose of fumigating vessels and craft and controlling their movements while at the dock, so

as to prevent the transfer of vermin from vessels to land or land to vessels and for the performance of other sanitary duties." Doctor Foster desired to make these appointments in order to expedite business in case it was necessary to take action against any vessel for violation of present intrastate quarantine regulations.

*Report from Seattle, Wash.—No further cases of plague.*

Passed Assistant Surgeon Cofer reports:

November 5. No further developments in plague. Will start work Thursday with 4 acting assistants and 45 laborers; latter to be increased.

*Report from Santa Rosa Quarantine, Pensacola, Fla.—Malarial fever on steamship Hazlewood from Tampico.*

Acting Assistant Surgeon White reports, October 31:

The British steamship *Hazlewood*, 4 days out from Tampico, arrived at this station late on the 29th instant, with 5 of the crew taken ill during the passage with fever, accompanied with high temperatures. Since arrival, 3 more of the crew have sickened, having high temperatures, and to-day 2 more have reported sick, in each case accompanied with high temperatures. Seven of the cases have improved and the men have returned to duty, while the captain and 2 of the crew are still sick.

The vessel has been made clean and has been thoroughly fumigated. The water tanks have been cleaned and fresh water has been ordered from Pensacola.

Microscopical examination will be made from blood smears.

STATISTICAL REPORTS OF MORBIDITY AND MORTALITY, STATES AND CITIES  
OF THE UNITED STATES—UNTABULATED.

FLORIDA.—Reports to the State board of health for the week ended October 26, 1907, show as follows: Diphtheria—*Jacksonville*, 1 case; *St. Augustine*, 2 cases. Enteric fever—*Jacksonville*, 2 cases; *Clearwater*, 1 case. Tuberculosis—*Jacksonville*, 3 cases; *Tallahassee*, 1 case.

INDIANA—*Marion*.—Month of October, 1907. Estimated population, 27,000. Total number of deaths, 19, including enteric fever 1 and 1 from tuberculosis. Cases: Enteric fever, 8, and tuberculosis 1.

## FOREIGN AND INSULAR.

### CURRENT QUARANTINE MEASURES.

[From the Veröffentlichungen des Kaiserlichen Gesundheitsamtes, Berlin, October 16, 1907.]

#### CHOLERA.

**BULGARIA.**—September 17: Arrivals from the provinces of Astrachan, Saratow, Simbirsk, Ufa, Kasan, Nizhni-Novgorod, and Stavropol, and the districts of the Don and Daghestan are subject to medical inspection and disinfection of baggage, and remain five days under medical supervision.

**EGYPT.**—October 3: Arrivals from Novorossysk are subject to requirements of cholera regulations. Special precautionary measures to be applied to Russian pilgrims to Mekka.

**JAPAN.**—August 27: Shanghai district declared cholera infected; arrivals held and disinfected. Vessels destined for Kuchihotsu are remanded to the quarantine station near Nagasaki and similarly treated. Passengers of the first and second class, if not found suspicious after medical inspection, may go on shore; also ships' officers.

**RUSSIA.**—October 9: The city of Rostow, on the Don, and the districts of Semipalatinsk and Pavlodar, in the province of Semipalatinsk are declared cholera infected, and the government of Jenisseisk, the district of Lepinsk in Semiretschje Province, and the Siberian railroad for its entire length are declared threatened with cholera.

**SPAIN.**—October 2: Epidemic cholera declared to exist at Shanghai.

#### PLAGUE.

**EGYPT.**—October 3: Arrivals from Oran subject to plague regulations at ports.

**FRANCE.**—October 1: Oran declared plague infected from September 29.

**HOLLAND.**—October 9: Oran declared plague infected; five days' quarantine.

**RUSSIA.**—October 1: The stations of Charanor and Sharassun and the junction on the branch line of the Transbaikal railroad and the settlement of Nadarowski, in district Akschinsk, declared plague infected, and the Manchurian branch line of the Transbaikal railroad threatened with plague. October 9: Manchuria station, on the Chinese Eastern Railroad, declared threatened with plague.

SPAIN.—October 1: Plague case declared at Oran. October 3: Pleasure boats, fisher boats, and small coast craft leaving Oran, and all vessels more or less regularly engaged in traffic between Oran and the Peninsular, the Balearic and Canary Islands, and Spanish possessions in Africa must have sanitary police certificates signed by the respective Spanish consuls. October 7: Importation of rags, soiled clothing, mattresses, pillows and covers, soiled laundry, and old bedsteads prohibited unless forming part of passengers' baggage or being goods in transit.

## AFRICA.

*Report from Cape Colony—Plague at King Williams Town—Examination of rodents for plague infection.*

The following is received from the medical officer of health for the colony under date of September 23:

Week ended September 21:

*Cathcart.*—No case of plague was discovered during the week.

At the plague hospital 1 native male was discharged, leaving 2 cases under treatment.

*King Williams Town.*—No case of plague was discovered during the week.

Ninety-eight rats (including 49 found dead) and 55 mice (including 13 found dead) were examined, of which 35 rats and 8 mice proved to be probably plague infected. Five rats and 5 mice remain under bacteriological examination.

## BRAZIL.

*Report from Rio de Janeiro—Inspection of vessels—Mortality—Plague, smallpox, and yellow fever.*

Acting Assistant Surgeon Stewart reports, October 2: Week ended September 29. The following-named vessels were issued bills of health and were inspected, with the exception of the last-named vessel: September 23, the Italian ship *Warrior*, for Pensacola, Fla., in stone ballast, with no passengers, and with 3 new members of the crew taken on in this port. September 28, the British steamship *Welsh Prince*, for New Orleans, with a cargo of coffee, no passengers, and no change in the personnel of the crew. On the same date the British steamship *Chaucer*, for New Orleans, with a cargo of coffee, no passengers, and no change in the personnel, and the Spanish bark *San José*, for Apalachicola, Fla., in stone ballast, no passengers, and no change in the crew personnel. No other vessels left this port for United States ports during the week.

*Mortality report of City of Rio de Janeiro.*—Week ended September 29. Total deaths during week, 233. Yellow fever caused no deaths nor were any cases reported during the week. Bubonic plague caused no deaths, but 1 new case was reported. Smallpox caused 3 deaths, with 7 new reported cases. At the close of the week there were, in the Hospital São Sebastião, no cases of yellow fever, 10 cases of smallpox, and 3 cases of plague under treatment.

## BRITISH HONDURAS.

*Report from Belize, fruit port.*

Acting Assistant Surgeon Mengis reports as follows:

Week ended October 24. Present officially estimated population, 8,500. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 18	Anselm.....	New Orleans.....	44	7	6	0
18	Belize.....	Mobile.....	18	0	2	0
23	Rendsburg.....	New Orleans.....	19	0	0	0

Aliens sailing for the United States, 4.

## COLOMBIA.

*Reports from Cartagena—Inspection of vessels—Sanitary conditions—Summary for the year ended June 30, 1907—Smallpox and yellow fever.*

Acting Assistant Surgeon Jacobs reports, October 14 and 16:

Week ended October 15. Bills of health issued, United States 2, Panama 1; passengers from this port, 15; passengers in transit, 128; members of crews, 186.

No quarantinable disease reported during the week.

Health conditions in Cartagena and surrounding country, good.

The records of deaths in Cartagena for the year ended June 30, 1907, show that although smallpox has been present, no deaths have been reported. An isolation hospital was in existence up to September, 1907, when it was closed. Yellow fever was also present among the troops during August, 1906.

## COSTA RICA.

*Report from Limon, fruit port.*

Acting Assistant Surgeon Goodman reports, as follows: Week ended October 20. Estimated population, 6,000. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 14	Prinz Joachim.....	New York.....	152	66	14	0
15	Chirripo.....	do.....	58	5	0	0
15	Limon.....	Boston.....	47	10	0	0

19	Belvernon.....	Mobile.....	20	3	0	0
20	Venus.....	New Orleans.....	26	1	0	0

Three bills of health for Panaman ports viséed.

## CUBA.

*Reports from Cienfuegos—Inspection and fumigation of vessels—Yellow fever—Leprosy.*

Acting Assistant Surgeon Marsillan reports, October 28 and 31:

*Week ended October 26.*

Vessels inspected, fumigated, and bills of health issued.....	2
Members of crews inspected.....	92
Passengers inspected landed at this port: 1 cabin and 6 steerage.....	7
Immune certificates issued.....	1

October 21, the German steamship *Heidelberg*, from Manzanillo, Cuba, bound for New Orleans, and the Spanish steamship *Martin Saenz*, from Habana, destined to Savannah, were fumigated by this office.

The general sanitary condition of this city is the same as previously stated. There are only 2 cases of yellow fever under treatment. Leprosy is present.

During this week yellow fever caused no deaths, nor were there any cases of that disease reported in the city and surrounding country.

October 31: One case of yellow fever in the surrounding country, ended in death.

November 4: Last case to date died yesterday.

*Reports from Habana—Inspection and fumigation of vessels—Yellow fever—Yellow fever in Camaguey Province.*

Passed Assistant Surgeon Amesse reports, October 28 and 31, and November 1, 4, and 5:

*Week ended October 26.*

Vessels inspected and bills of health issued.....	18
Vessels not inspected and bills of health issued.....	7
Members of crews of outgoing vessels inspected.....	719
Members of crews of outgoing vessels not inspected.....	202
Passengers of outgoing vessels inspected.....	302
Passengers of outgoing vessels not inspected.....	13
Certificates of immunity to yellow fever issued.....	26
Persons entering Triscornia for observation prior to sailing.....	76
Persons transferred from Triscornia to vessels.....	45
Vessels fumigated prior to sailing.....	10

During the week 2 deaths from yellow fever were reported from the province of Habana. These cases appeared in a Cuban family at Jaruco near Campo Florido, and were of unusual severity, native children not commonly succumbing to this disease.

On the whole, however, the situation shows improvement. At the close of the week there were but 3 cases under treatment in the island of Cuba, 2 of these being isolated at hospitals in Habana.

October 31: One case yellow fever, Guines, Habana Province.

November 1: One case of yellow fever at Habana, Spaniard living corner Concordia and Marquez Gonzalez street, taken sick October 27; isolated at La Benefica Hospital.

November 4: Case at Guines resulted in death to-day.

November 5: Fatal case yellow fever Ciego de Avilla, Province of Camaguey. American troops at that point removed to Ceballos. Doctor Tomasson and sanitary brigade ordered to proceed from Cienfuegos.

*Reports from Matanzas—Inspection and fumigation of vessels—Yellow fever.*

Acting Assistant Surgeon Nuñez reports, October 22 and 28 and November 2: Week ended October 19. No transactions. Week ended October 26. Bills of health issued to 6 vessels leaving for ports in the United States, of which 2 were fumigated when about to leave this port. These were the Norwegian steamships *Ole Bull* and *Gotthard*, the former with 20 in the crew, no passengers, bound for Mobile, and the latter having a crew of 20 and 5 passengers in transit, taken on in Habana, destined for Galveston. There was no sickness on board either vessel up to the time of its inspection.

Since October 18, when one case of yellow fever was reported at Alacranes, no cases have been reported within this province.

November 2: Yellow fever case, originating in this city, died this morning at the Civil Hospital.

Yellow fever reported October 28 at Alacranes died yesterday.

*Report from Santiago—Inspection and fumigation of vessels.*

Acting Assistant Surgeon Wilson reports, October 22: Week ended October 19. Bills of health issued to 4 vessels bound for the United States and its dependencies. The Cuban steamship, *Maria Herrera*, bound for San Juan, P. R., via Santo Domingo, was fumigated to kill mosquitoes. No quarantinable disease has been reported.

ECUADOR.

*Report from Guayaquil—Summary for month of September, 1907—Inspection and fumigation of vessels—Smallpox and yellow fever.*

Passed Assistant Surgeon Lloyd reports, October 12: There were 2 deaths from yellow fever in Guayaquil during the month of September, and 4 from smallpox.

Nine vessels were fumigated during the month, and 6 persons were vaccinated. The smallpox situation in the interior is somewhat improved.

GUATEMALA.

*Report from Puerto Barrios—Inspection of vessels.*

Acting Assistant Surgeon Wailes reports as follows:

Week ended October 23. Present officially estimated population, 3,500. General sanitary condition of this port and the surrounding country during the week, good. No quarantinable disease.

Bill of health issued to the following-named vessel:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 23	Preston.....	New Orleans.....	36	5	0	0

## HAWAII.

*Report from Honolulu—Examination of rats for plague infection.*

Passed Assistant Surgeon Currie reports that during the week ended October 12, 82 rats were examined bacteriologically at the plague laboratory of the Service at Honolulu. Plague infection was not proven in any of the rats examined.

*Rat precautions on vessels leaving Hilo.*

On account of plague condition at Olaa, the chief quarantine officer at Honolulu was authorized by the Bureau, November 1, 1907, to impose rat precautions on vessels leaving Hilo for the mainland.

## HONDURAS.

*Report from Ceiba, fruit port.*

Acting Assistant Surgeon Reynolds reports as follows:

Week ended October 20, 1907. Present officially estimated population, 6,500. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 19	Viator .....	17	0	0	0
19	Colombia .....	18	0	0	0
20	Rosina .....	34	1	0	0

*Report from Puerto Cortez, fruit port—No antimosquito work.*

Acting Assistant Surgeon Ames reports as follows:

Week ended October 19. Estimated population, 2,400. General sanitary condition of this port and the surrounding country during the week, good. No antimosquito work.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 17	Anselm .....	44	1	0	0
17	Helen .....	22	0	0	0
17	Hiram .....	15	1	0	0
17	Rensburg .....	24	0	0	0
19	Banan .....	17	0	0	0

*Report from Tela—Inspection of vessels.*

Acting Assistant Surgeon Roe reports as follows:

Week ended October 19, 1907. Present officially estimated population, about 1,250. General sanitary condition of this port and the surrounding country during the week, good.

## Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 18	Katie .....	Mobile .....	23	0	0	0
18	Rosina .....	New Orleans .....	34	0	0	0
18	Columbia .....	Mobile .....	18	0	0	0

## INDIA.

*Report from Calcutta—Transactions of Service—Cholera, plague, and smallpox—Plague in India and Bengal.*

Acting Assistant Surgeon Eakins reports, October 3: During the week ended September 28 a bill of health was issued to the steamship *Manica*, bound for Boston and New York, with a total crew of 62. The usual precautions were taken, holds fumigated, rat guards placed on wharf lines, and Lascars' effects disinfected.

Week ended September 21: Thirty-one deaths from cholera, 11 deaths from plague, and 2 deaths from smallpox in Calcutta.

In Bengal and India, week ended September 14: One hundred and forty-one cases and 86 deaths and 9,754 cases and 7,080 deaths from plague, respectively.

## ITALY.

*Reports from Naples—Inspection of vessels—Emigrants recommended for rejection—Smallpox in Italy.*

Passed Assistant Surgeon McLaughlin reports, September 30 and October 7 and 14: Week ended September 28, vessels inspected at Naples and Palermo:

## NAPLES.

Week ended October 10. Cases: Pianoro (Bologna), 2; Argenta (Ferrare), 4; Gessopalena (Chieti), 1; Sparanise (Caserta), 18; San Martino Valle Condina (Avellino), 1; Piebragalla, 6; Rotonda, 3; S. Costantino Albanese (Potenza), 1; Mammola, 98; Cinquefonti (Reggio Calabria), 1; Alcamo (Trapani), 4.

## MEXICO.

*Report from City of Mexico—Instructions to Mexican consuls relative to Asiatic immigrants.*

The following is received from Consul-General Gottschalk, under date of October 17:

The foreign office of Mexico sent out under date of October 8 a circular instruction to all Mexican consuls abroad stating that by reason of the frequency with which Asiatic immigrants bring trachoma into the country there has been passed an order prohibiting immigrants afflicted with this disease to land within the Republic.

*Report from Salina Cruz—Inspection and fumigation of vessels.*

Acting Assistant Surgeon McPherson reports, October 16:

During the period October 1–15, inclusive, 2 vessels cleared from this port for the United States—the steamship *Mexican*, of the American-Hawaiian Steamship Company, which left this port October 6 for San Diego, Cal., and the steamship *Nebraskan*, of the same company, which had had to put back to this port for repairs, and left October 8 for San Francisco, Cal.

Both vessels were fumigated throughout while in the roadstead outside the harbor.

*Report from Veracruz—Inspection and fumigation of vessels.*

Acting Assistant Surgeon Frick reports, October 21: Week ended October 19.

October 13. Fumigated the British steamship *Wearside*, bound for Mobile, with 26 in the crew; vessel sails in ballast with time of last exposure at 7.05 a. m.

October 16. Fumigated the German steamship *Schaumberg*, bound for Galveston, with 45 in the crew; vessel sails in ballast with time of last exposure at 7.30 a. m. Inspected the British steamship *Cedar Grove*, bound for Texas City, Tex., via Coatzacoalcos and Progreso, with 23 in the crew; vessel sails in the remainder of an American cargo.

October 17. Inspected the German steamship *Mara Kolb*, bound for a port in the United States via Morro Castle, Habana, with 22 in the crew; vessel sails in ballast. Fumigated the Norwegian steamship *Nor*, bound for New Orleans, with 20 in the crew and 2 passengers; vessel sails in a general cargo, with about 500 packages of fruit; time of last exposure 12.30. Inspected the American steamship *Monterey*, bound for New York via Progreso and Habana, with 98 in the crew, 61 cabin and 2 steerage passengers; vessel sails in general cargo.

October 18. Inspected the Mexican steamship *Sonora*, bound for New Orleans via Mexican ports, with 28 in the crew; vessel sails in ballast.

Inspected the German steamship *Okahandja*, bound for New Orleans via Progreso, with 29 in the crew; vessel sails in the remainder of a European cargo.

October 19. Fumigated the British steamship *Harmonic*, bound for Pensacola; vessel sails in ballast with time of last exposure at 9.15 a. m.

No quarantinable disease was reported during the week.

## PANAMA.

*Report from Bocas del Toro, fruit port.*

Acting Assistant Surgeon Osterhout reports as follows:

Week ended October 20. Present officially estimated population, 4,954. General sanitary condition of this port and the surrounding country during the week, good.

## Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 16	Fort Morgan.....	Mobile.....	23	2	0	0
16	Haakon VII.....	New Orleans.....	21	0	1	0
19	Appomattox.....	do.....	44	2	0	0

## PERU.

*Report from Callao—Inspection and fumigation of vessels—Smallpox at Lima—Plague in Peru.*

Assistant Surgeon Wightman reports, October 7: Week ended October 5. Vessels dispatched as follows:

The British steamship *Quillota*, October 5, for Ancon, Canal Zone, with general cargo and a total personnel of 261, of whom 19 members of crew, 90 cabin, and 57 steerage passengers were from this port. The British steamship *Dalblair*, October 5, for New York, with ores and a crew of 56, none from this port. The *Quillota* was fumigated before departure. The *Dalblair* was fumigated on arrival by the Peruvian authorities and dispatched without further fumigation.

Smallpox continues in Lima. October 3 there were 43 cases there in the smallpox hospital. During the month of September 53 houses were disinfected in Lima for that disease and 15 on account of plague or the finding of dead rodents. During the same month 5 houses were disinfected in Callao for plague. No case of smallpox has been reported recently in Callao.

The following is the latest report on plague in Peru received from the Director de Salubridad:

Locality.	Cases September 12.	New.	Recovered.	Died.	Remaining October 2.
Lima.....		2		1	1
Callao.....	1	10		8	3

Piura.....	1	4	?	?	2
Mollendo.....	1	1		1	1
San Pedro.....	2	3	?	?	1
Paita.....	3	6		6	3

## WEST INDIES.

*Report from Bridgetown, Barbados—Inspection and fumigation of vessels—Sanitary conditions good.*

Acting Assistant Surgeon Urquhart reports, October 10:

Week ended October 19. Bills of health issued as follows: Steamship *Parima*, from Guadeloupe to New York; steamship *Yanariva*, from Glasgow to Wilmington, N. C.; steamship *Tagus*, from Southampton to New York (via); steamship *Geneva*, from Connetable Island to New York; steamship *Byron*, from Santos to New York; steamship *Helen A. Wyman*, from Lourenço Marquez to Gulfport;

steamship *Fjord*, from Buenos Aires to Boston; steamship *Eskdale*, from Norfolk to Jacksonville; steamship *Terrence*, from Santos to New York; steamship *Culebra*, from Sparrows Point (Md.) to Ancon (Canal Zone).

Total number members of crews, 470. Total number of passengers, 216. Total number of persons, 686.

Sanitary condition of vessels, cargoes, crews, and passengers, good. Of the 166 passengers on the steamship *Tagus*, all were for intermediate ports, Spanish Main. The steamships *Yanariva* and *Eskdale* were fumigated.

The sanitary condition of this port remains good, no quarantinable diseases being reported for the week for the port or island.

FOREIGN AND INSULAR STATISTICAL REPORTS OF COUNTRIES AND CITIES—  
UNTABULATED.

ALGERIA—*Algiers*.—Month of September, 1907. Estimated population, 155,000. Total number of deaths, 256, including 4 from enteric fever, 1 from measles, 4 from smallpox, 1 from diphtheria, 1 from whooping cough, and 42 from tuberculosis.

AUSTRALIA—*New South Wales—New Castle*.—Month of August, 1907. Estimated population, 51,400. Total number of deaths, 48, including diphtheria 1, scarlet fever 1, whooping cough 2, and 4 from tuberculosis.

AZORES—*St. Michaels and St. Maria*.—Month of August, 1907. Estimated population, 127,566. Total number of deaths, 349, including diphtheria 1, enteric fever 2, whooping cough 3, and 3 from tuberculosis.

BRAZIL—*São Paulo, Santos, and Campinas*.—Week ended September 22, 1907. Estimated population, 300,000. Total number of deaths, 158, including beriberi 1, measles 2, whooping cough 1, and 19 from tuberculosis.

CANADA—*Niagara Falls*.—Month of September, 1907. Estimated population, 8,500. Total number of deaths, 7.

CUBA—*Habana*.—Month of September, 1907. Estimated population, 280,000. Total number of deaths, 478, including diphtheria 1, enteric fever 8, yellow fever 1, whooping cough 1, leprosy 3, and 94 from tuberculosis.

FRANCE—*Cannes*.—Month of June, 1907. Estimated population, 37,361. Total number of deaths, 35, including 3 from smallpox. Month of July, 1907. Total number of deaths, 37, including 1 from smallpox. Month of August, 1907. Total number of deaths, 28, including 1 from enteric fever. Month of September, 1907. Total number of deaths, 25.

*Nice*.—Month of September, 1907. Estimated population, 150,881. Total number of deaths, 169, including enteric fever 3, and 20 from tuberculosis.

GERMANY—*Weimar*.—Month of September, 1907. Estimated population, 31,127. Total number of deaths, 45, including diphtheria 1, whooping cough 1, and 2 from tuberculosis.

GREAT BRITAIN—*England and Wales*.—The deaths registered in 76 great towns in England and Wales during the week ended October 12, 1907, correspond to an annual rate of 15.7 per 1,000 of population, which is estimated at 16,024,458.

*London*.—One thousand three hundred and fifteen deaths were registered during the week, including measles 11, scarlet fever 19, diphtheria 19, enteric fever 10, whooping cough 18, tuberculosis 163, and 110 from diarrhea. The deaths from all causes correspond to an annual rate of 14.4 per 1,000. In Greater London 1,856 deaths were registered. In the "outer ring" the deaths included 1 from measles, 4 from scarlet fever, 3 from diphtheria, and 4 from whooping cough.

*Salford*.—Two weeks ended October 12, 1907. Estimated population, 236,670. Total number of deaths, 147, including diphtheria 2, scarlet fever 2, and phthisis pulmonalis 8.

*Ireland*.—The average annual death rate represented by the deaths registered during the week ended October 12, 1907, in the 21 principal town districts of Ireland was 19.8 per 1,000 of the population, which is estimated at 1,117,547. The lowest rate was recorded in Lurgan, viz, 4.4, and the highest in Queenstown, viz, 33.0 per 1,000. In Dublin and suburbs 157 deaths were registered, including diphtheria 1, measles 1, enteric fever 3, whooping cough 2, and 29 from tuberculosis.

*Scotland*.—The deaths registered in 8 principal towns during the week ended October 12, 1907, correspond to an annual rate of 13.8 per 1,000 of the population, which is estimated at 1,812,171. The highest rate of mortality was recorded in Paisley, viz, 18.8, and the lowest in Perth, viz, 7.5 per 1,000. The aggregate number of deaths registered from all causes was 479, including diphtheria 7, scarlet fever 2, typhus fever 2, enteric fever 3, measles 9, and 15 from whooping cough.

ITALY—*Genoa*.—Month of August, 1907. Estimated population, 273,011. Total number of deaths, 395, including enteric fever 6, diphtheria 1, and 48 from tuberculosis.

RUSSIA—*Riga*.—Month of July, 1907. Estimated population, 326,000. Total number of deaths, 699, including diphtheria 6, enteric fever 5, measles 9, scarlet fever 23, smallpox 3, typhus fever 1, whooping cough 1, and 59 from tuberculosis.

SPAIN—*Almeria*.—Month of September, 1907. Estimated population, 46,806. Total number of deaths, 102, including enteric fever 2, measles 3, smallpox 5, and 9 from tuberculosis.

*Barcelona*.—Ten days ended October 10, 1907. Estimated population, 600,000. Total number of deaths, 395, including diphtheria 1,

enteric fever 36, whooping cough 1, smallpox 2, and 40 from tuberculosis.

*Cádiz*.—Month of September, 1907. Estimated population, 69,382. Total number of deaths, 142, including enteric fever 2, smallpox 4, and 20 from tuberculosis.

*Huelva*.—Month of September, 1907. Estimated population, 24,000. Total number of deaths, 57, including enteric fever 1, measles 1, and 7 from tuberculosis.

TASMANIA.—Month of August, 1907. Estimated population, 180,634. Total number of deaths, 166, including enteric fever 2, diphtheria 1, and 2 from whooping cough.

*Cholera, yellow fever, plague, and smallpox from June 28 to November 8, 1907.*

[Reports received by the Surgeon-General, Public Health and Marine-Hospital Service, from American consuls, through the Department of State and from other sources.]

[For reports received from December 28, 1906, to June 28, 1907, see PUBLIC HEALTH REPORTS for June 28, 1907.]

[NOTE.—In accordance with custom, the tables of epidemic diseases are terminated semiannually and new tables begun.]
