

FY2018

**Centers for Disease Control and Prevention
Fiscal Year 2018 Grants Summary Profile Report for**

Kansas

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in Kansas. Refer to the "About the Data" section below for important qualifying statements about the data.

2018 Population Estimate: 2,911,505
Timeframe: 10/01/17 - 09/30/18

CATEGORY	OBLIGATED AMOUNT	PERCENTAGE
Birth Defects, Developmental Disabilities, Disability and Health	\$817,967	1.2%
CDC-Wide Activities and Program Support	\$1,580,512	2.3%
Chronic Disease Prevention and Health Promotion	\$9,437,599	13.6%
Emerging and Zoonotic Infectious Diseases	\$1,441,595	2.1%
Environmental Health	\$1,387,047	2.0%
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$2,376,162	3.4%
Immunization and Respiratory Diseases	\$3,002,228	4.3%
Injury Prevention and Control	\$14,661,129	21.2%
Public Health Preparedness and Response	\$6,974,852	10.1%
Public Health Scientific Services (PHSS)	\$1,009,180	1.5%
Vaccines for Children	\$26,607,209	38.4%
Grand Total	\$69,295,480	100.0%

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Birth Defects, Developmental Disabilities, Disability and Health	\$817,967
Child Health and Development	\$277,972
Health and Development with Disabilities	\$539,995
CDC-Wide Activities and Program Support	\$1,580,512
Preventive Health and Health Services Block Grant - PPHF	\$1,580,512
Chronic Disease Prevention and Health Promotion	\$9,437,599
Arthritis	\$289,505
Cancer Prevention and Control	\$4,354,227
Diabetes - PPHF	\$1,042,946
Heart Disease and Stroke	\$800,000
Heart Disease and Stroke - PPHF	\$1,042,945
Nutrition, Physical Activity and Obesity	\$58,463

FY2018

CATEGORY & SUB-CATEGORY**OBLIGATED AMOUNT**

Oral Health	\$370,000
Racial and Ethnic Approach to Community Health (REACH) - PPHF	\$140,464
Safe Motherhood/Infant Health	\$157,500
Tobacco - PPHF	\$1,181,549
Emerging and Zoonotic Infectious Diseases	\$1,441,595
Advance Molecular Detection (AMD)	\$88,015
Antibiotic Resistance Initiative	\$628,569
Epi and Lab Capacity Program - PPHF	\$237,917
Food Safety	\$233,972
Vector-borne Diseases	\$253,122
Environmental Health	\$1,387,047
Asthma	\$45,000
Childhood Lead Poisoning	\$468,202
Environmental and Health Outcome Tracking Network	\$619,359
Environmental Health Laboratory	\$254,486
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$2,376,162
Domestic HIV/AIDS Prevention and Research	\$1,352,912
Sexually Transmitted Infections (STIs)	\$646,480
Tuberculosis (TB)	\$376,770
Immunization and Respiratory Diseases	\$3,002,228
Immunization Program	\$579,739
Immunization Program - PPHF	\$2,144,634
Influenza/Influenza Planning and Response	\$277,855
Injury Prevention and Control	\$14,661,129
Intentional Injury	\$1,100,387
NVDRS	\$246,555
Opioid Overdose Prevention and Surveillance	\$13,314,187
Public Health Preparedness and Response	\$6,974,852
CDC Preparedness and Response Capability	\$311,959
Public Health Emergency Preparedness Cooperative Agreement	\$6,662,893
Public Health Scientific Services (PHSS)	\$1,009,180
Surveillance, Epidemiology, and PH Informatics	\$1,009,180
Vaccines for Children	\$26,607,209
Vaccine Purchases	\$25,993,139
Vaccines for Children	\$614,070
Grand Total	\$69,295,480

Centers for Disease Control and Prevention Fiscal Year 2018 Grants Detail Profile Report for Kansas

FY2018

About the Data

Data Included

- The grants and cooperative agreements data in this report include actions awarded (i.e., obligated funds) domestically in fiscal year 2018 (FY18; 10/1/17 to 9/30/18) from CDC's annual appropriations..
- In addition to including the value of cooperative agreements for immunization programs, the data also includes the value of vaccines purchased and provided through the Vaccines for Children program.
- Because the data includes funds obligated in FY18, it includes funding authorized through legislation passed in previous years, but only the amount actually obligated in FY18.
- The funding data is categorized by CDC budget line (i.e., by the CDC appropriation account used to make the investment), as shown in the FY18 CDC Operating Plan at <https://www.cdc.gov/budget/fy2018/operating-plans.html>.

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development.
- Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (e.g., fund transfers to CDC from DHHS, including the HHS Public Health and Social Services Emergency Fund and Hospital Preparedness Program), Gifts and Donations, Global Health funds, and Buildings and Facilities funds.

Therefore, this data does not reflect CDC's total appropriations in any given area.

Data Sources

- Funding Data - CDC Office of Financial Resources (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines For Children data)
- United States, the District of Columbia, and Puerto Rico - the 2010 U.S. Census, updated with 2018 estimates at <https://www2.census.gov/programs-surveys/popest/tables/2010-2018/state/totals/nst-est2018-01.xlsx>
- For all other geographies - 2018 estimates for population are from The World Factbook at <https://www.cia.gov/library/publications/resources/the-world-factbook/index.html>

FY2018

Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to grantees within states and territories by CDC budget line. However, caution should be used in interpreting variations across years or jurisdictions. Several reasons for variations are (1) the amounts, purpose, and focus of funding provided by Congress each year can vary, and (2) changes in national and/or CDC/ATSDR priorities and strategies due to factors such as urgent and emerging health threats and changes in population health status and needs. In terms of funding opportunities, (1) not all eligible entities apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all eligible entities that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:
 - CDC has many different grant types with varying application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
 - Awards made to an entity will typically reflect the geographic location of the entity's official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
 - CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association's main office.
 - In addition, there may be variation across years for where a program/activity resides in CDC's organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. In addition, funding categories may be added or deleted as CDC's budget changes year to year (e.g., funding categories are deleted because their shorter-term funding sources expire). This makes 1:1 comparisons of one year's set of projects to another year's set of projects under each category or sub-category a challenge.
