

# Coronavirus Disease 2019 (COVID-19)

## Staffing Resources

*Get and Keep America Open: Supporting states, tribes, localities, and territories*

Updated May 2, 2020

## Key Concepts

- **Strengthening the public health workforce.** Enhancing frontline public health capacity in state, local, tribal, and territorial health departments to intensify the coordinated response to COVID-19 is critical.

## Resources from CDC

CDC is using a multi-pronged approach to help enhance and complement the efforts of state, tribal, local, and territorial staff. This initiative will help health departments with the staffing resources they need for their programs to get and keep America open.

- **New! Federal Resources for COVID-19 Contact Tracing Staffing**  : This fact sheet describes several ways health departments can access additional staffing for COVID-19 contact tracing, including through State Service Commissions and AmeriCorps Programs, CDC, and FEMA.
- **COVID-19 Staffing Guidance:** CDC COVID-19 staffing guidance for state, tribal, local, and territorial health departments.
- **CDC's COVID-19 Response Corps.** The COVID-19 Response Corps is a nationwide community-focused initiative to provide surge staffing and resources in state, tribal, local, and territorial health departments on the frontlines of the fight against COVID-19.
- **CDC Foundation: COVID-19 Corps Jobs.**  In support of CDC's COVID-19 Response Corps, the CDC Foundation is urgently recruiting candidates for critical positions nationwide. Interested parties should go to the CDC Foundation website and apply directly for positions.
- **COVID-19 Training Resources.**  CDC's COVID-19 trainings are available on TRAIN, a national learning network that provides training opportunities to professionals who protect and improve the public's health.

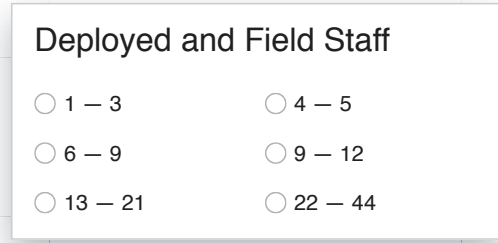

## CDC COVID-19 Response Staff Deployed Across America

\*These numbers reflect data from May 2, 2020 – number of staff can change daily.

This map shows CDC deployments and CDC field staff. There are currently 665 CDC staff working in state, tribal, local and territorial health agencies.

Number of Staff Deployed: 665

Four staff are currently deployed to support the Indian Health Service (not shown on map).

# Resources from Other Organizations

Content describing non-CDC tools on this site is provided for informational purposes only and is **not intended to indicate endorsement**, actual or implied, of the tools. Additionally, information on this site is provided “as is,” for users to evaluate and make their own determination as to their effectiveness.

## Private Sector, Non-governmental Organizations and Academia

Various other organizations are also supporting this critical effort by providing:

- **CDC Foundation COVID-19 Corps:** The CDC Foundation is urgently recruiting candidates for critical positions related to the COVID-19 Corps initiative nationwide. Interested parties should go to the CDC Foundation website apply directly for [CDCF COVID Corps positions](#) . Since the CDC Foundation is continuing to actively add jobs in new states, candidates should check back regularly if they do not find a role for which they qualify immediately.
- **US Digital Response:** The [US Digital Response](#) is a volunteer-run, non-partisan service offering free access to skilled expertise for local governments who need support. We have a database of **more than 4,500 qualified professionals**, experienced in user research and design, back-end engineering (including mainframe engineering skills), product management, and data science.
- **Generation USA:** [Generation USA](#) rapidly recruits, trains, and places unemployed and underemployed individuals by providing social supports to learners, working with public entities from the start to identify skill gaps and vacancies, and tailoring the training curriculum to their needs. Generation USA sees an opportunity to train and place new hires in healthcare roles, including positions related to contact tracing, and to upskill existing healthcare workers across the U.S. in partnership with local and state health departments, businesses, nonprofits, universities, and community groups.
- **Securitas Critical Infrastructure Services:** SCIS has staff available to support contract tracing and health assistance activities on a national basis. Many SCIS professionals are already trained in non-intrusive investigation/inspection techniques, have all been vetted – usually to a federal standard, and can be trained quickly by our quality control/training staff to meet specific state or agency requirements. More information is available on the SCIS [website](#) .
- **Medical Reserve Corps (MRC)** : The MRC network consists of approximately 850 community-based units comprised of local medical, public health, and other volunteers. MRC units can help support state, local, tribal, and territorial entities in COVID-19 response efforts by augmenting public health and medical teams, conducting contact tracing, assisting with patient monitoring, supporting community screening and testing operations, and staffing call centers. Local MRC unit information is available by state at <https://mrc.hhs.gov/FindMRC> .
- **YMCA:** As one of the largest nonprofits focused on strengthening communities, helping people in need is foundational to [the Y's](#) mission. In response to COVID-19, many Ys nationwide are delivering critical emergency services for vulnerable populations—offering emergency childcare for frontline workers, distributing meals to children and families, providing shelter, and offering virtual programming focused on fitness, chronic disease prevention and youth enrichment activities. The Y remains committed to being a trusted connector between public health agencies, local governments and others providing emergency responses to the crisis. To learn more, visit [www.ymca.net](http://www.ymca.net).
- **AllSTEM Connections:** [AllSTEM Connections](#) , a niche US staffing firm, is united in the fight to protect workers and prevent the spread of COVID 19 in the workplace. AllSTEM currently works with small and large businesses across the United States providing environmental associates (temperature takers), supportive IT and engineering staff, and scientific and laboratory technicians. AllSTEM Connections is also actively sourcing qualified talent to

provide contact tracing support. AllSTEM Connections is prepared to provide workers trained in confidentiality, proper interview protocols and the ability to document as well as provide appropriate instructions and referral information.

- **LevelUP Human Capital Solutions (HCS):** [LevelUP](#)  assists organizations to achieve their operational goals by creating sustainable talent programs that leverage the power of their subject matter experts, industry best practices, and advanced technology delivered with our best-in-class client service. LevelUP focuses on customized solutions tailored to specific talent and HR demands, whether it be a short-term project, full-scale Recruitment Placement Outsourcing (RPO), or Managed Service Provider for contingent workforce. LevelUP provides a level of service and results that is unmatched in the talent industry.
- **Refugees.Rescue.org:** The IRC has launched a new website, [Refugees.Rescue.org](#)  , to enable refugees and immigrants in the US to self-register to express their interest in volunteering and/or working on the COVID-19 response – as part of their local community or in another location. With the current COVID-19 crisis, there will likely be more opportunities to deploy refugees and immigrants living in the US who are trained medical and health professionals but are not credentialed in the US. IRC is working with a number of different stakeholders to increase opportunities and create pathways for this participation.
