Cases and deaths are reported by state Department of Corrections and the Federal Bureau of Prisons at the facility-level unless indicated by \*, which designates cumulative state-wide totals (county-wide for DC) from deaths reported from any named facilities. Data contain cumulative confirmed COVID-19 counts in U.S. correctional and detention facilities, separately for staff and residents, starting from March 31, 2020. Data collected principally represented by prisons, with exception of a few states that include jails.
