

Deaths—Sudden or Resulting From Criminal Act—Removal or Disposal of Bodies.
(Ord. 108 N. S., Aug. 28, 1912.)

Autopsies in cases of sudden death prohibited except upon permit from coroner.—**SECTION 1.** It shall be unlawful for any person to perform or assist in performing any autopsy or other post-mortem examination upon the body of any person who has died suddenly or whose death has resulted from injury, or upon the bodies of persons found under such circumstances as to lead to a suspicion of crime having been committed, or in cases of accidental deaths or suicides, except a permit to perform such autopsy or post-mortem examination has been issued by the coroner.

Removal of body of any person dying suddenly prohibited except on permit of coroner or health officer.—**SEC. 2.** It shall be unlawful for any person to remove, or aid in removing the body of any deceased person from the place where the death of such person has occurred, except permission to remove said body has been granted by the coroner or health officer or a regular licensed physician who has been in attendance upon the deceased for not less than 24 hours prior to death shall have certified that the death was not directly or indirectly the result of criminal causes.

Disposal in any manner of body of deceased person without permit from coroner or health officer prohibited.—**SEC. 3.** It shall be unlawful for any person, except upon authorization by the coroner, or health officer, to dispose of or in any manner to aid in the disposal of, whether by burial, dissection, or otherwise, of the body or parts thereof of any person whose death has resulted from the performance or an effort to perform a criminal abortion.

SEC. 4. It shall be unlawful for any person to obtain or induce or assist others in obtaining or attempt to secure from the proper authorities any permit to inter, remove, or otherwise dispose of the remains of any deceased person, except that the party desiring such permit shall present to the health officer a certificate of death which shall clearly and truthfully show the name and age of decedent, the precise location where the death occurred, and, if the same has been caused by criminal abortion, either as a direct or indirect consequence, the certificate shall so state.

Penalty.—**SEC. 5.** Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than \$500 or by imprisonment in the county jail not to exceed six months, or by both such fine and imprisonment.
