

Supplemental Figure 1.

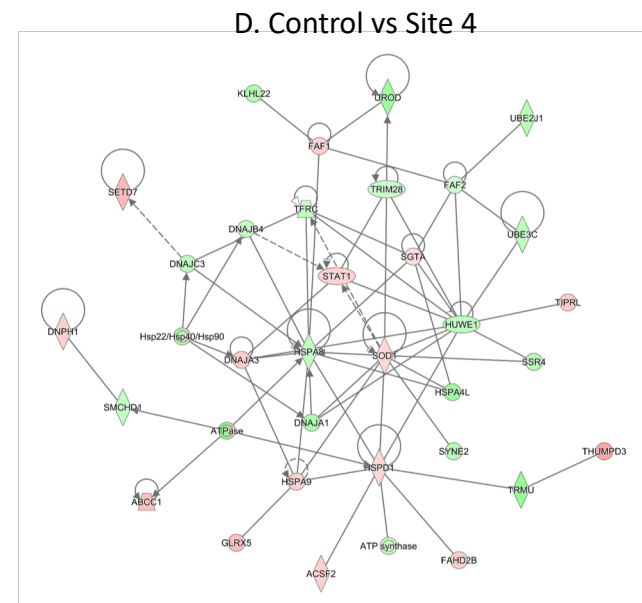

Supplemental Figure 2.

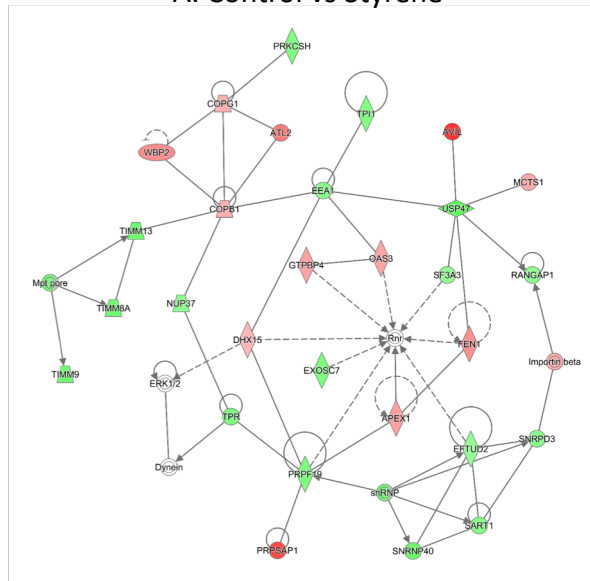

Cell morphology, cellular assembly and organization, auditory disease

Cancer, gastrointestinal disease, hepatic
system disease

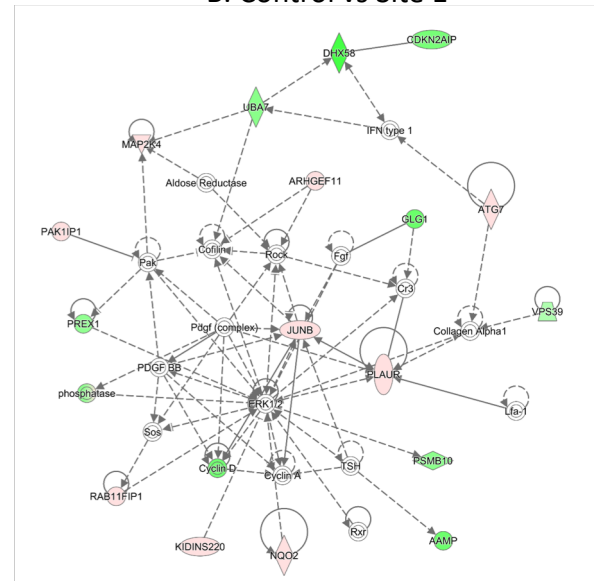

Supplemental Figure 4.

A. Control vs Styrene

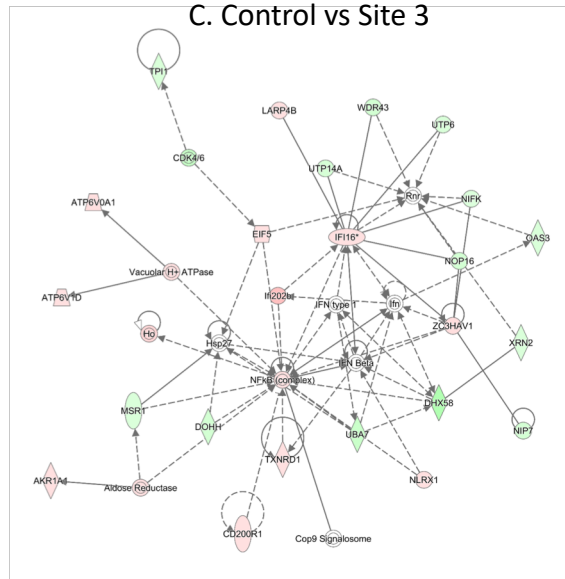

RNA post-transcriptional modification, cell cycle,
DNA replication, recombination, and repair

B. Control vs Site 1

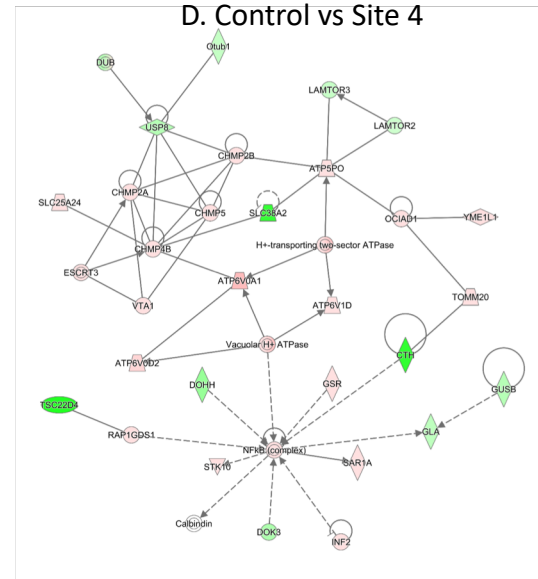

Cellular movement, cell death and
survival, cell morphology

C. Control vs Site 3

Infectious diseases, antimicrobial
response, inflammation response

D. Control vs Site 4

Infectious diseases, cell morphology,
organismal development
