

# Attention Prescribers

Positive Urine  
Culture  $\neq$  UTI

**DON'T** routinely send urine cultures in your  
asymptomatic adult patients

- Asymptomatic bacteriuria is more common than UTI and does not need to be treated in most cases!

# Attention Prescribers

## UTI:

- Symptoms
- Bacteriuria
- Pyuria

**DON'T** send **urine cultures** in  
your asymptomatic adult  
patients

Asymptomatic bacteruria is more  
common than UTI and does not need  
to be treated in most cases!
