PUBLIC HEALTH REPORTS.

VOL. XXVII.

MAY 3, 1912.

No. 18.

ORGANIZATION OF A SANITARY LEAGUE AT NORFOLK, VA.

By C. P. WERTENBAKER, Surgeon, Public Health and Marine-Hospital Service.

A sanitary league was formed by the citizens of Norfolk on March 26, 1912, with the object of improving the sanitary conditions of the city and suburbs.

The form of organization of this league differs in some respects from that usually adopted by such organizations, and as it appears to have certain advantages for effective work attention is invited to it.

For the purposes of the league the city and adjacent suburbs are divided into sanitary districts corresponding to the wards of the city, or of the suburb, when the latter is not within the city limits. For each of these districts there is a vice president who is in charge of all the work of the league in that district. He has authority to appoint committees and to inaugurate any measures that may seem desirable to carry on the work in his territory, reporting, however, to the executive council of the league.

By this arrangement each sanitary district is in a way independent, and in effect the league consists of a number of minor organizations each of which is composed of residents of their respective districts and whose work is chiefly directed to the territory with which they are most familiar and in which they have the greatest interest. It is also thought that this arrangement will stimulate a spirit of friendly rivalry between the different districts and thus develop more effective work.

The affairs of the league are conducted by an executive council consisting of the president, secretary-treasurer, one vice president at large, and one vice president for each of the sanitary districts, and four other members. This gives representation in the executive council to all the elements in the league. The council meets regularly twice each month, and more frequently if necessary.

The distinctive note struck by this league is the pledge required from the members that they will keep their premises clean, sanitary, and attractive. The following application for membership is printed on a card about the size of a postal card, but a little smaller to permit of its being inclosed in an ordinary envelope, and contains a coin-

52

May 3, 1912 642

carrier to allow a 50-cent piece (the amount of the annual dues) to be sent by mail:

Norfolk, Virginia, 1912.

To the SECRETARY,

Ward.....

Sanitary League of Norfolk, Va.

SIR: I desire to become a member of the Sanitary League of Norfolk, Va. I promise to keep my premises clean, sanitary, and as attractive as possible. I will do all that I can to improve the appearance and sanitary condition of the block in which I live. I inclose 50 cents for annual dues.

Fill out and sign this card and inclose it with 5θ cents to A. P. Pannill, secretary-treasurer, Health Office, Norfolk, Va.

The first efforts of the league have been directed to increasing the membership, and for this purpose the above card has been distributed to the officers and members, who have commenced a systematic campaign throughout the entire city to secure new members. As soon as a new member is enrolled he or she is furnished with application cards and joins in the efforts to get other members, thus creating a sort of endless chain arrangement.

It is the aim of the league to secure 10,000 members within two months. It is especially desired to induce women to become members, as the home is the special province of woman, and on her

depends its appearance and sanitary condition.

The movement has aroused great interest throughout the city and suburbs, and has received the indorsement of the board of trade and business men's association, the industrial commission, the civic department of the woman's club, and the newspapers.

The actual work of correcting insanitary and unsightly conditions in each district is to be left to the district organization, though the league, through the executive council, will give such assistance as

may be necessary.

It is proposed to have classes for the instruction of district vice presidents in the details of sanitary and beautification work, and these classes will also be open to any member of the league who may care to attend. There will also be frequent meetings of the district organizations at which the needs of the district will be discussed and measures adopted to meet them. Lectures and addresses illustrated by lantern slides will be given for the purpose of keeping up interest in the work, and to educate the members in various phases of public health and beautification work. Considerable stress will be laid on beautification work, as it is believed that it exercises a marked and beneficial effect on sanitary conditions.

As it is probable that other communities may desire to adopt the "Norfolk plan" of organization for a Sanitary League, the constitution and by-laws adopted by the Norfolk Sanitary League are herewith appended so that they will be available for other communities that may wish to use them as a model, with such modifications as

may be considered desirable in each case.

THE SANITARY LEAGUE OF NORFOLK, VA.

CONSTITUTION.

ARTICLE I.

This organization shall be known as the Sanitary League of Norfolk, Va.

ARTICLE II.

Its objects are as follows:

(a) The sanitary improvement of the city of Norfolk.

(b) The education of its members and the public generally in matters of sanitation.

(c) To eliminate preventable diseases from the city as far as practicable, and to encourage the proper care of such cases as may occur.

(d) To aid and support local, State, and national health authorities in their efforts to protect the health of the people.

(e) To accomplish the above objects:

By encouraging the sanitation and beautification of the homes of its members, and the elimination as far as possible of flies and mosquitoes.

By stimulating interest in methods for prevention of disease, and the preservation of health, by lectures, publications, and other means.

By cooperation with other organizations having similar or allied

ARTICLE III.

Meetings shall be held at such times and places as may be prescribed in the by-laws.

ARTICLE IV.

Ten members shall constitute a quorum for the transaction of business.

BY-LAWS.

ARTICLE I.—MEMBERSHIP.

Any person interested in the objects of the league may become a member after election by the executive council and the payment of 50 cents annual dues.

Sec. 2. Each member shall be entitled and is urged to wear a button bearing the words, "Sanitary League of Norfolk, Va."

ARTICLE II.—OFFICERS.

The officers of the league shall be as follows:

(a) President.

(b) As many vice presidents as may be desirable. One for each ward is thought to be a good number, but if it is preferred the city may be divided into districts with a vice president for each.

(c) Secretary treasurer.

(d) An executive council, consisting of the president, vice presidents, secretary treasurer, and four other members, shall conduct the affairs of the league and report to the league at the annual meeting. Vacancies on the executive council will be filled by the president.

May 3, 1912 644

Sec. 2. All officers shall be elected at the annual meeting, and hold office for one year, or until their successors are elected, and perform

the usual duties of their respective offices.

SEC. 3. In the event that the association shall fail to fill any offices by election, the president is authorized to fill such offices by appointment, and the officers thus appointed shall hold office until the next annual meeting, or until their successors are elected.

ARTICLE III.—COMMITTEES.

The following standing committees shall be appointed by the president: (a) Finance, (b) sanitation, (c) publicity, and such temporary committees as may be necessary.

SEC. 2. The finance committee will have charge of the work of raising funds for the league, and will also audit the books of the

treasurer.

(b) The duties of the committees on sanitation, of which there shall be one for each ward or district, to be known as ward or district committee on sanitation, to consist of three or more members, shall be to make a careful inspection of their respective wards or districts not less than once each month, noting all insanitary and unsightly conditions, and endeavoring to correct them. Frequent reports should be made by each of the district or ward sanitary committees to the executive council.

(c) The vice president of each ward or district is authorized to appoint a sanitary committee for his ward or district, and such other

committees as may be necessary.

(d) The committee on publicity shall arrange for lectures before the members of the league, prepare for publication matters of interest to the league, and in general have charge of all matters relating to publicity.

ARTICLE IV.—DISBURSEMENTS.

Disbursement of the funds of the league shall be made upon the authority of the executive council. No money shall be paid out of the treasury of the league except upon the written order of the president, and such orders, with the receipted bill, shall be held by the secretary-treasurer as vouchers for his authority for making each expenditure.

Sec. 2. The books of the treasurer shall be audited by the finance committee just before the annual meeting, and a report made to the

league.

ARTICLE V.—Times of Meetings.

The times of meetings of the league shall be determined by the executive council. The annual meeting shall be held on the first Monday in March, for the election of officers and other business.

ARTICLE VI.—AMENDMENTS.

These by-laws may be amended at any regular meeting of the league, provided that a notice of the proposed amendment is given with the call of the meeting. A majority vote is required to adopt an amendment.

UNITED STATES.

MUNICIPAL ORDINANCES, RULES, AND REGULATIONS PERTAINING TO PUBLIC HYGIENE.

[Adopted since July 1, 1911.]

DALLAS, TEX.

MILK-PRODUCTION, CARE, AND SALE.

SECTION 1. That for the purpose of promoting and obtaining for the people of the city of Dallas the production of pure and wholesome milk, and for the purpose of establishing and maintaining a standard of sanitary conditions governing dairies inside and outside of the city of Dallas, doing business within the city of Dallas, and establishing and maintaining a standard of quality of all dairy products sold in the city of Dallas, the following rules and regulations are hereby adopted:

1. Every building used for the purpose of stabling dairy cattle shall be well lighted and ventilated, and said buildings shall be provided with a floor which can be readily cleaned and drained, and shall contain not less than 400 cubic feet for each cow.

2. No water-closet, privy, cesspool, or urinal shall be located within any building, shed, or room which is used for stabling any cow or cows for dairy purposes, or which is used for the storage of milk or cream, nor shall any hog, horse, sheep, or goat be kept in any room used for such purposes.

3. Every building, shed, or room in which any cow or cows are kept for dairy purposes shall be kept clean and in good repair and shall be painted at least once in

every two years, or shall be whitewashed once every year.

4. All manure shall be removed from the building, room, or stable in which any cow or cows are kept for dairy purposes, twice each day, and the same shall not be deposited where odors therefrom can be noticed at such buildings, rooms, or stables.

5. Every person who shall use any premises for the keeping of any cow or cows for dairy purposes shall cause the yard in connection therewith to be provided with proper receptacles for drinking water for such cow or cows, and such receptacles shall be kept supplied with fresh, clean, pure water, and such receptacles shall be cleaned at least twice each week, and such yard shall be graded or drained in such manner as to keep the same dry and prevent the accumulation of water thereon, and no garbage, urine, fecal matter, or similar substance shall be placed or allowed to remain in such inclosure.

6. Every person who shall keep a cow or cows for the production of milk for sale shall cause the udder of such cow or cows to be thoroughly washed and cleansed

each time before said cow or cows are milked.

Every person who shall keep a cow or cows for dairy purposes shall provide and use a sufficient number of pails, cans. or other receptacles, made of glass, stoneware, or tin, for the reception, storage, and delivery of milk, and shall cause all milk to be immediately removed, after milking, from the building, shed, or room in which such cow or cows are kept to a separate milk room.

8. The room in which the milk is kept shall be thoroughly screened with not coarser than 14-mesh wire screen and shall be thoroughly protected against flies and shall be kept clean and free from dust and dirt. It shall not be used as a sleeping room, and shall be separate and apart from the building, shed, or room in which the cow or cows are kept. It shall be constantly supplied with pure water and suitable facilities for straining, cooling, and storing milk, and washing and sterilizing all utensils in which milk is received, stored, or delivered.

9. All cans, measures, bottles, and other receptacles or utensils of any sort used in the handling, conveying, or sale of milk shall be sterilized (scalded with boiling water

or live steam) daily.

10. All milk shall be strained through cloth or wire strainers and cooled to a temperature of 55 to 60° F., and if stored in the milk room for longer than three hours it

shall be stored in a cooler or refrigerator.

11. If any person who is engaged in the production, transportation, delivery, or distribution of milk, or any member of the family, or any of the employees of such person. or any of their immediate associates, or any person residing in any building where milk is stored, sold, or distributed, shall contract any contagious or infectious disease, such person shall immediately notify the city health officer thereof.

12. No person having any infectious disease, or having been recently exposed to such disease, shall milk or handle any utensil used in handling milk intended for sale until in the opinion of the city health officer all danger of communicating such disease

shall have passed.

13. No bottle, can, or receptacle used for the reception or storage of milk shall be removed from a private house, apartment, or tenement where any person has an infectious disease within such house, apartment, or tenement without the approval of the city health officer of the city of Dallas.

14. It shall be unlawful for any person to take milk from any cow which has a calf less than 9 days old and sell or offer for sale such milk.

15. All privies, dry closets, cesspools, or urinals located on any premises on which cows are kept for dairy purposes shall be thoroughly screened with not coarser than

14-mesh wire screen.

16. That it shall be unlawful for any person, either by himself or agent, to sell or expose for sale or exchange any unwholesome, watered, adulterated, or impure milk or swill milk or colestrum, or milk from cows kept upon garbage, swill, or any other substance in a state of putrefaction, or other deleterious substances, or from cows kept in connection with any family in which there are infectious diseases, or from sick or diseased cows: *Provided*, "Skim milk" may be sold if on the can or package from which such milk is sold the words "Skim milk" are distinctly painted in letters not less than 1 inch in length.

SEC. 2. That should any person who owns or maintains or who has charge of any dairy, or any person who shall be employed at any dairy, or any person employed on any dairy wagon, or any other person who shall violate any of the terms of this ordi-

nance, shall upon conviction, be fined in any sum not exceeding \$200.

SEC. 3. That all ordinances and parts of ordinances in conflict with this ordinance

be, and the same are hereby, repealed.

Sec. 4. Whereas, on account of the unsanitary n anner in which dairies are being kept, and the manner in which the cows thereon are permitted to be fed and kept. greatly affects the purity of the milk sold to the inhabitants of the city of Dallas from such dairies, and thereby creates an emergency and an urgency for the immediate preservation of the public health, that this ordinance be in effect from and after its passage, as in the charter in such cases made and provided; and it is accordingly so ordained that this ordinance be, and the same is hereby, declared to be in effect, in accordance with the charter in such cases made and provided.

[Ordinance adopted Oct. 16, 1911.]

MANSFIELD, OHIO.

MILK, CREAM, AND ICE CREAM-BACTERIAL CONTENT, INSPECTION, AND SALE.

Sec. 35 (a) The word "person" refers to any and all individuals, owners, agents, corporations, officers, and other parties who may offer milk, cream, or ice cream for sale.

(b) No person shall bring into this city for sale or shall sell or offer for sale any milk or cream containing bacteria of any kind, more than 500,000 per cubic centimeter.

(c) No person shall bring into this city for sale or shall sell or offer for sale any ice cream containing bacteria of any kind, more than 1,500,000 per cubic centimeter.

(d) The dairy and food inspector shall take sample of milk, cream, and ice cream from every person who sells or offers for sale any milk, cream, or ice cream, and shall

subject such samples to suitable tests and analyses.

(e) The board of health shall revoke the permit of any person who neglects or refuses to comply with the regulations of the board of health relating to milk, cream, or ice cream; and the sale of the same must stop upon receipt of written notice from the dairy and food inspector, who is hereby empowered to order the discontinuance of sale of milk, cream, or ice cream by any person, pending investigation and action of the board of health.

(f) The foregoing are all declared to be orders and regulations of the board of health made pursuant to the provisions of the laws of the State of Ohio, and whoever violates, or obstructs, or interferes with the execution of any of the foregoing orders, or willfully,

or illegally omits to obey such orders, shall be fined any sum not exceeding \$100, or imprisoned for any time not exceeding 90 days or both, but no person shall be imprisoned for any such violation or failure to obey any of the foregoing orders and regulations for the first offense and the prosecution shall always be as and for a first offense, unless the affidavit upon which the prosecution is instituted contains the allegation that the offense is a second or repeated offense, all of which is in accordance with section 4414 of the General Code of Ohio, in such case made and provided.

(g) That section 35 of subdivision 3 of the regulations of the board of health in the codified ordinances of the city of Mansfield, Ohio, be amended by adding the fore-

going subsections.

(h) This regulation shall take effect and be in force from and after the earliest period allowed by law.

[Regulation, board of health, adopted July 7, 1911.]

NEWPORT KY.

MILK AND MILK PRODUCTS-PRODUCTION, CARE, AND SALE.

Section 1. The board of health of the city of Newport or its agents may enter at any time, and no person shall hinder or prevent them from so entering, any place in the city of Newport where milk or milk products from cows or dairies is kept or held for sale for human food.

SEC. 2. It shall be unlawful for any person, firm, or corporation to bring into or receive into the city of Newport for sale, or offer for sale therein, or have on hand for purpose of sale, any milk or cream or products from cows or dairies, without first having obtained from the board of health of the city of Newport a permit to do so, said permit

to be obtained as hereinafter provided.

SEC. 3. To procure the permit provided for in section 2 hereof, the applicant therefor shall file with the board of health of the city of Newport a written statement setting forth his residence and place of business, the number of cows owned by him, the name and address of any and all persons from whom he is purchasing or obtaining milk, cream, buttermilk, sour milk, butter, or other dairy product, and the quantity of such products sold by him daily. It shall be the duty of the holder of such permit to notify the board of health in writing of any change in the name or address of the person or persons from whom he obtained his supply of milk, cream, buttermilk, sour milk, or other dairy product.

SEC. 4. Upon the board of health of the city of Newport being satisfied that the place or places where the milk or milk products are to be kept or offered for sale, or from which they are obtained, are sanitary, or that the cows from which said milk is obtained are free from disease and kept in a sanitary place and manner, said board of health shall grant a permit to the applicant conditioned upon his compliance with the terms of this ordinance and the rules and regulations of the State board of health and the board of health of the city of Newport. Said permit may be revoked at any time by the board of health of Newport, Ky., should the holder thereof fail or refuse

to comply with the provision of the ordinance.

Sec. 5. No person or persons shall keep a cow in the city of Newport without a

permit from the board of health.

SEC. 6. All permits shall be renewed during the month of May of each year to be Renewals of permits may be granted at the discretion of said board of health

in the same manner as the original permits are granted.

SEC. 7. There shall be no charge for the permits provided for in sections 2 and 5 hereof, but the applicant therefor must agree to furnish free of charge such samples of milk or products from cows or dairies as may be necessary for the purpose of analysis. The applicant must further agree to allow the inspection by said board or its agents of his premises, cows, dairy utensils, or anything pertaining to the business of operating a dairy or milk depot at all times.

SEC. 8. It shall be unlawful for any person to sell, offer for sale, or have on hand for sale in this city any milk or butter, who fails or neglects by himself or agents to comply with all the terms of this ordinance, or who sells or offers for sale, or has on hand for sale, products from cows or dairies which are not maintained or kept as required

by the terms of this ordinance.

Sec. 9. No building shall be used for stabling milk cows which is not well lighted, ventilated, drained, and constructed in such manner as to render same sanitary.

Sec. 10. All stalls or places where the cows are milked shall be provided with clean floors. The accumulation of urine, manure, stagnant water, or any other filth shall not be permitted in the stable or barnyard or other place where milk cows are kept, the products from which are for sale within the city of Newport.

SEC. 11. No water-closet, cesspool, urinal, habited room, or workshop shall be located within any building or shed used for stabling cows used for dairy purposes, nor shall any fowl, hog, horse, sheep, or goat be kept in any room used for such purposes.

Sec. 12. Every building or shed for keeping cows for dairy purposes shall be kept

clean and in good repair and well painted or whitewashed.

Sec. 13. Milk from cows suffering with tuberculosis, actinomycosis, Texas fever, abscesses, or any other contagious or infectious diseases, and milk from cows that will calve within 15 days or that have calves within 10 days, shall not be sold or kept for sale in the city of Newport.

Sec. 14. It shall be the duty of every person having charge or control of any premises upon which cows are kept to notify the board of health of the existence of any contagious diseases or recurring inflammation or abscess of the udder immediately upon the discovery thereof, and to immediately isolate such cow or cows and keep same apart from the herd until permission is granted in writing by the board of health to permit such cow or cows to return to the herd.

Sec. 15. It shall be unlawful for any dairyman to feed milk cows or have in his possession with intention to feed milk cows, any garbage, swill, refuse, or any other food

prohibited by the statutes of the State of Kentucky.

SEC. 16. All milkers or other attendants who handle the milk or cream, buttermilk, or sour milk which is offered for sale or delivered in the city of Newport shall be personally clean, and all such persons before entering upon their duties shall thoroughly wash their hands with soap and water, and no milker shall be permitted to wash the teats of the cows with milk or water in the milk bucket or to milk the cow with wet or moist hands

Sec. 17. It shall be the duty of any person having charge of or control of any premises upon which milk or cream, buttermilk or sour milk is produced, handled, stored, or distributed to notify the board of health immediately upon the discovery of diphtheria, measles, membraneous croup, scarlet fever, smallpox, typhoid fever, or any other contagious or infectious diseases upon such premises.

SEC. 18. Any person who attends to cows, or milks them, or who has the care of handling of vessels used for the sale, storage, or distribution of milk, cream, buttermilk, or sour milk, shall not enter any place or premises wherein exists any of the diseases mentioned herein nor shall any person have any communication, direct or indirect, with any person who resides in or is an occupant of such infected place.

SEC. 19. All vehicles used for hauling or distributing milk or cream, buttermilk, or sour milk must be kept in a sanitary condition and must not be used for hauling

manure, slops, or anything else of any insanitary character.

SEC. 20. Each vehicle used for hauling or distributing milk or cream, buttermilk, or sour milk shall have printed on each side thereof the letters not less than 3 inches high the name of the dairy, the name of the person to whom such permit was granted,

and the number of such permit.

SEC. 21. All milk depots and places for handling milk, cream, buttermilk, or sour milk must be kept thoroughly clean throughout and must be screened so as to exclude The floors of such milk depots must be of cement or tiling or other impervious flooring. The room in which the milk is to be handled or kept shall be screened or protected in such manner as to be free from flies and bugs.

Sec. 22. No person or persons shall bring into or receive into the city of Newport for sale or offer for sale therein, or have on hand for purpose of sale, any milk, buttermilk, cream, or products from cows or dairies which are stored or kept in any basement, cellar, refrigerator, milk house, dairy, or other place which communicates directly

with any insanitary closet or room or any horse or cow stable.

SEC. 23. All milk shall be cooled, strained, and stored in rooms outside of the cattle barns, and there shall be no communications between it and any barn or other building. Said cooling rooms must have cement, concrete, or other impervious floors, must be kept whitewashed and clean at all times, and must be screened in such a way as to exclude all flies and vermin.

Sec. 24. No pasteurized or sterilized milk shall be sold in the city of Newport unless it is conspicuously labeled "pasteurized" or "sterilized." Said label shall state the degree (temperature and length of exposure at that temperature) and date of pasteuri-

zation or sterilization.

SEC. 25. All milk shall be marketed as soon as possible after milking.

SEC. 26. All milk brought into the city or sold or offered for sale in the city must not

contain more than 500,000 bacteria per cubic centimeter.

Sec. 27. It shall be unlawful for any person or persons to bring into the city of Newport for sale or to sell any milk which contains any manure or dirt (that is, in quantities sufficient to be detected with the naked eye, after the milk has been standing one hour or more).

SEC. 28. No milk shall be kept in ice boxes or refrigerators which are in any way connected with sewers or cesspools nor shall any milk be kept in the same compartment of any ice box or refrigerator in which meats or other articles of food are kept.

SEC. 29. It shall be unlawful for any dealer in milk or cream or other dairy products, or his agents, for the purpose of serving milk, cream, or other dairy products, to enter any building that has in it any contagious disease, or that is placarded by the board of health for contagious disease, until such placard has been removed by the proper authorities. This section is not intended to prevent the delivery of milk or other products to such dwellings.

SEC. 30. It shall be unlawful for any person to remove from such dwelling any bottles or receptacles which have been or are to be used for the purpose of receiving or storing milk or cream, buttermilk or sour milk, without a written permit from the

board of health or its agents.

SEC. 31. It shall be unlawful for any dealer in milk or cream, or his agents, to bottle or cause to be bottled or to be placed in jars or cans or any open container any part of his milk or cream supply while upon the wagon or at any other place than the dairy or milk depot.

SEC. 32. It shall be unlawful to sell or offer for sale, or have on hand for sale, in the city of Newport any milk, cream, buttermilk or sour milk containing any pre-

servatives of any kind, or which is adulterated or unwholesome.

SEC. 33. The words "adulterated or unwholesome milk" as used in this ordinance mean: (1) Milk offered or kept for sale as whole milk or sold as such, which contains less than 8½ per cent of solids not fat, and less than 3½ per cent of milk fat. (2) Milk which has been diluted with water or fluid, or to which has been added or into which has been introduced any foreign substance whatever. (3) Milk drawn from animals fed on any substance which does not comply with the general laws of the State of Kentucky. (4) Milk drawn from cows kept in crowded or unhealthy condition. (5) Milk, the temperature of which is higher than 60° F. (6) Milk which contains more than 500,000 bacteria to the cubic centimeter. (7) Milk containing more than two-tenths of 1 per cent of lactic acid.

SEC. 34. Skimmed milk, for sale as such, shall not contain less than 9½ per cent of milk solids. All vessels, packages, cans, etc., containing skimmed milk, shall have the whole exterior of the can, including the lid, painted a bright red color, and shall have painted in black letters on the exterior of the body of the can not more than 6 inches from the neck of the can the words "Skimmed milk," in letters at least

3 inches high; such cans to be kept well painted at all times.

Sec. 35. All buttermilk sold or offered or kept for sale in milk depots, groceries, hotels, restaurants, lunchrooms, etc., shall be kept at a temperature not higher than 60° F., the same sanitary rules to govern the production or keeping for sale of buttermilk which control the sale or production of sweet milk.

SEC. 36. All buttermilk offered for sale in the city of Newport as buttermilk, or sold as such, must not contain more than 93 per cent of watery fluid and not less than 7 per cent of solids. It shall be unlawful to sell or offer for sale or have on hand

for sale in the city of Newport any adulterated or unwholesome buttermilk.

SEC. 37. The words "adulterated or unwholesome buttermilk" as used in this ordinance mean: (1) Buttermilk containing more than 93 per cent of watery fluid or less than 7 per cent of milk solids; (2) buttermilk which has been diluted with water or any other fluid, or to which has been added or into which has been introduced any foreign substance whatever; (3) buttermilk kept in stores, lunchrooms, restaurants, etc., and offered for sale shall not be kept in metallic containers; (4) buttermilk the result of milk or cream obtained from cows fed on any substance not complying with the general laws of the State of Kentucky; (5) buttermilk from products of cows kept in a crowded or unsanitary condition.

SEC. 38. All vessels containing buttermilk which is held or offered for sale in the city of Newport must be labeled in such a manner as to plainly show the age of the

buttermilk.

Sec. 39. Cream sold or kept for sale as such must contain at least 18 per cent butter

fats and must not contain any foreign substance or coloring matter.

Sec. 40. Ice cream sold or kept for sale in the city of Newport shall be: (1) Ice cream shall be a frozen product made from cream and sugar with or without natural flavoring and shall contain not less than 14 per cent of milk fat. (2) Fruit ice cream shall be a frozen product made from cream, sugar, and sound, clean, mature fruits and shall contain not less than 12 per cent of milk fat. (3) Nut ice cream shall be a frozen product made from cream, sugar, and sound, nonrancid nuts and shall contain not less than 12 per cent of milk fat. All ice cream factories or any other place where ice cream or any substance having the resemblance of ice cream is manufactured or offered for sale must be kept in a sanitary condition, and all utensils, appa-

ratus, etc., used in the manufacture, sale, or distribution of ice cream or other frozen

products must be kept in a sanitary condition at all times.

SEC. 41. All cans, bottles, or vessels of any kind used for holding milk or cream must be cleaned at least once a day with soap or soda or other cleansing preparation made for the purpose and then rinsed with boiling water. They should always be cleaned as soon as empty.

SEC. 42. If any provision of any section of this ordinance shall conflict with the

rules of the State pure food commission, the rules of the latter shall govern.

SEC. 43. Copies of this ordinance shall be printed and a copy of the same delivered with each permit or renewal of same, and said copy must be posted in a conspicuous

place in the dairy or milk depot of the party holding such permit.

SEC. 44. Any person, firm, or corporation, their agent or employees, who shall violate any of the provisions of this ordinance shall be deemed guilty of an offense, and, upon conviction in the police court of the city of Newport, shall be punished by a fine of not less than \$10 nor more than \$100, or imprisonment not to exceed 30 days or both so fined and imprisond. days, or both so fined and imprisoned. (Section as amended by ordinance, approved September 1, 1911.)

Sec. 45. All ordinances or parts of ordinances in conflict herewith are hereby

repealed.

Ordinance adopted July 13, 1911.

POLIOMYELITIS.

During the week ended April 13, 1912, poliomyelitis was reported as follows: Boston, Mass., 2 cases; New York, N. Y., 9 cases, 1 death.

INDIANA.

During the month of February, 1912, 6 cases of poliomyelitis were reported in the State of Indiana, occurring as follows: La Porte County, 4 cases; Lawrence County, 1 case; Marion County, 1 case.

During the month of March poliomyelitis was reported as follows: Adams County, 1 case: Hancock County, 1 case; Lawrence County, 1 case; Spencer County, 1 case, with 1 death.

RABIES.

During the month of February, 1912, rabies was reported in the State of Indiana as follows: Dubois County, 1 case, 1 death; Jefferson County, 1 case; Marion County, 1 case; Wayne County, 2 cases.

During the month of March, 1912, 1 death from rabies occurred at

Indianapolis, Ind.

TETANUS.

During the week ended April 13, 1912, 1 death from tetanus was reported at Baltimore, Md., 1 case at Cleveland. Ohio, and 1 death at South Bethlehem, Pa.

SMALLPOX IN THE UNITED STATES.

In the following table the States indicated by an asterisk are those from which reports of smallpox are received only from certain city, and in some cases county, boards of health. In these States, therefore, the recorded cases and deaths should not be taken as showing the general prevalence of the disease. In the States not marked by an asterisk the reports are received monthly from the State boards of health and include all cases reported to the State authorities.

REPORTS RECEIVED DURING WEEK ENDED MAY 3, 1912.

Texas.—Month of January, 1912. Population, 3,896,542. Total number of deaths from all causes, 3,295, including diphtheria 41, measles 3, scarlet fever 10, smallpox 4, tuberculosis 303, typhoid fever 43. Cases reported: Diphtheria 84, scarlet fever 235, smallpox 94, tuberculosis 46, typhoid fever 33.

FOREIGN AND INSULAR.

AUSTRALIA.

Sydney-Examination of Rats.

The following information was taken from bulletins issued by the department of health of New South Wales: During the four weeks ended March 16, 1912, 1,501 rats were examined for plague infection. No plague-infected rat was found.

The last case of human plague was reported May 29, 1909.

The last plague-infected rat was found April 25, 1910.

CUBA.

Transmissible Diseases.

The following statement of transmissible diseases in the island of Cuba was issued by the sanitary department:

MONTH OF MARCH, 1912.

Disease.	New cases.	Deaths.	Remaining under treat- ment.
Tuberculosis. Leprosy Malaria. Typhoid fever Diphtheria Scarlet fever Measles. Varicella. Tetanus in new born. Dengue.	53	244 3 15 17 11 0 1 0 18	1,507 346 150 51 9 19 48 25 1

EGYPT.

Cairo-Typhus Fever.

Consul Belrose reports the occurrence of 9 deaths from typhus fever during the three weeks ended March 18, 1912.

HAWAII.

Record of Plague Infection.

The last case of human plague at Honolulu occurred July 12, 1910. The last plague-infected rat was found at Aiea, 9 miles from Honolulu, April 12, 1910.

A case of human plague was reported at Kapulena, Hawaii, October

28, 1911.

At Hilo the last case of human plague occurred March 23, 1910. At Honokaa, 60 miles from Hilo, a fatal case occurred April 20, 1911; a fatal case February 9, 1912; and 2 fatal cases February 25, 1912.

The last plague-infected rats reported found at Honokaa were 49, found during the week ended March 2, 1912. At Hilo, a plague-infected rat was found during the week ended June 10, 1911, and 2 plague-infected rats were reported found February 29, 1912.

Honolulu-Plague-prevention Work.

Chief Quarantine Officer Trotter reports:

Week ended Apr. 6, 1913.

Total rats and mongoose taken	415
Rats trapped	403
Mongoose trapped	12
Rats examined bacteriologically	351
Classification of rats trapped:	
Mus alexandrianus,	49
Mus musculus	79
Mus norvegicus	3 9
	236
Average number of traps set daily	l, 720

Mosquito-eradication Measures at Honolulu.

The following statement of the work of mosquito destruction at Honolulu was received from Passed Asst. Surg. McCoy, who is detailed as sanitary adviser to the governor of the Territory of Hawaii:

Mosquito-eradication measures conducted at Honolulu from Apr. 1 to 6, 1912, both inclusive.

Inspections of—	Total inspections.	Larvæ found in.	Ordered cleaned.	Oiled.	Drained.	Emptied.	Filled.	Ordered repaired	Screened.	Stocked with mos quite fish.
