Coronavirus Disease 2019 (COVID-19)

CDC COVID Data Tracker

Maps, charts, and data provided by the CDC

The CDC COVID-19 Data Tracker has a new look and location to make the data easier to find and use. All previous data remains and will be updated on the same schedule. Please update bookmarks and links.

Also, as of August 27, 2020 the Tracker includes correctional facility information, NIH Vulnerability Index data, and upgraded testing information.

Tests Performed	Percent Positive	**Tests per 100,000**

COVID-19 Viral (RT-PCR) Laboratory Test Rate by State/Territory (tests per 100,000)

Territories

GU	PR	VI

Test Rate per 100,000

4,511 - 14,057 | 16,328 - 20,128 | 21,430 - 25,484 | 26,838 - 32,391 | 33,837 - 43,914 | 49,943 - 77,778

COVID-19 Viral (RT-PCR) Test Rate by State/Territory

State	Tests per 100K	% Positive
California	29,170	6-10%
New York	77,778	6-10%
Florida	38,307	11-20%
Texas	18,118	11-20%
Illinois	30,626	6-10%
Michigan	43,914	0-5%
Pennsylvania	20,042	6-10%
Massachusetts	36,222	6-10%
New Jersey	26,838	0-5%
Georgia	22,073	11-20%
Tennessee	33,837	6-10%
Ohio	19,380	6-10%
North Carolina	21,430	6-10%
Maryland	36,068	6-10%

Disclaimer: The data presented above represent viral COVID-19 laboratory test (reverse transcription polymerase chain reaction) results from laboratories in the

United States, including commercial and reference laboratories, public health laboratories, hospital laboratories, and other testing locations. The data represent laboratory test totals—not individual people—and exclude antibody and antigen tests. The data are provisional and subject to change. The data presented may not include counts for the most recent 3 days due to the time it takes to report testing information. The data may also not include results from all testing sites within a jurisdiction (e.g., point-of-care test sites) and therefore reflect the majority, but not all, COVID-19 tests in the United States. The data do not include COVID-19 antigen or antibody testing results.

The data are reported to state and jurisdictional health departments in accordance with applicable state or local law and in accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act (CARES Act Section 18115). The data for each state are sourced from either data submitted directly by the state health department via COVID-19 electronic laboratory reporting (CELR), or a combination of commercial, public health, and in-house hospital laboratories. CELR data are used for states that either submit line-level data or submit aggregate counts that do not include antigen or antibody tests. The data are available for public use on HealthData.Gov.
