Outline

- DTaP-containing vaccines
- Tdap
- CDC Vaccine Supply Page

DTaP-containing Vaccines

- Pentacel®
 - Availability of Sanofi Pasteur's Pentacel® vaccine is currently reduced but new doses became available for order in June
 - Product limitations are anticipated to begin lifting in early September
- Pediarix®
 - Availability of GSK's Pediarix® vaccine is currently reduced
 - Product limitations are anticipated until September
- Production and supply of non-combination DTaP vaccines is currently sufficient to address anticipated supply gaps related to Pentacel® and Pediarix®

Tdap

- GSK's Tdap vaccine, Boostrix, is currently available for order in pre-filled syringes, as well as single dose vials.
