2020 12:16PM

Tests Performed	Percent Positive	Tests per 100,000
-----------------	------------------	-------------------

COVID-19 Viral (RT-PCR) Laboratory Test Rate by State/Territory (tests per 100,000)

COVID-19 Viral (RT-PCR) Test Rate by State/Territory

State	Tests per 100K	% Positive
California	31,688	6-10%
New York	85,556	6-10%
Florida	41,164	11-20%
Texas	19,925	11-20%
Illinois	34,404	6-10%
Michigan	33,611	0-5%
Massachusetts	42,908	0-5%
Pennsylvania	22,284	6-10%
New Jersey	29,765	0-5%
North Carolina	24,133	6-10%
Ohio	21,338	6-10%
Georgia	23,607	11-20%
Tennessee	35,912	6-10%
Maryland	40,216	6-10%
Wisconsin	37,168	0-5%
Indiana	32,031	6-10%

CDC | Updated: Sep 15 2020 12:16PM

Disclaimer: The data presented above represent viral COVID-19 laboratory test (reverse transcription polymerase chain reaction) results from laboratories in the United States, including commercial and reference laboratories, public health laboratories, hospital laboratories, and other testing locations. The data represent laboratory test totals—not individual people—and exclude antibody and antigen tests. The data are provisional and subject to change. The data presented may not include counts for the most recent 3 days due to the time it takes to report testing information. The data may also not include results from all testing sites within a jurisdiction (e.g., point-of-care test sites) and therefore reflect the majority, but not all, COVID-19 tests in the United States. The data do not include COVID-19 antigen or antibody testing results.

The data are reported to state and jurisdictional health departments in accordance with applicable state or local law and in accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act (CARES Act Section 18115). The data for each state are sourced from either data submitted directly by the state health department via COVID-19 electronic laboratory reporting (CELR), or a combination of commercial, public health, and in-house hospital laboratories. CELR data are used for states that either submit line-level data or submit aggregate counts that do not include antigen or antibody tests. The data are available for public use on [HealthData.Gov](https://www.healthdata.gov).
