

FY2017

Centers for Disease Control and Prevention
Fiscal Year 2017 Grants Summary Profile Report for

Connecticut

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in Connecticut. Refer to the "About the Data" section below for important qualifying statements about the data.

2017 Population Estimate: 3,588,184
Timeframe: 10/01/16 - 09/30/17

Table with 3 columns: CATEGORY, OBLIGATED AMOUNT, PERCENTAGE. Lists various CDC grant categories and their corresponding amounts and percentages.

Table with 2 columns: CATEGORY & SUB-CATEGORY, OBLIGATED AMOUNT. Provides a detailed breakdown of the obligated amounts for each category and sub-category.

FY2017

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Chronic Disease Prevention and Health Promotion	\$6,689,271
Cancer Prevention and Control	\$2,425,482
Diabetes	\$178,898
Diabetes - PPHF	\$558,955
Heart Disease and Stroke	\$247,168
Heart Disease and Stroke - PPHF	\$572,152
Nutrition, Physical Activity and Obesity	\$358,051
Oral Health	\$310,000
Prevention Research Centers	\$734,000
Safe Motherhood/Infant Health	\$149,342
School Health	\$173,556
Tobacco	\$824,868
Tobacco - PPHF	\$156,799
Emerging and Zoonotic Infectious Diseases	\$5,265,720
Advance Molecular Detection (AMD)	\$60,585
Antibiotic Resistance Initiative	\$1,299,560
Emerging and Zoonotic Core Activities	\$4,887
Emerging Infectious Diseases	\$201,681
Epi and Lab Capacity Program - PPHF	\$852,992
Food Safety	\$665,614
Healthcare Associated Infections (HAIs) - PPHF	\$1,010,553
Lyme Disease	\$1,041,639
Vector-borne Diseases	\$128,209
Environmental Health	\$1,801,397
Asthma	\$601,000
Environmental and Health Outcome Tracking Network	\$695,526
Environmental Health - PPHF	\$373,921
Environmental Health Activities	\$130,950
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$7,101,712
Domestic HIV/AIDS Prevention and Research	\$5,810,732
Sexually Transmitted Infections (STIs)	\$732,539
Tuberculosis (TB)	\$496,981
Viral Hepatitis	\$61,460
Immunization and Respiratory Diseases	\$5,307,151
Immunization Program	\$879,586
Immunization Program - PPHF	\$3,733,448
Influenza/Influenza Planning and Response	\$694,117

FY2017

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Injury Prevention and Control	\$3,037,332
Illicit Opioid Use Risk Factors	\$315,539
Injury Prevention Activities	\$95,000
Intentional Injury	\$600,110
NVDRS	\$196,615
Prescription Drug Overdose	\$1,830,068
Occupational Safety and Health	\$1,737,965
National Occupational Research Agenda (NORA)	\$957,763
Other Occupational Safety and Health Research	\$780,202
Public Health Preparedness and Response	\$8,060,059
CDC Preparedness and Response Capability	\$232,465
Public Health Emergency Preparedness Cooperative Agreement	\$7,827,594
Public Health Scientific Services (PHSS)	\$433,893
Surveillance, Epidemiology, and PH Informatics	\$433,893
Vaccines for Children	\$2,035,420
Vaccines for Children	\$2,035,420
Zika Response and Preparedness	\$1,044,709
Zika Response and Preparedness (Annual)	\$107,169
Zika Response and Preparedness (Two Year)	\$937,540
Grand Total	\$45,619,460

Centers for Disease Control and Prevention Fiscal Year 2017 Grants Detail Profile Report for Connecticut

FY2017

About the Data

Data Included

- The grants and cooperative agreements data in this report include actions awarded (i.e., obligated funds) domestically in fiscal year 2017 (FY17; 10/1/16 to 9/30/17) from CDC's annual appropriation, Zika Response and Preparedness funds, and Flint Response and Lead Poisoning Prevention funds.
- Because the data includes funds obligated in FY17, it includes funding authorized through legislation passed in previous years, but only the amount actually obligated in FY17.
- The funding data is categorized by CDC budget line (i.e., by which CDC appropriation account was used to make the investment), as shown in the FY17 CDC Operating Plan at <https://www.cdc.gov/budget/documents/fy2017/fy-2017-cdc-operating-plan.pdf>.

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The value of vaccines purchased and provided to states, cities, and territories by CDC through the Vaccines for Children Program are excluded. Information on the value of vaccine purchases by jurisdiction is available in a separate report each year on the CDC Grant Funding Profiles site at <https://www.cdc.gov/FundingProfiles/>, starting with FY14.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (e.g., fund transfers to CDC from DHHS, including the HHS Public Health and Social Services Emergency Fund and Hospital Preparedness Program), Gifts and Donations, Global Health funds, and Buildings and Facilities funds.

Therefore, this data does not reflect CDC's total appropriations in any given area.

Data Sources

- Funding Data - CDC Office of Financial Resources (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines For Children data)
- United States, the District of Columbia, and Puerto Rico - the 2010 U.S. Census, updated with 2017 estimates at <https://www.census.gov/data/datasets/2017/demo/popest/nation-total.html>
- For all other geographies - 2017 estimates for population are from *The World Factbook* at <https://www.cia.gov/library/publications/resources/the-world-factbook/index.html>

Centers for Disease Control and Prevention Fiscal Year 2017 Grants Detail Profile Report for Connecticut

FY2017

Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to grantees within states and territories by CDC budget line. However, caution should be used in interpreting variations across years or jurisdictions. Several of the reasons for variations are (1) the amounts, purpose, and focus of funding provided by Congress each year can vary, and (2) changes in national and/or CDC/ATSDR priorities and strategies due to factors such as urgent and emerging health threats and changes in population health status and needs. In terms of funding opportunities, (1) not all eligible entities apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all eligible entities that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:
 - o CDC has many different grant types with differing application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
 - o Awards made to an entity will typically reflect the geographic location of the entity's official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
 - o CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association's main office.
 - o In addition, there may be variation across years for where a program/activity resides in CDC's organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. In addition, funding categories may be added or deleted as CDC's budget changes year to year (e.g., funding categories are deleted because their shorter-term funding sources expire). This makes 1:1 comparisons of one year's set of projects to another year's set of projects under each category or sub-category a challenge.
