
—Announcement—

PUBLIC HEALTH REPORTS
To be Published Monthly Next Year

Beginning in January 1952 PUBLIC HEALTH REPORTS will be published monthly. Two other technical publications of the Public Health Service—the Journal of Venereal Disease Information and the CDC Bulletin—are being merged with it.

The merger has come about as the result of an extended study of the Public Health Service's publishing activities. The new journal is designed to carry out more efficiently and economically the Public Health Service's responsibilities for disseminating scientific information on matters of health.

The new PUBLIC HEALTH REPORTS will be concerned with the technical and professional aspects of public health practice, with problems of health administration, and with research in these fields. It will include substantially the types of material that have been appearing in the three present journals and the monthly Tuberculosis Control Issue of PUBLIC HEALTH REPORTS. There will be more emphasis, however, on administrative practice, program development, and applied research aspects and less emphasis on bench research and clinical material not rather directly related to public health practice.

As has been true with each of the present journals, the pages of the new PUBLIC HEALTH REPORTS will be open, on merit, to any responsible author. General editorial guidance will be provided by a Board of Editors composed of individuals of recognized competence and professional stature drawn from both within and outside the Federal service.

Every effort will be made to furnish the new PUBLIC HEALTH REPORTS to representative organizations in public health and its related fields. Most of the readers on the mailing list are affiliated with organizations to which free distribution can legally be made. They will continue to receive the new journal either directly or through these organizations.

The first issue of the new PUBLIC HEALTH REPORTS and an application form for a free subscription will be sent to readers now on the free lists for technical periodicals. After they have had an opportunity to review the new PUBLIC HEALTH REPORTS and to consider its usefulness in their work, readers who wish to remain on the lists and receive the new periodical regularly should complete the application and send it in as soon as possible. This will allow time to revise the lists for mailing the second and subsequent issues.

The new PUBLIC HEALTH REPORTS will also be available by paid subscription from the Superintendent of Documents, Government Printing Office.

Public Health Reports

VOLUME 66 **DECEMBER 14, 1951** NUMBER 50

[To be published monthly in 1952—see back cover]

IN THIS ISSUE

Specific Diseases Among Males and Females

Spotted Fever and *Dermacentor albipictus*

FEDERAL SECURITY AGENCY

PUBLIC HEALTH SERVICE

The printing of this publication has been approved by the Director of the Bureau of the Budget (August 10, 1949).

The **PUBLIC HEALTH REPORTS**, first published in 1878 under authority of an act of Congress of April 29 of that year, is issued weekly by the Public Health Service through the Division of Public Health Methods, pursuant to the following authority of law: United States Code, title 42, sections 241, 245, 247; title 44, section 220.

It contains (1) current information regarding the incidence and geographic distribution of communicable diseases in the United States, insofar as data are obtainable, and of cholera, plague, smallpox, typhus fever, yellow fever, and other important communicable diseases throughout the world; (2) articles relating to the cause, prevention, and control of disease; (3) other pertinent information regarding sanitation and the conservation of the public health.

The **PUBLIC HEALTH REPORTS** is published primarily for distribution, in accordance with the law, to health officers, members of boards or departments of health, and other persons directly or indirectly engaged in public health work.

Requests for and communications regarding the **PUBLIC HEALTH REPORTS** and reprints should be addressed to the Surgeon General, Public Health Service, Washington 25, D. C. Subscribers should remit direct to the Superintendent of Documents, Washington 25, D. C.

Librarians and others should preserve their copies for binding, as the Public Health Service is unable to supply the general demand for bound copies. Indexes will be supplied upon request.
