Funding for AR Activities
Fiscal Year 2019

FUNDING TO STATE HEALTH DEPARTMENTS

\$51,452

RAPID DETECTION & RESPONSE: State, territory, and local public health partners fight antibiotic resistance in healthcare, the community, and food. Programs use the AR Lab Network to rapidly detect threats and implement prevention, response, and antibiotic stewardship to stop the spread of resistant germs.

In 2019, Guam received funds for HAI/AR prevention, detection, and response activities through the CDC Epidemiology and Laboratory Capacity Cooperative Agreement. With these funds, Guam will establish an HAI/AR epidemiology focal point to develop and strengthen HAI/AR Program core capacities.
