

FY2018

Centers for Disease Control and Prevention
Fiscal Year 2018 Grants Summary Profile Report for

New York

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in New York. Refer to the "About the Data" section below for important qualifying statements about the data.

2018 Population Estimate: 19,542,209
Timeframe: 10/01/17 - 09/30/18

Table with 3 columns: CATEGORY, OBLIGATED AMOUNT, PERCENTAGE. Lists various CDC grant categories and their corresponding amounts and percentages, ending with a Grand Total of \$498,743,658 (100.0%).

Table with 2 columns: CATEGORY & SUB-CATEGORY, OBLIGATED AMOUNT. Provides a detailed breakdown of the Agency for Toxic Substances and Disease Registry (ATSDR) grant, totaling \$573,050.

FY2018

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
CDC-Wide Activities and Program Support	\$12,221,907
Hurricane Supplemental	\$10,000
Preventive Health and Health Services Block Grant - PPHF	\$11,791,928
Public Health Leadership and Support	\$419,979
Chronic Disease Prevention and Health Promotion	\$31,278,443
Arthritis	\$310,570
Cancer Prevention and Control	\$12,375,200
Diabetes	\$3,992,787
Diabetes - PPHF	\$301,846
Epilepsy	\$328,138
Health Promotion	\$787,000
Heart Disease and Stroke	\$4,632,787
Heart Disease and Stroke - PPHF	\$301,846
Nutrition, Physical Activity and Obesity	\$1,003,000
Prevention Research Centers	\$1,468,000
Racial and Ethnic Approach to Community Health (REACH)	\$1,681,666
Safe Motherhood/Infant Health	\$565,000
Tobacco - PPHF	\$3,530,603
Emerging and Zoonotic Infectious Diseases	\$16,323,107
Advance Molecular Detection (AMD)	\$358,916
Antibiotic Resistance Initiative	\$6,396,068
Emerging Infectious Diseases	\$544,803
Epi and Lab Capacity Program - PPHF	\$3,746,272
Food Safety	\$1,894,309
Healthcare Associated Infections (HAIs) - PPHF	\$1,453,750
Lyme Disease	\$227,736
Prion Disease	\$69,999
Vector-borne Diseases	\$1,631,254
Environmental Health	\$6,533,502
Asthma	\$1,331,200
Childhood Lead Poisoning	\$297,315
Environmental and Health Outcome Tracking Network	\$1,749,840
Environmental Health - PPHF	\$453,522
Environmental Health - Water and Waste Act	\$395,950
Environmental Health Activities	\$2,006,126
Environmental Health Laboratory	\$299,549
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$83,000,696
Domestic HIV/AIDS Prevention and Research	\$71,046,432

FY2018

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Sexually Transmitted Infections (STIs)	\$6,858,455
Tuberculosis (TB)	\$4,942,946
Viral Hepatitis	\$152,863
Immunization and Respiratory Diseases	\$18,649,575
Immunization Program	\$2,972,360
Immunization Program - PPHF	\$13,409,964
Influenza/Influenza Planning and Response	\$2,267,251
Injury Prevention and Control	\$13,520,378
Injury Control Research Centers	\$2,339,201
Injury Prevention Activities	\$163,909
Intentional Injury	\$2,480,908
NVDRS	\$458,404
Opioid Overdose Prevention and Surveillance	\$8,044,900
Unintentional Injury	\$33,056
Occupational Safety and Health	\$5,623,815
Education and Research Centers	\$1,468,279
National Occupational Research Agenda (NORA)	\$3,457,027
Other Occupational Safety and Health Research	\$698,509
Public Health Preparedness and Response	\$38,184,315
CDC Preparedness and Response Capability	\$257,845
Public Health Emergency Preparedness Cooperative Agreement	\$37,926,470
Public Health Scientific Services (PHSS)	\$2,106,642
Surveillance, Epidemiology, and PH Informatics	\$2,106,642

Centers for Disease Control and Prevention Fiscal Year 2018 Grants Detail Profile Report for New York

FY2018

About the Data

Data Included

- The grants and cooperative agreements data in this report include actions awarded (i.e., obligated funds) domestically in fiscal year 2018 (FY18; 10/1/17 to 9/30/18) from CDC's annual appropriations..
- In addition to including the value of cooperative agreements for immunization programs, the data also includes the value of vaccines purchased and provided through the Vaccines for Children program.
- Because the data includes funds obligated in FY18, it includes funding authorized through legislation passed in previous years, but only the amount actually obligated in FY18.
- The funding data is categorized by CDC budget line (i.e., by the CDC appropriation account used to make the investment), as shown in the FY18 CDC Operating Plan at <https://www.cdc.gov/budget/fy2018/operating-plans.html>.

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development.
- Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (e.g., fund transfers to CDC from DHHS, including the HHS Public Health and Social Services Emergency Fund and Hospital Preparedness Program), Gifts and Donations, Global Health funds, and Buildings and Facilities funds.

Therefore, this data does not reflect CDC's total appropriations in any given area.

Data Sources

- Funding Data - CDC Office of Financial Resources (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines For Children data)
- United States, the District of Columbia, and Puerto Rico - the 2010 U.S. Census, updated with 2018 estimates at <https://www2.census.gov/programs-surveys/popest/tables/2010-2018/state/totals/nst-est2018-01.xlsx>
- For all other geographies - 2018 estimates for population are from The World Factbook at <https://www.cia.gov/library/publications/resources/the-world-factbook/index.html>

FY2018

Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to grantees within states and territories by CDC budget line. However, caution should be used in interpreting variations across years or jurisdictions. Several reasons for variations are (1) the amounts, purpose, and focus of funding provided by Congress each year can vary, and (2) changes in national and/or CDC/ATSDR priorities and strategies due to factors such as urgent and emerging health threats and changes in population health status and needs. In terms of funding opportunities, (1) not all eligible entities apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all eligible entities that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:
 - CDC has many different grant types with varying application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
 - Awards made to an entity will typically reflect the geographic location of the entity's official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
 - CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association's main office.
 - In addition, there may be variation across years for where a program/activity resides in CDC's organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. In addition, funding categories may be added or deleted as CDC's budget changes year to year (e.g., funding categories are deleted because their shorter-term funding sources expire). This makes 1:1 comparisons of one year's set of projects to another year's set of projects under each category or sub-category a challenge.
