

## Supplementary tables

**Table A.** Adjusted odds ratios of not receiving effective care coordination and having inadequate health insurance coverage and their related components among children with muscular dystrophy, NS-CSHCN 2005-2006 and 2009-2010: Results from multivariable logistic regression for those who answered the survey in English.

	Did Not Receive Effective Care Coordination <sup>a</sup>	Had Inadequate Current Health Insurance Coverage <sup>b</sup>	Received No Help Coordinating Care (Among Those Who Needed Extra Help) <sup>c</sup>	Had Problems Obtaining Referrals (Among Those Who Needed Referrals) <sup>d</sup>
	aOR (95% CI)	aOR (95% CI)	aOR (95% CI)	aOR (95% CI)
Survey Cycle				
2005–2006	ref	ref	ref	ref
2009–2010	1.06 (0.43–2.60)	0.45 (0.19–1.09)	5.58 (1.30–24.00)	0.78 (0.26–2.39)

aOR=adjusted odds ratio; NS-CSHCN= National Survey of Children with Special Health Care Needs

<sup>a</sup>Adjusted for sex, age group, race/ethnicity, highest education level, family-centered care, and current insurance type.

<sup>b</sup>Adjusted for sex, age group, race/ethnicity, usual source for sick care, and current insurance type.

<sup>c</sup>Adjusted for sex, age group, race/ethnicity, activity limitations, family-centered care, and current insurance type.

<sup>d</sup>Adjusted for sex, age group, race/ethnicity, and usual source for sick care.

**Table B.** Exploratory adjusted odds ratios, with certain variables excluded from models for receiving no health coordinating care and having inadequate current health insurance coverage among children with muscular dystrophy, NS-CSHCN 2005-2006 and 2009-2010: Results from multivariable logistic regression

	Received No Help Coordinating Care (Among Those Who Needed Extra Help) <sup>a</sup>	Had Inadequate Current Health Insurance Coverage <sup>b</sup>
	aOR (95% CI)	aOR (95% CI)
Survey Cycle		
2005–2006	ref	ref
2009–2010	1.92 (0.74–4.96)	0.50 (0.22–1.17)

aOR=adjusted odds ratio; NS-CSHCN= National Survey of Children with Special Health Care Needs

<sup>a</sup>Adjusted for sex, age group, race/ethnicity, activity limitations, current insurance type (excluded family-centered care).

<sup>b</sup>Adjusted for sex, age group, race/ethnicity, usual source for sick care (excluded current insurance type).
