# PUBLIC HEALTH REPORTS

ISSUED WEEKLY

BY THE UNITED STATES  
PUBLIC HEALTH SERVICE

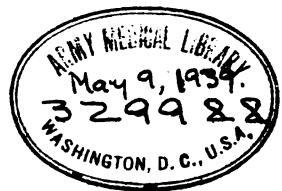

---

CONTAINING INFORMATION ON THE CURRENT  
PREVALENCE OF DISEASE, THE PREVENTION  
AND CONTROL OF DISEASE, AND  
RELATED SUBJECTS

---

VOLUME 52—PART 1  
NUMBERS 1-26

JANUARY—JUNE 1937

UNITED STATES  
GOVERNMENT PRINTING OFFICE  
WASHINGTON : 1937

# INDEX

## A

	Page
Age of gainful female workers in different geographic regions of the United States, 1920 and 1930 (Studies on the age of gainful workers no. 3.)—Gafafer.....	730
Age of gainful male workers in different geographic regions of the United States, 1920 and 1930 (Studies on the age of gainful workers no. 2.)—Gafafer.....	437
Age of gainful workers of the United States, 1920 and 1930 (Studies on the age of gainful workers no. 1.)—Gafafer.....	269
Airplane company institutes measures against yellow fever.....	671
Airplanes, mosquitoes on.....	414
Akin, C. V.: Radio pratique (Pratique by wireless in lieu of quarantine inspection for passenger vessels).....	507
Alabama:	
(See Name of disease—Current weekly State reports.)	
(See Summary—Disease cases reported monthly by States.)	
Andervont, H. B.:	
Dibenzanthracene tumors in mice. The production of subcutaneous, pulmonary, and liver tumors by serum dispersions and lard solutions.....	637
Incidence of spontaneous tumors in a colony of strain C <sub>3</sub> H mice.....	772
Pulmonary tumors in mice:	
I. The susceptibility of the lungs of albino mice to the carcinogenic action of 1, 2, 5, 6-dibenzanthracene.....	212
II. The influence of heredity upon lung tumors induced by the subcutaneous injection of a lard-dibenzanthracene solution.....	304
III. The serial transmission of induced lung tumors.....	347
Animals, susceptibility of, to endemic typhus fever—Brigham.....	660
Anthrax. (See Summary—Disease cases reported monthly by States.)	
Antigens, labile bacterial, and methods of preparing and preserving them—Mudd, Czarnetzky, Pettit, and Lackman.....	434
Antipneumococcus horse sera and concentrates, standardization of.....	672
Antituberculosis campaign in Colombia, organization of.....	807
Appendicitis, tuberculosis, cancer, and typhoid fever in the white population of the United States, geographical distributions of mortality from—Lumsden and Dauer.....	791
Argentina, leprosy in.....	240
Arizona:	
(See Name of disease—Current weekly State reports.)	
(See Summary—Disease cases reported monthly by States.)	
Arkansas:	
(See Name of disease—Current weekly State reports.)	
(See Summary—Disease cases reported monthly by States.)	
Army Medical School, the technique of preparation of typhoid vaccine at the—Holt and Hitchens.....	829
Austria: Vital statistics—	
1933 and 1934—Comparative.....	185
1935.....	323

## B

Bacterium tularensis, Ixodes ricinus Californicus (Banks) a possible vector of—Davis and Kohls.....	281
Bauer, Hugo: Studies in chemotherapy. IV. Comparative studies of sulphonamide compounds in experimental pneumococcus, streptococcus, and meningococcus infections.....	662

	Page
Bermuda: Vital statistics—1936.....	253
Biochemical oxidation (VI.) by sludges developed by pure cultures of bacteria isolated from activated sludge. Studies of sewage purification—Butterfield and Ruchhoff.....	387
Birth rates and death rates, by States, 1934 and 1935 and summary for the registration areas 1920-35.....	196
Blacktongue:	
Lactoflavin in the treatment of canine—Sebrell, Hunt, and Onstott.....	235
The treatment of, with a preparation containing the "filtrate factor" and evidence of riboflavin deficiency in dogs—Sebrell, Onstott, and Hunt.....	427
Bloomfield, J. J.: The need for industrial hygiene courses in public health curricula.....	799
Branham, Sara E.: Studies in chemotherapy:	
IV. Comparative studies of sulphonamide compounds in experimental pneumococcus, streptococcus, and meningococcus infections.....	662
V. Sulphanilamide, serum, and combined drug and serum therapy in experimental meningococcus and pneumococcus infections in mice.....	685
Brigham, George D.:	
A strain of endemic typhus fever isolated from a field mouse.....	659
Susceptibility of animals to endemic typhus fever.....	660
<i>Brucella melitensis</i> variety <i>melitensis</i> in the United States, the distribution of—Evans.....	295
Brundage, Dean K.:	
Disabling illness among industrial employees in 1935 as compared with earlier years.....	1
Sickness among male industrial employees—	
Third quarter and the first 9 months of 1936.....	127
Fourth quarter 1936 and year 1936.....	537
Brunswick-Greenville health administration studies no. 8. Tuberculosis control by a small county health department—Dean.....	597
Butterfield, C. T.: Studies on sewage purification. VI. Biochemical oxidation by sludges developed by pure cultures of bacteria isolated from activated sludge.....	387
C	
California:	
(See Name of disease—Current weekly State reports.)	
(See Summary—Disease cases reported monthly by States.)	
Canada:	
Provinces—Communicable diseases—2 weeks ended—	
December 12, 1936.....	91
December 26, 1936.....	142
January 9, 1937.....	185
January 16, 1937 (1 week).....	253
January 30, 1937.....	292
February 13, 1937.....	345
February 27, 1937.....	370
March 13, 1937.....	505
March 27, 1937.....	535
April 10, 1937.....	654
April 24, 1937.....	681
May 8, 1937.....	788
May 22, 1937.....	816
Vital statistics—	
Second quarter 1936.....	63
Third quarter 1936.....	423
Cancer, tuberculosis, appendicitis, and typhoid fever, in the white population of the United States, geographical distributions of mortality from—Lumsden and Dauer.....	791
Canine blacktongue, lactoflavin in the treatment of—Sebrell, Hunt, and Onstott.....	235

Chemotherapy, studies in:	
II. Chemotherapy of experimental pneumococcus infections— Rosenthal	Page 48
III. The effect of p-aminobenzene sulphonamide on pneumococci in vitro—Rosenthal	192
IV. Comparative studies of sulphonamide compounds in experimental pneumococcus, streptococcus and meningococcus infections— Rosenthal, Bauer, and Branham	662
V. Sulphanilamide, serum, and combined drug and serum therapy in experimental meningococcus and pneumococcus infections in mice—Branham and Rosenthal	685
Chicken pox. (See Summary—Disease cases reported monthly by States.)	
Cholera:	
Foreign reports	65, 93, 143,
187, 233, 255, 293, 324, 346, 372, 425, 571, 626, 656, 709, 761, 817, 858.	
Siam	371, 708
Chromic acid mists from plating tanks, control of—Riley and Goldman	172
Coccidioidal granuloma	334
Collins, Benjamin J.: Studies on trichinosis.	
I. The incidence of trichinosis as indicated by post-mortem examin- ation of 300 diaphragms	468
II. Some correlations and implications in connection with the incidence of trichinae found in 300 diaphragms	512
Colombia, organization of antituberculosis campaign in	807
Colorado:	
(See Name of disease—Current weekly State reports.)	
(See Summary—Disease cases reported monthly by States.)	
Communicable diseases:	
(See also Infectious diseases.)	
(See also Notifiable diseases.)	
Canada—Provinces—2 weeks ended—	
December 12, 1936	91
December 26, 1936	142
January 9, 1937	185
January 16, 1937 (1 week)	253
January 30, 1937	292
February 13, 1937	345
February 27, 1937	370
March 13, 1937	505
March 27, 1937	535
April 10, 1937	654
April 24, 1937	681
May 8, 1937	788
May 22, 1937	816
Cuba—Habana—4 weeks ended—	
December 19, 1936	121
January 16, 1937	206
February 13, 1937	323
March 13, 1937	462
April 10, 1937	625
May 8, 1937	760
Czechoslovakia—	
September 1936	64
October 1936	91
November 1936	186
December 1936	293
January 1937	425
February 1937	625
March 1937	816
Finland—	
November 1936	122
December 1936	206
January 1937	345
February 1937	462
March 1937	655
April 1937	788
Foreign reports	30, 65, 93, 122, 143, 187, 207, 233, 255, 293, 324,
346, 372, 425, 463, 506, 536, 571, 626, 656, 682, 709, 761, 789, 817, 858.	

## Communicable diseases—Continued.
